### **Stained Glass Boxes and Flat Glass**

Courier Corporation

**\*\*A New York Times Bestseller!\*\*** Based on the wildly popular Instagram account, Subpar Parks features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. Subpar Parks, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative, amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Millions of visitors each year enjoy Glacier National Park, but for one visitor, it was simply "Too cold for me!" Another saw the mind-boggling vistas of Bryce Canyon as "Too spiky!" Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well

as have a good read (and laugh) once they come indoors.

*Stained Glass Boxes Simplified* Rowman & Littlefield

This comprehensive book contains a wide range of designs for 30 unique stained glass plant containers. It is complete with a helpful guide to selecting and caring for plants in terrariums. A total of 30 unique designs cover a full range of uses from simple plant pots to elaborate terrariums in styles to suit everyone. All projects have a specification list, material list, illustrations and colour suggestions. Step-by-step photographs are provided to guide you through a typical project assembly. All projects are shown in colour and are accompanied by over 60 black and white photographs and illustrations.

*Art Glass Panel Designs One* Belleville, Ont. : Wardell Publications

Stained glass has long been a part of domestic architecture, but in the late 1800s its popularity soared. In part, this was due to new manufacturing techniques and distribution networks, but also it caught the imagination of Victorian, Art Nouveau, and Arts and Crafts designers around the world. Here over 350 examples of architectural stained glass span several countries and many years. The styles range from Victorian intricacy to the geometry of the Prairie School. This second edition includes etched glass and beveled constructions, in addition to leaded windows. Each piece is illustrated in color, with dimensions and current market values. Today, stained glass, both old and new, is again finding its way into the home. It makes a delightful accent in a transom or a glorious complete wall. This book will help readers understand and appreciate

many varieties of old stained glass, and will inspire new work by artists.

**Stained Glass** [Waterford, Ont.] :

Wardell Publications

This book will serve you well if: You're new to traditional stained glass painting and are uncertain which brushes, paints and tools to buy - this book will tell you what you want to know. The accompanying 12 free videos will also introduce you to the key techniques. You've painted stained glass for a while but still worry "Is it my lack of skill which is the problem, or is it my brushes, paints and tools which stop me achieving the results I want?" - this book will guide you to the answer. And the 23 free designs will give you an excellent resource with which to practise. You're a teacher who wants your students to experience the joy of mastering this wonderful craft - this book will show you the smallest, most effective set of brushes, paints and tools to place before them so they can triumph. From designers and painters Williams & Byrne, and featuring entries from the journal of the forgotten Victorian craftsman Nathaniel Somers, this book will demonstrate how few possessions you really need to paint stained glass. This is Book 1 of *The Glass Painter's Method*.

[Making Stained Glass Boxes](#) Fox Chapel Publishing

Introduction to Stained Glass is designed to be used as a do-it-yourself manual or to supplement an instructional course. If you wish to learn how to make stained glass objects, you will find that this book provides all the step-by-step information on tools, supplies and techniques necessary to learn on your own. Full size patterns are included for sun catchers, windows, lamp shades and three-dimensional projects, all specifically designed for the beginning crafter. All

projects are shown in colour and have specification and material lists, assembly illustration and colour suggestions.

*Bead Chain Boxes, Mirrors and Displays*  
Bloomsbury Publishing

Complete instructions, patterns, material lists, and step-by-step photos for 18 projects—panels, boxes, candleholders, sun catchers, ornaments, and more—suitable for beginners. All great looking and using the newest styles of glass—many have the contemporary look popular on Etsy and Pinterest. For each project, finished project photos, full-size pattern, materials list, and technique photos and instruction are presented, along with variations of some patterns. Includes expert advice for the basic techniques of glass cutting, grinding, foiling, and soldering.

*Making Stained Glass Boxes* Penguin

One out of every seven flowering plants on earth is an orchid and interest in orchids has risen dramatically in recent years. The orchid is used for everything from medicine for elephants to an aphrodisiac ice cream and now for a book of stained glass projects. Chantal Paré combines her considerable expertise on orchids with her natural ability for glass design. Anyone interested in these exotic flowers will appreciate Chantal's careful attention to detail, in an effort to create lifelike replicas in glass. The author has included descriptive botanical information for each orchid variety, plus detailed glass suggestions to help transform your art glass Orchids into authentic reproductions.

**40 Great Stained Glass Projects**

CreateSpace

Not only are the techniques for both copper foil and mosaic stained glass completely demystified here, but all 25 projects take only an afternoon to

complete. Start with a Tulip Panel, the perfect first project, so simple and pleasing. Learn and use the proper tools, cut, assemble, solder, frame, and finish. You'll be proud as a peacock of your lovely Peacock Lampshade. "Plus: corner accents, beautiful boxes, welcome signs, bird baths and more.
