Books

How do the rich get rich?
An updated edition of the
"remarkable" New York
Times bestseller, based
on two decades of
research (The Washington
Post). Most of the truly
wealthy in the United
States don't live in
Beverly Hills or on Park
Avenue. They live next

door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The*

Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to

today's earn-and-consume culture."

—Library Journal

The Ultimate Gamers Codebook David and Charles

Hundreds of entrants, in cars of all shapes and sizes, battled through mid-winter snow, fog, ice and darkness from far-flung starting points towards the magical principality of Monaco. Mishaps, breakdowns and smashes abounded, and competitors had tales to tell of cars teetering on the edge of precipices or rammed into snowbanks,

frantically improvised repairs, close encounters and feats of crazy bravado. The first rally was run in 1911, with just 20 starters. In 1930 there were 100, in 1949 205, and in the peak year, 1953, there were no less than 404. In this book every Monte Carlo Rally held between 1911 and 1980 is covered individually, with results listings and route maps. As the years unfold we see the successes of Hotchkiss in the late 1940s, Sunbeam-Talbot in the early 1950s, Mini-

Cooper in the 1960s, Porsche 911 in the late '60s, and the dominance of Alpine Renault and Lancia Stratos in the 1970s. The author also provides essential information on regulations, routes, on what competitors were required to do, on the tests held after arrival in Monaco, on classes of entries, and on the various Concours, including for instance the Concours de Confort, that were there to be won. Thus a complete picture of the aims and nature of

the rally as it evolved is formed. Written by the world's leading rally historian, and featuring more than 300 archive photographs, this book provides both the definitive history of the greatest motor rally of all time and an evocative view of a golden age of motoring history. *The Ultimate Code Book* Retromechanix Productions The story of the front-wheel-drive Saab 96, which made the brand into a rally icon in the 1960s. It succeeded in

events as diverse as the Monte Carlo, Britain's RAC Rally, many Scandinavian events, and the Spa-Sofia-Liege Marathon. The 96 and V4 models produced victory where no-one expected it.

This book describes the birth, development, and rallying car of the turbocharged, four-wheel-drive Subaru Impreza in the 1990s and early 2000s, providing a compact and authoritative history of where, when and how it became so important to the sport.

Codes & Cheats David and Charles
The Audi Quattro was the world's first successful four-wheel-drive rally car. It brought new standards to the sport, and inspired many others to copy it. This is the complete story. *Autocar & Motor* Prima Games
The Ford Escort MkII was a worthy successor to the original MkI. It became Ford's most successful rally car and the cars are still winning historic events today. It brought new standards to the sport, inspiring many

others to copy it. Contains full details of every 'works' Escort MkII that went rallying, plus driver and personality profiles, and detailed car evolution. *Subaru Impreza* Herridge & Sons Limited
This book describes the birth, development and rallying career of the Lancia Stratos, Europe's very first purpose-built rally car, in the mid/late 1970s, providing a compact and authoritative history of where, when and how it became so important to the sport.

Also tells the story of the team.

Toyota Celica GT-Four

David and Charles

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of

Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by

stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Lancia Stratos - Rally

David and Charles

This reference features the best models from the greatest manufacturing companies of the world, both past and present. Alphabetized entries include a short history of each manufacturer. Specific models of 600-plus cars are examined in detail and illustrated by

color and bandw photos highlighting their unique qualities. The story of each classic car is complemented by performance tables that include information such as maximum speed and power, engine type, and details of transmission, chassis, suspension and brakes. Oversize: 9.5x12". Annotation copyrighted by Book News, Inc., Portland, OR
Classic Car David and Charles
 "When I see an Alfa Romeo, I lift my hat."
 Henry Ford Few things

ignite such reverence as a classic car. With more than 250 iconic models from the 1940s to the 1980s, photographed from every angle, this title is a glorious celebration of the stars in the classic car firmament. Edited by award-winning automotive journalist Giles Chapman, *Classic Car* brings you the story of more than 20 great marques, including household names Bentley, Mercedes, Ferrari, Cadillac, and Aston Martin. Its lavish photography reveals

every detail in close-ups of models that range from the 1940s giant two-ton Daimler DE36, which ferried royals about in style, through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier. It puts you in the driving seat of such icons as the Chevrolet Corvette, the Ford Thunderbird, and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers. Whether you dream of owning one of these

super-cool cars or you are a collector already, Classic Car is set to become a treasured favorite.

The Autocar David and Charles

This book presents beautiful full color art of ten of the most amazing unbuilt streamlined auto projects of the interwar era, including a torpedo-like race car with periscopes; teardrop passenger cars; rocket-powered winged autos; Harry Miller's LSR dream car; an aircraft-like three-wheel GP car; and a pair of futuristic Nazi record

vehicles.

The Complete Book of the World Rally Championship David

and Charles

This book provides a straight forward and easy to use guide to the beginner and seasoned mechanic/engine tuner. The book explains the fundamentals of electronic engine tuning in an easy to follow and linear manner. The reader can go chapter by chapter or skip to whichever section interests them. The book begins with an introduction to Electronic

Engine Tuning and covers the tools necessary for electronic tuning, the software required and other basics. The book then takes an in depth look at Fuel Injection, Ignition, Boost Control and Water Injection from the point of view of the electronic tuner. There is a dedicated chapter dealing with tuning for different fuel types and octane levels. Finally, I wrap things up by discussing the fundamentals of 1 dimensional and 2 dimensional mapping and

providing a checklist for the beginner tuner to use when setting up an ECU on a new engine.
