This book analyzes how acts of feeling at a discursive, somatic, and rhetorical level were theorized and practiced in multiple medieval and early-modern sources (literary, medical, theological, and archival). It covers a large chronological and geographical span from eleventh-century France, to fifteenth-century Iberia and England, and ending with seventeenth-century Jesuit

meditative literature. Essays in this book explore how particular emotional norms belonging to different socio-cultural communities (courtly, academic, urban elites) were subverted or re-shaped; engage with the study of emotions as sudden, but impactful, bursts of sensory experience and feelings; and analyze how emotions are filtered and negotiated through the prism of literary texts and the socio-political status of their authors. *Aphorismi de Gradibus* Springer

 Reflective practice has been widely adopted as a successful method for developing nursing. The second edition of *Transforming Nursing through Reflective Practice* provides a wealth of new insights from practitioners actively involved in reflective practice in nursing research, education, clinical practice and practice development. This invaluable book enables nurses to continually evaluate their own practice in order to inform their approaches to reflection; critique, develop and monitor their professional practice; and thereby improve the quality of

their patient care. There is a greater emphasis in the new edition on transforming practice, the research base for reflective practice and grounding the reflective process in clinical practice. * Examines the contribution of reflective practice to nursing * Enables nurses to continually develop their practice and improve patient care * Includes insights from many areas of clinical practice * Explores the role of reflection in clinical supervision and research studies * Examines the role of narrative and reflective dialogue in reflective practice

Another twisty bestselling thriller from Lisa Gardner featuring Pierce Quincy and Rainie Conner as they take on a case that hits far too close to home. Eight years ago, Sharlah May Nash's older brother beat their drunken father to death with a baseball bat in order to save both of their lives. Now thirteen years old, Sharlah has finally moved on. About to be adopted by retired FBI profiler Pierce Quincy and his partner, Rainie Conner, Sharlah loves one thing best about her new family: They are all experts on monsters. Then the call

comes in. A double murder at a local gas station, followed by reports of an armed suspect shooting his way through the wilds of Oregon. As Quincy and Rainie race to assist, they are forced to confront mounting evidence: The shooter may very well be Sharlah's older brother, Telly Ray Nash, and it appears his killing spree has only just begun. As the clock winds down on a massive hunt for Telly, Quincy and Rainie must answer two critical questions: Why after eight years has this young man started killing again? And what does this mean for Sharlah? Once upon a time, Sharlah's big brother saved her life. Now, she has two questions of her own: Is her brother a hero or

a killer? And how much will it cost her new family before they learn the final, shattering truth? Because as Sharlah knows all too well, the biggest danger is the one standing right behind you.

In Emotion and Devotion Miri Rubin explores the craft of the historian through a series of studies of medieval religious cultures. In three original chapters she approaches the medieval figure of the Virgin Mary with the aim of unravelling meaning and

experience. Hymns and miracle tales, altarpieces and sermons - a wide range of sources from many European regions - are made to reveal the creativity and richness which they elicited in medieval people, women and men, clergy and laity, people of status and riches as well as those of modest means. The first chapter, "The Global 'Middle Ages'," considers the current historiographical frame for the study of religious cultures and suggests ways in which the Middle Ages can be made more global. Next, "Mary, and Others" examines the polemical situations around Mary, and the location of Muslims and Jews within them. The third chapter,

"Emotions and Selves," tracks the sentimental education experienced by Europeans in the late Middle Ages through devotional encounters with the figure of the Virgin Mary in word, image and sound. Each year one scholar of world fame is invited to present lectures in the framework of the Natalie Zemon Davis Annual Lecture Series at the Central European University, Budapest. This is the second volume in the series of published lectures.

This new book written by Jean Watson, a highly regarded visionary of nursing theory reestablishes the critical balance between caring and

curing. It blends the technical aspects of modern medicine with the holistic focus traditionally associated with nursing, and serves as a model for nursing practice into the 21st century.

The Duties of a Christian to God

Penguin

La 4ème de couv.

indique : "L'idée d'une étude sur le "système financier" de la Bourgogne dans la première moitié du XVIIIe siècle est le fruit d'une interrogation se situant à la croisée des chemins entre la question des finances publiques et celle de la représentation politique au cours de la période moderne.

Cette thématique apparaît avec la naissance de l'Etat. Les problématiques qui touchent aux moyens

financiers de l'Etat et aux modalités d'exercice du pouvoir financier par le gouvernement depuis le Moyen Age sont au coeur du mouvement qui a permis l'émergence du régime monarchique. En outre, elles ont déterminé l'évolution d'une monarchie qui gouverne avec la participation d'institutions représentatives jusqu'au début du XVIIe siècle et qui s'orient résolument vers l'exercice d'une souveraineté traditionnellement qualifiée "d'absolue" jusqu'à la Révolution française. De même, les thèmes de la représentation et des finances furent au centre de la déstabilisation, puis de la chute de la

monarchie dans la seconde moitié du XVIIIe siècle. Les différents régimes qui ont suivi se sont tous interrogés sur cette thématique, dans la recherche de leur légitimité et de leur fondement. Sans aucun doute, le constat historique en forme d'équation, selon laquelle "Sans argent. Point d'Etat" permet de comprendre dans toute sa dimension, l'affirmation que le pouvoir financier est depuis ses origines "très étroitement imbriqué avec le pouvoir politique et il en a tout de suite déterminé la qualité". C'est dire si les enjeux que recouvrent ces questions sont fondamentaux et porteurs de réflexions, de débats et de controverses dans les

domaines de l'histoire, du droit, de la sociologie, de l'anthropologie et de la philosophie. En témoigne le fait que les finances publiques considérées comme champ de recherche se sont récemment constituées au carrefour de ces disciplines, sans jamais relever véritablement de l'une ou de l'autre, sinon sur un plan purement formel." Association. When

Saint Francis of Assisi

died in 1226, he left

behind an order

already struggling to

maintain its identity.

As the Church called

upon Franciscans to be

bishops, professors,

and inquisitors, their

style of life began to

change. Some in the

order lamented this

change and insisted on

observing the strict

poverty practiced by

Francis himself. Others

were more open to

compromise. Over

time, this division

evolved into a genuine
rift, as those who
argued for strict
poverty were
marginalized within the
order. In this book,
David Burr offers the
first comprehensive
history of the so-called
Spiritual Franciscans, a
protest movement
within the Franciscan
order. Burr shows that
the movement existed
more or less as a loyal
opposition in the late
thirteenth century, but
by 1318 Pope John XXII
and leaders of the
order had combined to
force it beyond the
boundaries of
legitimacy. At that
point the loyal
opposition turned into
a heretical movement
and recalcitrant friars
were sent to the stake.
Although much has
been written about
individual Spiritual
Franciscan leaders,

there has been no general history of the movement since 1932. Few people are equipped to tackle the voluminous documentary record and digest the sheer mass of research generated by Franciscan scholars in the last century. Burr, one of the world's leading authorities on the Franciscans, has given us a book that will define the field for years to come.

Le système financier bourguignon dans la première moitié du XVIIIe siècle

(1710-1752) John Wiley & Sons

Care este cel mai voluminos dintre organele noastre interne, de culoare maroniu-roșiată și absolut necesar pentru supraviețuirea umană? Ficatul. Este un veritabil erou, care îndeplinește sarcini multiple și are o uimitoare capacitate de a se regenera. Dintre toate organele noastre, el este

singurul care posedă această putere magică de autovindecare și este cea mai bună linie de apărare a noastră împotriva unei serii uimitoare de boli și afecțiuni, de la o simplă oboseală la ciroză. În Puterile ascunse ale ficatului, pe lângă informațiile necesare pentru a înțelege funcționarea și importanța acestei adevărate uzine a corpului uman, expertul de renume internațional, dr. Perlemuter, ne oferă răspunsuri la întrebări ca: - De ce prea multe fructe nu sunt benefice pentru ficat și cafeaua este? - Cum să scăpăm de obiceiul de a ronța între mese, fără să ni se facă foame? - Putem să ne permitem câte un răsfăț culinar, din când în când? - Cum poți avea grijă de

ficatul tău - și mai important, ce se va întâmpla dacă nu ai grijă? „În China, unde medicina tradițională numește ficatul «generalul armatelor», izvor de curaj, bila produsă de ficatul de urs era și rămâne un remediu pentru viață îndelungată. În Japonia, samurarii beau o înghițitură înainte de a pleca la luptă ca să și asigure invincibilitatea. Grecii au transformat ficatul în erou al mitului lui Prometeu. Binefăcător al omenirii, Prometeu le dăruise oamenilor focul — împotriva voinței lui Zeus. Mâniat, Zeus l-a pedepsit pe Prometeu într-un fel mai dureros decât moartea. Cunoscând proprietățile excepționale ale ficatului, Zeus l-a legat pe rebel în lanțuri de o

stâncă în Munții
Caucaz. În fiecare zi,
un vultur venea să-i
sfâșie ficatul. Și, în
fiecare noapte, acesta
se refăcea, adăugând
acestui supliciu
dimensiunea
veșniciei." - Gabriel
Perlemuter

Spanning the icy
streets of Reykjavik,
the Icelandic highlands
and cold, isolated
fjords, *The Darkness* is
an atmospheric thriller
from Ragnar Jónasson,

one of the most
exciting names in
Nordic Noir. The body
of a young Russian
woman washes up on
an Icelandic shore.
After a cursory
investigation, the
death is declared a
suicide and the case is
quietly closed. Over a
year later Detective
Inspector Hulda
Hermannsdóttir of the
Reykjavík police is
forced into early
retirement at 64. She
dreads the loneliness,
and the memories of
her dark past that
threaten to come back
to haunt her. But
before she leaves she
is given two weeks to
solve a single cold case
of her choice. She
knows which one: the
Russian woman whose
hope for asylum ended
on the dark, cold shore
of an unfamiliar
country. Soon Hulda

discovers that another young woman vanished at the same time, and that no one is telling her the whole story. Even her colleagues in the police seem determined to put the brakes on her investigation.

Meanwhile the clock is ticking. Hulda will find the killer, even if it means putting her own life in danger.

The Laity in the Middle Ages

All parents experience stress as they attempt to meet the challenges of caring for their children. This comprehensive book examines the causes and consequences of parenting distress, drawing on a wide array of findings in current empirical research. Kirby Deater-Deckard explores normal and

pathological parenting stress, the influences of parents on their children as well as children on their parents, and the effects of biological and environmental factors. Beginning with an overview of theories of stress and coping, Deater-Deckard goes on to describe how parenting stress is linked with problems in adult and child health (emotional problems, developmental disorders, illness); parental behaviors (warmth, harsh discipline); and factors outside the family (marital quality, work roles, cultural influences). The book concludes with a useful review of coping strategies and interventions that have been demonstrated to alleviate parenting

stress.
