*Why Occupy a Square?* Cambridge University Press

A work of immense cultural significance and beauty, this long poem became an anthem for the African diaspora and the birth of the Negritude movement. With unusual juxtapositions of object and metaphor, a bouquet of language-play, and deeply resonant rhythms, Césaire considered this work a "break into the forbidden," at once a cry of rebellion and a celebration of black identity. More praise: "The greatest living poet in the French language."--American Book Review "Martinique poet Aime Césaire is one of the few pure surrealists alive today. By this I mean that his work has never compromised its wild universe of double meanings, stretched syntax, and unexpected imagery. This long poem was written at the end of World War II and became an anthem for many blacks around the world. Eshleman and Smith have revised their original 1983 translations and given it additional power by presenting Césaire's unique voice as testament to a world reduced in size by catastrophic events." --Bloomsbury Review "Through his universal call for the respect of human dignity, consciousness and responsibility, he will remain a symbol of hope for all oppressed peoples." --Nicolas Sarkozy "Evocative and thoughtful, touching on human aspiration far beyond the scale of its specific concerns with Césaire's native land - Martinique." --The Times

Edouard Glissant's Monsieur Toussaint tells the tragic story of Toussaint Louverture, the charismatic leader of the revolution - the only successful slave revolt in history - that led to Haiti's independence two-hundred years ago. Translated by the author himself in collaboration with J. Michael Dash, this new edition captures the striking essence of the original French play (first published in 1961).

With inclusion of Brazil in a comparative study of literary texts and their engagement with Western modernity, this study shows how the "'peripheral'" replications of modernity in contemporary Caribbean and Latin American texts differ crucially from their European models, and addresses issues that many post colonial theorists have struggled with.

An Italian duke hires an hourmaster to wind the 200 clocks in his palace. The duke is bored and befriends the hourmaster, but the friendship ends when he rapes the hourmaster's daughter. An atmospheric novel by the author of *Annam*.

A powerful and impassioned historical account of the largest successful revolt by enslaved people in

history: the Haitian Revolution of 1791-1803 "One of the seminal texts about the history of slavery and abolition.... Provocative and empowering." —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

*Towards A Westphalia for the Middle East* Oxford University Press

A literary history of the Haitian Revolution that explores how scientific ideas about 'race' affected 19th-century understandings of the Haitian Revolution and, conversely, how understandings of the Haitian Revolution affected 19th-century scientific ideas about race.

"In 1788, a handful of French monks and nuns set sail from Vietnam. They preach the Gospels to the peasants of these unknown tropics, and only by chance learn from passing ships about the terror of the Revolution, the death of their King, and the oppression of their Church. After 1792 there is no further news--Europe has forgotten them. In their years of trial these valorous men and women both abandon everything and reinvent everything. The jungle, by its ordeals and its beauties, transforms them; in it they will live and die, having forgotten God in the struggle."--Page 4 of cover

A magical world that will captivate fans of Kate DiCamillo and Diana Wynne Jones. Marah Levi is a promising violinist who excels at school and can read more languages than most librarians. Even so, she has little hope of a bright future: she is a sparker, a member of the oppressed lower class in a society run by magicians. Then a mysterious disease hits the city of Ashara, turning its victims' eyes dark before ultimately killing them. As Marah watches those whom she loves most fall ill, she finds an unlikely friend in Azariah, a wealthy magician boy. Together they pursue a cure in secret, but more people are dying every day, and time is running out. Then Marah and Azariah make a shocking discovery that turns inside-out everything they thought they knew about magic and about Ashara, their home. Set in an imaginative world rich with language, lore, and music, this gripping adventure plunges the reader into the heart of a magical government where sparks of dissent may be even more deadly than the dark eyes.

Two decades after the Dayton Peace Agreement came into force, Bosnia is not at war. However, the absence of war is not peace. Bosnia has failed to move on from conflict. Political processes are deadlocked. The country is in a state of political, social and economic paralysis. As the international community has downgraded its presence, conditions have deteriorated, irredentist agendas have resurfaced and the outlook is increasingly negative. War remains a risk because of myriad unresolved issues, zero-sum politics and incompatible positions among rival ethno-national elites. In the face of paralysis, international officials repeat the mantra that there is no alternative to Bosnia's European path and urge the country's leaders to see reason, to temper their rhetoric and to carry out internationally approved reforms -- to no avail. Despite international reluctance to recognise failure, the day will come when it is impossible to ignore the gravity of the situation. When that day arrives, the international community will have to address the shortcomings of the peace process. This, in turn, will involve opening up the Dayton settlement. Christopher Bennett presents a cautionary political history of Bosnia's disintegration, war and peace process. And he concludes by proposing a paradigm shift aimed at building ethno-national security and making the peace settlement self-sustaining.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The Complete Poetry of Aimé Césaire gathers all of Césaire's celebrated verse into one bilingual edition. The French portion is comprised of newly established first editions of Césaire's poetic oeuvre made available in French in 2014 under the title *Poésie, Théâtre, Essais et Discours*, edited by A. J. Arnold and an international team of specialists. To prepare the English translations, the translators

started afresh from this French edition. Included here are translations of first editions of the poet's early work, prior to political interventions in the texts after 1955, revealing a new understanding of Césaire's aesthetic and political trajectory. A truly comprehensive picture of Césaire's poetry and poetics is made possible thanks to a thorough set of notes covering variants, historical and cultural references, and recurring figures and structures, a scholarly introduction and a glossary. This book provides a new cornerstone for readers and scholars in 20th century poetry, African diasporic literature, and postcolonial studies.

"All the ingredients to become the next important book in the field of postcolonial studies with the emphasis on French Caribbean culture and literature."—Daniel Desormeaux, University of Chicago In *Free and French in the Caribbean*, John Patrick Walsh studies the writings of Toussaint Louverture and Aimé Césaire to examine how they conceived of and narrated two defining events in the decolonializing of the French Caribbean: the revolution that freed the French colony of Saint-Domingue in 1803 and the departmentalization of Martinique and other French colonies in 1946. Walsh emphasizes the connections between these events and the distinct legacies of emancipation in the narratives of revolution and nationhood passed on to successive generations. By reexamining Louverture and Césaire in light of their multilayered narratives, the book offers a deeper understanding of the historical and contemporary phenomenon of "free and French" in the Caribbean. "A fruitful intervention in a growing body of literature and increasingly lively debate on the Haitian Revolution and the figure of Toussaint Louverture, the book also contributes to the emerging scholarship on Césaire, Francophone literature, and postcolonial theory."—Gary Wilder, CUNY Graduate Center "A valuable contribution to both the rapidly proliferating literature on the Haitian Revolution and the emerging revisionist appreciation of Césaire's intellectual and political project."—Small Axe "J.P. Walsh has produced for the nonspecialist reader an excellent analysis of the historiographical discourse on Toussaint Louverture and Aimé Césaire with a focus on the meaning(s) of decolonization in the late eighteenth and mid-twentieth centuries."—New West Indian Guide "That *Free and French* inspires so many questions is testament to its ambition, the provocative parallel at its heart, and the richness of Walsh's analysis."—H-Empire

*The Metaphor of the Monster* offers fresh perspectives and a variety of disciplinary approaches to the ever-broadening field of monster studies. The eclectic group of contributors to this volume represents areas of study not generally considered under the purview of monster studies, including world literature, classical studies, philosophy, ecocriticism, animal ethics, and gender studies. Combining historical overviews with contemporary and global outlooks, this volume recontextualizes the monstrous entities that have always haunted the human imagination in the age of the Anthropocene. It also invites reflection on new forms of monstrosity in an era epitomized by an unprecedented deluge of (mis)information. Uniting researchers from varied academic backgrounds in a common effort to challenge the monstrous labels that have historically been imposed upon "the Other," this book endeavors above all to bring the monster out of the shadows and into the light of moral consideration.

Over sixty years of violence and dialogue have brought China and the Tibetans no closer to a resolution of their conflict. Tsering Topgyal argues that it is China's sense of insecurity, its perception of itself as a socio-politically weak state, which has disproportionately influenced its policies towards the religion, language, education and economy of Tibet. Beijing has also denied the existence of a 'Tibet Issue' and rejected several Tibetan proposals for autonomy, fearful that they might undermine its state-building project in Tibet. Conversely, Tibetan insecurity about threats to their identity, generated by Chinese policies, Han migration and cultural influences in Tibet, explains both the Dalai Lama's unpopular decision to abandon his aspiration for Tibetan independence and his demands for autonomy and unification of all Tibetans under one administration. Identity insecurity also drives the multi-faceted Tibetan resistance both inside Tibet and in the diaspora. Thus, while Beijing and the Tibetans seek to harden their positions in order to counter their respective insecurities, real or imagined, the outcome is, paradoxically, greater insecurity on both sides, plunging them into unremitting cycles of state-hardening on the part of China and fortifying resistance on the Tibetan side.

The Tragical History of the Life and Death of Doctor Faustus, commonly referred to simply as Doctor Faustus, is an Elizabethan tragedy by Christopher Marlowe, based on German stories about the title character Faust, that was first performed sometime between 1588 and Marlowe's death in 1593. Two different versions of the play were published in the Jacobean era, several years later. The powerful effect of early productions of the play is indicated by the legends that quickly accrued around them—that actual devils once appeared on the stage during a performance, "to the great amazement of both the actors and spectators", a sight that was said to have driven some spectators mad.
