Located in the area where North
Carolina, Virginia and Tennessee meet,
Pond Mountain rises to over 4,000 feet.
In its valley it holds the Pond Mountain
community, a small area in Ashe County,

North Carolina. Most of the families that
live in the valley have been there for
generations, farming the land. Here 31
Pond Mountain residents reflect on their
childhoods, families, neighbors, customs
and traditions, and the changes that
have come to their mountain
communities. What emerges is a unique
look at a way of life that is rapidly being
lost to history.

In 1848 an English physician, Nathaniel Trennant, accepts an offer to serve as doctor on a ship carrying immigrants to America. When arriving in Baltimore, Trennant stumbles onto its slave market and witnesses the horrors of human bondage. One night in a boardinghouse he discovers under his bed a runaway slave. Disturbed and angered by the selling of human lives, he offers to help the young man escape, a criminal action that will put the fugitive slave and physician into flight from both the law and opportunistic slave hunters. Traveling by foot, horse, stage, canal boat, and steamer, Nathaniel and Nicodemus explore the backcountry and forge a deep friendship as they encounter a host of memorable

characters who reveal the nature of the American experiment, one still in its early stages but already under the stress of social injustices and economic inequities.

Drawing on vivid oral histories, Joseph M.

Marshall's intimate biography introduces a never-before-seen portrait of Crazy Horse and his Lakota community. Most of the world remembers Crazy Horse as a peerless warrior who brought the U.S. Army to its knees at the Battle of Little Bighorn. But to his fellow Lakota Indians, he was a dutiful son and humble fighting man who—with valor, spirit, respect, and unparalleled leadership—fought for his people's land, livelihood, and honor. In this fascinating biography, Joseph M. Marshall, himself a Lakota Indian, creates a vibrant portrait of the man, his times, and his legacy. Thanks to firsthand research and his culture's rich oral tradition (rarely shared outside the Native American community), Marshall reveals many aspects of Crazy Horse's life, including details of the powerful

vision that convinced him of his duty to help preserve the Lakota homeland—a vision that changed the course of Crazy Horse's life and spurred him confidently into battle time and time again. The Journey of Crazy Horse is the true story of how one man's fight for his people's survival roused his true genius as a strategist, commander, and trusted leader. And it is an unforgettable portrayal of a revered human being and a profound celebration of a culture, a community, and an enduring way of life. "Those wishing to understand Crazy Horse as the Lakota know him won't find a better account than Marshall's." -San Francisco Chronicle

I want to thank God and the Lord Jesus Christ for using me to write such a great story. I was in the music business for twenty-six years and had only minor success and I retired from the business with the satisfaction that I gave it my best effort, but also a what if I would have made it sigh in my heart. I loved God and served him for many years, but nothing could prepare a person for something like this. The table cracking during the writing sessions reminded me of a teacher hitting the desk with a ruler to get the class to be quiet. Make no mistake about it the good Lord loved for me to sing to him the different gospel songs that I mentioned in the book and even some of my own songs from time to time but playing around and joking

were not taken kindly of when it was time to go to work. I was disobedient one time during the process and I felt a burning pain in my foot after one of the writing sessions that I talked about in the God will not be mocked chapter of the book. The bottom line is we really are made in the image of God and we were intended to dwell with him on a daily basis. My point is that the veil was gone. That's how close we are to God. We think of God in some faraway place and he is, but he is also right beside us and he really wants to commune with us as a Savior who understands what we go through and feel. I want to thank everyone that helped me along the way especially my fiancée, Diamond. I also want to acknowledge my roots from southern Virginia to my current home in

Fort Washington, MD. The events in my journey were incredible, but the main point was what my Savior Jesus Christ told me on the day he blessed me to have his spirit, "Tell my children to get right. I am coming back soon." Look at the events in the world now. Hey children of God, get right.

This is the story of an extraordinary journey that begins for author James Westly back in 1977. He was at the time happily married and involved in a successful corporate business career in Philadelphia. But something was missing. He didn't know quite what it was that he was searching for, but one day a small ad in the personals section of the newspaper caught his attention and started him on a path that totally

changed his life. In the months that follow he set out on a journey of self-discovery that would within a years time lead him to virtually withdraw from the world to separate himself from his job, his house, his wife, his friends, and his material possessions. In the process he joined a retreat in Northern California and made a new life for himself there, where he began a profound intellectual, emotional, and physical transformation that opened up an entirely different way of living for him. His account of his journey into this new world reads like a novel. He tells his story with a mixture of eloquence and insight that is both breathtaking and inspirational. The journey ends happily, but it is not without its moments of conflict, crisis, and peril. Tom Hyman, author of Jupiters

Rich Schaffer served the Lord for 20 years as a missionary pilot with the Sudan Interior Mission in Nigeria, West Africa. Harold Fuller wrote .. Great stuff, Rich. You have a very interesting writing style .. reconstructing conversation, describing vividly, building suspense. We're enjoying the chapters as you send them. I knew you were an accomplished pilot, but had no idea of your writing skills. Glad you are now using them! Flying with Rich at the controls was always okay. Although my heart at times pounded as the tiny Cessna faced a threatening tropical storm. I knew this matter-of fact guy of few words had the courage and professional experience to find a hole through or around the

thunderheads and bring us out safely on the other side. And Rich always acknowledged that the Lord had given him the qualities that made him a top-rate pilot for Africa's uncertain weather and questionable landing strips. In this story about SIMAIR, Rich takes the reader through many an adventure that showed God's hand to be on the Mission aircraft and its occupants. With vivid description and homey dialogue, Rich weaves an honest account how God took a little boy from a tarpaper shack in America's Midwest and made him part of a team who brought the Gospel to the neglected interior of West Africa .. fulfilling his boyhood dream of flying. Down to earth humor, growing pains, high adventure, finding God in dry season and rainy-season tempest .. Rich

holds the reader's attention from page one to the story's end. W. Harold Fuller, Lit.D (SIM Nigeria Director for several years of the Shaffer's ministry) **O America** Xlibris Corporation "A capsule history of American architecture since 1960."—Wall Street Journal Architect, historian, and educator Robert A. M. Stern presents a personal and candid assessment of contemporary architecture and his fifty years of practice. For more than fifty years, Robert A. M. Stern has designed extraordinary buildings around the world. Founding partner of Robert A. M. Stern Architects (RAMSA), Stern was once described as "the brightest young man I have ever met in my entire teaching career" by Philip Johnson and recently called "New York City's most

valuable architect” by Bloomberg. Encompassing autobiography, institutional history, and lively, behind-the-scenes anecdotes, *Between Memory and Invention: My Journey in Architecture* surveys the world of architecture from the 1960s to the present and Robert A. M. Stern’s critical role in it. The book chronicles Stern’s formative years, architectural education, and half-century of architectural practice, touching on all the influences that shaped him. He details his Brooklyn upbringing, family excursions to look at key twentieth-century buildings, and relationships with prominent teachers—Paul Rudolph and the legendary Vincent Scully among them. Stern also recounts the origins of RAMSA and major projects in its history,

including the new town of Celebration, Florida, the restoration of Times Square and 42nd Street, 15 Central Park West, Benjamin Franklin and Pauli Murray Colleges at Yale, and the George W. Bush Presidential Center, as well as references the many clients, fellow architects, and professional partners who have peopled his extraordinary career. By turns thoughtful, critical, and irreverent, this accessible, informative account of a life in architecture is replete with personal insights and humor. Stern’s voice comes through clearly in the text—he details his youthful efforts to redraw house plans in real estate ads, his relationship to Philip Johnson, which began at Yale and was sustained through countless lunches at the Four Seasons, his love of Cole Porter and

movies from the 1930s and 1940s, his struggle to launch an architecture practice in the 1970s in the midst of a recession, and his complex association with Disney and Michael Eisner. Unsurprisingly, New York City plays a big role in *Between Memory and Invention*. Stern has a deep commitment to the city and recording its past—he is the lead author of the monumental New York book series, the definitive history of architecture and urbanism from the late nineteenth century to the present—and shaping its future. Though now a global practice, RAMSA residential towers rise throughout Manhattan to enrich the skyline in the tradition of the luxurious apartment buildings of the 1920s and 1930s. Supported by a lively mix of images drawn from Stern's personal

archive and other resources, this much-anticipated memoir is interspersed with personal travel slides, images of architectural precedents and the colleagues that have shaped his thinking, and photographs of the many projects he discusses. With a thoughtful afterword by architectural historian Leopoldo Villardi that delves into Stern's process of putting together this extraordinary autobiographical work, *Between Memory and Invention* is a personal candid assessment of a foremost practitioner, historian, instructor, and advocate of architecture today.

This is the journey of my first year driving a semi. The ups and downs, I hope you find some humor in the midst of these pages along with the realism of the trucking industry. I share on a daily basis, called daily logs, of what I went through each day to deliver product. I hope you can see how God worked in my life as He opened up parking spots for me and the people that helped me back into the different docks. I also hope this lets you see some of the struggles of what truckers go through each day as they deliver product across the nation.
