Independently Published Teaching of English in India has been traditionally grammar based. The teacher teaches a good deal of

grammar; assigns exercises in class or as homework and makes a lot of corrections. Such painstaking efforts on the part of the teacher are, of course, helpful in learning the language but does not much help the student to use the language in day-to-day conversation. Leaving aside the traditional method of dealing with grammar as an isolated subject, the present book offers a specific course in spoken English that focuses on the language of interaction and social

exchanges. Its main emphasis is on developing communicative ability of the learner.
