#1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we

will read for years to come.” —Jenna Bush Hager, Read with Jenna book club
“Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR
The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America. In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family

farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s

writing—especially because The Lincoln Highway is so different from A Gentleman in Moscow in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including The Iliad, The Odyssey, Hamlet, Huckleberry Finn, and Of Mice and Men. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." - Bill Gates

What happens when a Canadian principal, guided by the teachings of Fullan and Hargreaves, takes on the role of school leader in an inner-city charter school in the United States? This inside story of a principal in the DC charter school system, reveals much about the desire for educators and students to experience more than a life of multiple-choice testing that tends to be so commonplace in these schools. While such a case adds to the mound of research that supports the 'change takes time' findings, it nevertheless

demonstrates the reality, on a day-to-day basis, of what's worth fighting for in schools. Student and teacher engagement and empowerment matter, and to get to such ends, a school must fiercely focus on targets well beyond test scores.

From the time he was a child, Steve Russo knew that he wanted to be an educator. It was his dream to be a

teacher, to influence and shape young lives and minds, and he has lived that dream for twenty-eight years. As with many teachers, he didn't get into the field for money, but his rewards have been many and rich over his career. As an administrator, he encouraged his teachers to remember the daily opportunity to influence and inspire their students and to make those influences powerfully positive ones. It's a rule he tries to live by every day. He starts with the story of his first trip to the principal's office as a young student. In a deliciously ironic turn, he has returned to that same office this time, behind the desk, as the principal. Now he shares some of his favorite memories from a life lived as a public school administrator. These stories are not only a

representation of his career in education but also a reflection of his life. All the stories are true, with no details exaggerated to enhance the stories because in the life of an administrator, fact can be more amusing than fiction. *So You've Been Publicly Shamed* John Wiley & Sons

On the day Oliver Marks is released from jail, the man who put him there is waiting at the door. Detective Colborne wants to know the truth, and after ten years, Oliver is finally ready to tell it. A decade ago: Oliver is one of seven young Shakespearean actors at Dellecher Classical Conservatory, a place of keen

In this secluded world of firelight and leather-bound books, Oliver and his friends play the same roles onstage and off: hero, villain, tyrant, temptress, ingénue, extras. But in their fourth and final year, good-natured rivalries turn ugly, and on opening night real violence invades the students’ world of make-believe. In the morning, the fourth-years find themselves facing their very own tragedy, and their greatest acting challenge yet: convincing the police, each other, and themselves that they are innocent. *If We Were Villains* was named one of *Bustle’s* Best Thriller Novels of the Year, and *Mystery Scene* says, “A well-written and gripping ode to the stage...A fascinating, unorthodox take on rivalry, friendship, and truth.”

"You can't really know anything if you just remember isolated facts. If the facts don't hang together on a latticework of theory, you don't have them in a usable form. The twenty-first century is a world in constant change. In *A New Culture of Learning*, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In *A New Culture*, Thomas and Brown explore a second sense of culture, one that responds to its

surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the technology that fosters it and the people who engage with it. The result is a new form of culture in which knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning environments

face in a fresh way. PRAISE FOR A NEW CULTURE OF LEARNING "A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education." James J. Duderstadt, President Emeritus, University of Michigan "Thomas and Brown are the John Dewey of the digital age." Cathy Davidson, Professor of Interdisciplinary Studies, Duke University "A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against." Henry Jenkins,

Provost's Professor, USC "A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page." Paul Courant, Dean of Libraries, University of Michigan "Brilliant. Insightful. Revolutionary." Marcia Conner, author of *The New Social Learning* "Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly." Howard Gardner, Professor, Harvard Graduate School of Education "Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way-learning can be a messy, social,

playful, embedded, constant activity. We would do well to listen to their message." Clay Shirky, author of *Cognitive Surplus* "Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing." John Merrow, Education Correspondent, PBS NewsHour "American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, *A New Culture of Learning* provides an irresistible path to the future." Joel Myerson, Director, Forum for

the Future of Higher Education. Business Writing For Dummies Penguin From The Principal's Office is a book about public school administration. It describes how and why administrators chose such a career and shares the experience of the author as he describes his forty years in public education. The reader will share the highs, lows, frustrations and the how tos of a career that encompasses all levels of public education.
