Fundamentals of Advanced Accounting, 2/e is ideal for those schools wanting to cover 12 chapters in their advanced accounting course. Typically, this course covers 5-6 consolidations chapters, two foreign currency chapters, two partnership chapters, and 2-3 governmental and not-for-profit chapters. Fundamentals of Advanced Accounting boasts the same great assets that have made the authors' longer Advanced Accounting a success, including the incorporation of the latest FASB pronouncements, the integration of skill preparation for the new CPA exam, and of course, great authorship. This edition also includes an update on the Financial Accounting Standard Board (FASB), in conjunction with the

International Accounting Standards Board, which enacted the following two statements of financial accounting standards (SFAS) that will affect significantly the accounting and financial reporting for business combinations: SFAS 141R, "Business Combinations" (to replace SFAS 141). SFAS 160, "Noncontrolling Interests and Consolidated Financial Statements" (to replace Accounting Research Bulletin 51).

Advanced Accounting CRC Press
This book offers a comprehensive and

readable introduction to modern business and data analytics. It is based on the use of Excel, a tool that virtually all students and professionals have access to. The explanations are focused on understanding the techniques and their proper application, and are supplemented by a wealth of in-chapter and end-of-chapter exercises. In addition to the general statistical methods, the book also includes Monte Carlo simulation and optimization. The second edition has been thoroughly revised: new topics, exercises and examples have been added, and the readability has been further improved. The book is primarily intended for students in business, economics and government, as well as professionals, who need a more rigorous introduction to business and data analytics – yet also need to learn the topic quickly and without overly academic explanations.
