Report of a Workshop on the Scope and Nature of Computational Thinking presents a number of perspectives on the definition and applicability of computational thinking. For example, one idea expressed during the workshop is that computational thinking is a fundamental analytical skill that everyone can use to help solve problems, design systems, and understand human behavior, making it useful in a number of fields. Supporters of this viewpoint believe that computational thinking is comparable to the linguistic, mathematical and logical reasoning taught to all children. Various efforts have been made to introduce K-12 students to the most basic and essential computational concepts and college curricula have tried to provide a basis for life-long learning of increasingly new and advanced computational concepts and technologies. At both ends of this spectrum, however, most efforts have not focused on fundamental concepts. The book discusses what some of those fundamental concepts might be. Report of a Workshop on the Scope and Nature of Computational Thinking explores the idea that as the use of computational devices is becoming increasingly widespread, computational thinking skills should be promulgated more broadly. The book is an excellent resource for professionals in a wide range of fields including educators and scientists.

Information Methods takes a highly practical approach that helps students to acquire the skills they need to handle

and communicate information with confidence in a wide variety of situations. Students can practice building their analytical and creative thinking skills. Students will also develop the writing and research skills that are vital for success in an academic context. The book's coverage extends to the different forms of writing in a business context. In addition, students are introduced to Web 2.0, social networking, database processing, global information systems and usability issues. This custom edition is published for Swinburne University and Open Universities Australia.

**Microcomputer Accounting** Penguin  
New York Times Bestseller: This insightful and deeply personal portrait of African American working-class life “offers something so authentic . . . compelling” (Charleston Post and Courier). Part memoir, part historical and cultural analysis, *My Vanishing Country* is an eye-opening journey through the South’s past, present, and future. Anchored in Bakari Sellers’ hometown of Denmark, South Carolina, *My Vanishing Country* illuminates the pride and pain that continues to fertilize the soil of one of the poorest states in the nation. He traces his father’s rise to become a friend of Stokely Carmichael and Martin Luther King, civil rights hero, and member of the Student Non-Violent Coordinating Committee (SNCC), in the process exploring the plight of the South’s dwindling rural black working class—many of whom can trace their ancestry back for seven generations. In his poetic personal history, we are awakened to the crisis affecting the

other “forgotten men and women,” seldom acknowledged by the media. For Sellers, these are his family members, neighbors, and friends. He humanizes the struggles that shape their lives—to gain access to healthcare as rural hospitals disappear; to make ends meet as the factories they have relied on shut down and move overseas; to hold on to precious traditions as their towns erode; to forge a path forward without succumbing to despair. My Vanishing Country is also a love letter to fatherhood—to Sellers’ father, his lodestar, whose life lessons have shaped him, and to his newborn twins, who he hopes will embrace the Sellers family name and honor its legacy. “An engaging memoir.” —Kirkus Reviews “Family trauma—even inherited trauma—can take a tremendous toll on children. But as Bakari Sellers makes plain in My Vanishing Country, family trauma can also be a source of strength.” —BookPage

From the president of EMILY’s List, a playbook for women changing the world in politics, business, or any arena, with a foreword from Vice President Elect Kamala Harris. “I have long believed that women who dream big, work hard, and get back up after they get knocked down can do anything; Stephanie Schriock is one of those women. I’m so glad her thoughtful guidance is now available for women everywhere.”—Hillary Rodham Clinton For the past thirty-five years EMILY’s List has helped the campaigns of thousands of pro-choice Democratic women, but the hardest part has always been convincing more women to run. Then Donald Trump was elected, and something shifted into place. American women who were furious and frustrated were looking for a way to channel their

outrage into action, united in proclaiming, “If that guy can get elected, why not me?” The day after the 2016 election, dozens of women searched out an old sign-up link buried on the EMILY’s List website. By Thanksgiving, those dozens had grown to a few thousand. And that was only the beginning. By the end of 2018, there were nearly fifty thousand women signed up to run for office, with scores more signing up each day. Run to Win is for all women who are looking to lead. Organized around the steps that EMILY’s List coaches its candidates through (from deciding to run through celebrating victory), this book is full of essential lessons for any woman trying to succeed in a male-dominated field. Their arena is politics but their message is universal. And Stephanie Schriock is the most qualified person to share these lessons. Not only is she a powerful figure in politics but she’s also a woman who commands respect for her astounding success as president of EMILY’s List and a longtime Democratic operative. Her message is uplifting and actionable, her voice is that of your best girlfriend walking you through what you need to consider as you make your plan, and her experience coaching the biggest female candidates in recent elections (including all of the female 2020 Democratic presidential candidates) makes her the de facto authority on the strategies women can employ to run, fight, and win, whatever their field or goal.

In the December 30, 1967, edition of the weekly Thoroughbred trade publication, the Blood-Horse, was an announcement that took up one inch of space—James E. "Ted" Bassett III had been named assistant to the president of the Keeneland Association. It was sandwiched between equally short news items about a handicapping seminar at an East Coast racetrack and a California vacation trip by a horse-owning couple. Bassett's new job, in his own words, "was not earthshaking news." More than four decades later, Ted Bassett is one of the most respected figures within the global Thoroughbred industry. He has served as Keeneland's president, chairman of the board, and trustee, playing a critical role in its ascendancy as a premier Thoroughbred track and auction house. Bassett was also president of Breeders' Cup Limited during its greatest period of growth and has been a key architect in the development of the Sport of Kings as we know it today. Written in collaboration with two-time Eclipse Award-winning journalist Bill Mooney, Keeneland's Ted Bassett: My Life recounts Bassett's extraordinary journey, including his days at Kent School and Yale University, through his U.S. Marine Corps service in the Pacific theater during World War II, and as director of the Kentucky State Police during the turbulent 1960s. He helped found the College of Justice & Safety at Eastern Kentucky University, and his continuing service to the Marine Corps has gained him the highest honors accorded to a civilian. During his forty-plus years with Keeneland, Bassett has hobnobbed with hot walkers in the track kitchen, hosted the first visit by Queen

Elizabeth II to a United States track, and participated in many of the most important events in the modern history of horse racing. With self-effacing humor, characteristic charm, and candor, Bassett describes his association with historic figures such as J. Edgar Hoover and Kentucky governors Albert B. "Happy" Chandler, Edward T. "Ned" Breathitt, and John Y. Brown; and his friendships with racing personalities D. Wayne Lukas, Nick Zito, Ron McAnally, Pat Day, and Joe Hirsch. Bassett shares details about difficult corporate decisions and great racing events that only he can supply, and about the formation of Equibase, the premier data collection agency within the Thoroughbred industry. He tells about his role as an international ambassador for racing, which has made him a highly influential figure on six continents. Bassett often describes his life as a fascinating blur. That "blur" and all its unique components are brought into sharp focus in a book that is as wide-ranging as it is personal, filled with a gold mine of firsthand stories and historical details. In addition to highlighting Keeneland's reputation as the jewel of the Thoroughbred industry, Bassett chronicles the business of racing and accomplishments of many prominent people in the horse world, and elsewhere, during the twentieth century. *Uptime Elements Implementation Guide* McGraw-Hill/Irwin Professional resume and cover letter writers reveal their inside secrets for creating phenomenal cover letters that get attention and land interviews. Dear Black Girls is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

Many public and private sector organizations around the world have initiated a reliability and asset management program to drive efficiencies, mitigate risks and manage the asset throughout the entire lifecycle. However, it's well known that more than seventy percent of those implementations fail to become a long-term sustainable solution, and some of them never get off the ground!The development and implementation of a reliability and asset management program most often focuses on the technical aspects of the journey and not the cultural journey itself. The journey is filled with challenges, barriers, difficult decisions, successes and failures. How does one understand these items and how should they be approached in

advance of the journey? The Uptime® Elements Implementation Virtual Special Interest Group (vSIG) was assembled to analyze the reliability and asset management program journey to glean and present the wisdom, advice and recommendations of those who have made the journey utilizing the five domains of the Uptime Elements. Contributors to this implementation guide have made "the journey," and thus gained experience in developing, implementing and/or operating a reliability and asset management program. They've experienced the ups and downs, the successes and failures and the barriers and challenges, and have the change management experience required to create valuable and sustainable reliability and asset management solutions. The output of this vSIG has resulted in this Uptime Elements Implementation Guide. Second Edition. This guide is all about the cultural journey, not the technical details.

When is it appropriate to return individual research results to participants? The immense interest in this question has been fostered by the growing movement toward greater transparency and participant engagement in the research enterprise. Yet, the risks of returning individual research results—such as results with

unknown validity—and the associated burdens on the research enterprise are competing considerations. Returning Individual Research Results to Participants reviews the current evidence on the benefits, harms, and costs of returning individual research results, while also considering the ethical, social, operational, and regulatory aspects of the practice. This report includes 12 recommendations directed to various stakeholders—investigators, sponsors, research institutions, institutional review boards (IRBs), regulators, and participants—and are designed to help (1) support decision making regarding the return of results on a study-by-study basis, (2) promote high-quality individual research results, (3) foster participant understanding of individual research results, and (4) revise and harmonize current regulations.
