## MANN HERRING

*How to Entertain at Home* Random House Books for Young Readers

Colorfully decorated like Easter eggs, and nestled in a backer, the 12 miniature books found in this story book set--that's cleverly fashioned like a basket--are meant to be hidden on Easter morning and then, when they're all found, to be read in sequence.

**Supporting Ict In The Early Years** Routledge

Provides instructions for over one hundred craft activities for children, grouped according to season with a separate section for Christmas.

*Junie B., First Grader* Random House Books for Young Readers

It is Muffy's Spring Fling party, and Arthur is so slow that he comes in last in every game--except for the jelly bean hunt, where not finishing early proves to be an advantage.

[The Legend of JellyBean and the Unbreakable Egg](#) Thomas Nelson Publishers

It was just before Easter on Holiday Hill Farm when five little chicks hatched in back of the barn. And then . . . something went wrong! As the chicks race against time to discover the secret of the unbreakable egg, they learn the value of teamwork, the importance of kindness, and the amazing power of a good hug!

*Death on the Bank of Two Rivers* Workman Publishing

This best-selling text book provides a broad-ranging and up-to-date review of thinking and best practice within nursery and infant education. Written around the basic truth that an effective early years curriculum must start with the children, their needs and their potential, the contributors to this classic text acknowledge that learning must have a strong element of fun, wonder and excitement. Fully revised and updated in light of recent changes to the Early Years curriculum, with brand new chapters on assessment, communication, writing, creativity and diversity, the contributors address a range of fundamental issues and principles, including: an analysis of research into how children learn; discussions of issues such as classroom organisation, curriculum management, and assessment; a detailed section on play and language; chapters covering individual curriculum areas, including new chapters on music and PSHE. Each chapter combines a review of important principles with practical and inspiring classroom examples throughout. It is essential reading for all Foundations Stage and KS1 trainee teachers, their tutors and mentors, and serving teachers working in the 3-7 age range who wish to reflect upon and develop their practice.

As a clinician, do you suffer from "exposure phobia?" This breakthrough book offers 400 creative, innovative, and easy-to-implement exposure exercises to help you and your clients move past fears, energize treatment sessions, and improve client outcomes. In cognitive behavioral therapy (CBT), exposures are the gold standard for treating anxiety-related disorders, including obsessive-compulsive disorder (OCD), panic, and phobias. But if you're like many therapists, you've likely encountered clients who are fearful or reluctant to exposure therapy. As a result, you may also shy away from doing exposures out of fear of worsening your client's anxiety or rupturing the client/therapist rapport. So, how can you find a new approach for using this effective--yet intimidating--treatment? The Big Book of Exposures offers unconventional new exposures to help you provide the most effective treatment possible. In addition, you'll also find a comprehensive overview of exposure therapy; a rationale for its use in treating anxiety-related disorders; troubleshooting tips for dealing with common roadblocks, such as avoidance; and techniques for helping clients stay motivated during treatment. With this essential resource, you'll learn to create engaging and enjoyable exposure exercises to improve treatment outcomes and help your clients live better lives.
