The present collection of primary sources, comprised of printed and manuscript materials, offers a new approach to the history of learned societies and Freemasonry in Hungary in the 18th century. Materials include academic proposals, regulations of learned societies and reading circles, letters, pamphlets as well as Masonic constitutions, rituals, orations, essays, and a sentimental novel. In addition to the Latin- and German-language documents, some Hungarian-language sources of special importance are published in English translation. The sources in the first part of the collection illustrate the growing desire and ambition

among Hungarian intellectuals for establishing national literature and science, and for raising the level of general literacy among the population. Starting from the diagnosis that, compared to other European countries, Hungary was quite backward in terms of cultivating the sciences, several people emphasized the need to raise the standards of public education, while others thought that establishing learned societies or scientific academies could change the situation. The examination of the history of learned and secret societies shows that in 18th-century Hungary social culture could develop within the framework of Freemasonry. The

functioning learned societies and reading circles were established at the initiative of lodge members, and a large number of the authors of the proposals were also Freemasons. The establishment of learned societies was motivated by the ideas which were also the guiding principles of the Freemasons: spreading enlightenment, promoting the well-being of the people, and supporting the sciences and the arts. The editors intended to bring to an international audience the selected materials which warrant further research and examination.

The thirty-eight tales of

Cinema Stories combine fact and fiction, and they all revolve around movie-making. The book compresses a lifetime of feeling, thought, and practice: Kluge -- considered the father of New German Cinema -- is an inventive wellspring of narrative notions. "The power of his prose," as Small Press noted, "exudes the sort of pregnant richness one might find in the brief scenarios of unknown films." Cinema Stories is a treasure box of cinematic lore and movie magic by "Alexander Kluge, that most enlightened of writers" (W. G. Sebald). Alexander Kluge, born in Germany in 1932, is a world-famous author and filmmaker (his 23 films include Yesterday Girl, The Female

Patriot, The Candidate), a lawyer, and a media magnate. He has won Germany's highest literary award, the Georg Büchner Prize. *Printing Images in Antwerp* Cambridge University Press Contemporary alchemist Dale Pendell completes his poetic study of botany, chemistry, spirituality, psychology and history in a volume covering the composition and uses of visionary plants. Chapters including Phantastica, Hypnotica and Telephorica explore the hallucinogenic plants, the bringers of sleep and the bearers of distance. *The Gothic and the Everyday* Routledge "Alexander Kluge is best known as a founding member of

the New German Cinema. His work, however, spans a diverse range of fields and, over the last fifty years, he has been active as a filmmaker, writer and television producer." This work features scholarly essays, plus articles, stories, and interviews involving Kluge. -- from back cover. Learned Societies, Freemasonry, Sciences and Literature in 18th-Century Hungary Bloomsbury Shire Publications The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged, active fan bases by employing an imaginative approach to programming. Once defined by limited viewership, cult TV has developed its own

identity, with some shows gaining large, mainstream audiences. By exploring the defining characteristics of cult TV, *The Essential Cult TV Reader* traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television. The essays explore a wide range of cult programs, from early shows such as *Star Trek*, *The Avengers*, *Dark Shadows*, and *The Twilight Zone* to popular contemporary shows such as *Lost*, *Dexter*, and *24*, addressing the cultural context that allowed the development of the phenomenon. The contributors investigate the obligations of cult series to their fans, the

relationship of camp and cult, the effects of DVD releases and the Internet, and the globalization of cult TV. *The Essential Cult TV Reader* answers many of the questions surrounding the form while revealing emerging debates on its future.

Our all-time bestselling title, this classic and powerful novel spanning three generations of a Slovak immigrant family has been adopted for course use in more than 250 colleges and universities nationwide. Out of This Furnace, is Thomas Bell's most compelling achievement. Its story of three generations of an immigrant Slovak family - the Dobrejcsaks - still stands as a fresh and extraordinary accomplishment. The novel begins in the mid-1880s with the naive blundering career of Djuro Kracha. It tracks his arrival from the old country as he walked from New York to White Haven, his later migration to the steel mills of Braddock, and his eventual downfall

through foolish financial speculations and an extramarital affair. The second generation is represented by Kracha's daughter, Mary, who married Mike Dobrejcek, a steel worker. Their decent lives, made desperate by the inhuman working conditions of the mills, were held together by the warm bonds of their family life, and Mike's political idealism set an example for the children. Dobie Dobrejcek, the third generation, came of age in the 1920s determined not to be sacrificed to the mills. His involvement in the successful unionization of the steel industry climaxed a half-century struggle to establish economic justice for the workers. Out of

This Furnace is a document of ethnic heritage and of a violent and cruel period in our history, but it is also a superb story. The writing is strong and forthright, and the novel builds constantly to its triumphantly human conclusion.

Jirí Levý's seminal

work, *The Art of*

Translation, considered

a timeless classic in

Translation Studies, is

now available in

English. Having drawn

on adjacent disciplines,

the methodology of

Czech functional

sociosemiotic

structuralism and the

state-of-the art in the

West, Levý synthesized his findings and experience in the field presenting them in a reader-friendly book, which combines the approaches of a theoretician, systemic analyst, historian, critic, teacher, practitioner and populariser. Although focused on literary translation from theoretical, descriptive and historical perspectives, it presents a conceptualization of a general theory, addressing a number of issues discussed today. The 'practical' mission of the book as a theory extending to practice is based on the same historical-dialectic affinity of methods, norms, functions and values, accounting for the translator's agency and

other contextual agents involved in the communication process. The book will be useful to translators, researchers, students and teachers in Translation and Literary Studies.

 William Blake, poet and artist, is a figure often understood to have 'created his own system'. Combining close readings and detailed analysis of a range of Blake's work, from lyrical songs to later myth, from writing to visual art, this collection of thirty-eight lively and authoritative essays examines what Blake had in common with his contemporaries, the writers who influenced him, and those he influenced in turn. Chapters from an international team of leading scholars also attend to his wider contexts: material, formal, cultural, and historical, to enrich our understanding of, and engagement with, Blake's work.
 Accessibly written,

incisive, and informed by original research, William Blake in Context enables readers to appreciate Blake anew, from both within and outside of his own idiom.

In the 1920s, with the end of the revolution, the Soviet government began investing resources and energy into creating a new type of book for the first generation of

young Soviet readers. In a sense, these early books for children were the ABCs of Soviet modernity; creatively illustrated and intricately designed, they were manuals and primers that helped the young reader enter the field of politics through literature. Children's books provided the basic vocabulary and grammar for understanding new, post-revolutionary realities, but they also taught young readers how to perceive modern events and communist practices. Relying on a process of dual-media rendering, illustrated books presented propaganda as a simple, repeatable narrative or verse, while also casting it in easily recognizable graphic images. A vehicle of ideology,

object of affection, and product of labour all in one, the illustrated book for the young Soviet reader emerged as an important cultural phenomenon. Communist in its content, it was often avant-gardist in its form. Spotlighting three thematic threads – communist goals, pedagogy, and propaganda – The Pedagogy of Images traces the formation of a mass-modern readership through the creation of the communist-inflected visual and narrative conventions that these early readers were meant to appropriate.

* The first multi-disciplinary analysis of Shah Jahan and his predecessor Jahangir, this collection of essays focuses on one of the least studied

periods of Mughal history, the reign of Shah Jahan* Through subaltern court writing, art, architecture, accounts of foreign traders and poetry, the authors reconstruct the court of the Mughal emperor, whose influence extended even to 19th-century Afghanistan The reign of Shah Jahan (1628-58) is widely regarded as the golden age of the Mughal empire, yet it is one of the least studied periods of Mughal history. In this volume, 14 eminent scholars with varied historical interests - political, social, economic, legal, cultural, literary and art-historical - present for the first time a multi-disciplinary analysis of Shah Jahan and his predecessor Jahangir (r. 1605-27).

Corinne Lefèvre, Anna Kollatz, Ali Anooshahr, Munis Faruqui and Mehreen Chida-Razvi study the various ways in which the events of the transition between the two reigns found textual expression in Jahangir's and Shah Jahan's historiography, in subaltern courtly writing, and in art and architecture. Harit Joshi and Stephan Popp throw light on the emperor's ceremonial interaction with his subjects and Roman Siebertz enumerates the bureaucratic hurdles which foreign visitors had to face when seeking trade concessions from the court. Sunil Sharma analyses the new developments in Persian poetry under Shah Jahan's patronage and Chander Shekhar

identifies the Mughal variant of the literary genre of prefaces. Ebba Koch derives from the changing ownership of palaces and gardens insights about the property rights of the Mughal nobility and imperial escheat practices. Susan Stronge discusses floral and figural tile revetments as a new form of architectural decoration and J.P. Losty sheds light on the changes in artistic patronage and taste that transformed Jahangiri painting into Shahjahani. R.D. McChesney shows how Shah Jahan's reign cast such a long shadow that it even reached the late 19th- and early 20th-century rulers of Afghanistan. This imaginatively conceived collection of

articles invites us to see in Mughal India of the first half of the 17th century a structural continuity in which the reigns of Jahangir and Shah Jahan emerge as a unit, a creative reconceptualization of the Mughal empire as visualized by Akbar on the basis of what Babur

and Humayun had initiated. This age seized the imagination of the contemporaries and, in a world as yet unruptured by an intrusive colonial modernity, Shah Jahan's court was regarded as the paradigm of civility, progress and development.
