Culturally Informed Literacy Instruction in the Elementary Classroom

BookCaps Study Guides
Herbert Leibowitz's "Something Urgent I Have to Say to You" provides a new perspective on the life and poetry of the doctor poet William Carlos Williams, a key American writer who led one of the more eventful literary lives of the twentieth century. Friends with most of the contemporary innovators of his era-Ezra Pound, James Joyce, Ford Madox Ford, and Louis Zukofsky, among others-Williams made a radical break with the modernist tradition by seeking to invent an entirely fresh and singularly American poetic, whose subject matter derived from the everyday lives of the citizens and poor immigrant communities of northern New Jersey. His poems mirrored both the conflicts of his own life and the convulsions that afflicted American society-two world wars, a

rampaging flu pan-demic, and the Great Depression. Leibowitz's biography offers a compelling description of the work that inspired a seminal, controversial movement in American verse, as well as a rounded portrait of a complicated man: pugnacious and kindly, ambitious and insecure, self-critical and imaginative. "Something Urgent I Have to Say to You" is both a long-overdue assessment of a major American writer and an entertaining examination of the twentieth-century avant-garde art and poetry scene, with its memorable cast of eccentric pioneers, including Marcel Duchamp, Man Ray, Marianne Moore, and Gertrude Stein. *A Collection of Performance Tasks and Rubrics* Heinemann Educational Books Following Common Core Standards, this lesson plan for Harper Lee's, "To Kill a Mockingbird" is the perfect solution for teachers trying to get ideas for getting students excited about a book. BookCaps lesson plans cover five days worth of material. It includes a suggested reading schedule, discussion questions, essay topics,

homework assignments, and suggested web resources. A separate book is also available that contains a companion study guide to the book.

This text introduces an original, scalable instructional framework called Telling Our Stories (TOS), an approach for supporting culturally informed literacy instruction in the elementary classroom. Connecting the theory to practice, the TOS framework centers the cultural heritage and experiences of students and offers a roadmap to scientifically and pedagogically sound instruction. Aligned with current curriculum standards, chapters feature authentic examples and case studies, reflection questions, and writing activities that will foster a culture of inclusion, community, and academic rigor. The many practical strategies promote students' learning and appreciation of diversity through academic reading

and writing as well as positive school-family and school-community relations. Readers will come away with new ideas, tools, and a thorough understanding of how to integrate culturally informed practices in ways that support the learning of all children. Accessible and comprehensive, this is an essential text for pre-service teachers in courses on ELA methods and literacy instruction, as well as practicing teachers.

It's the last day of school! Gilbert is excited about summer vacation, but first there's the class party, and Mrs. Byrd will give out the end-of-the-year awards. But will Gilbert even get one? Patty's the best speller. Philip's the best reader. What is Gilbert best at? Humorous and reassuring, this story by Diane deGroat perfectly captures the bittersweet emotions of the last day of school. As Gilbert's class says good-bye to Mrs. Byrd, she reminds each of them how special they really are. And that she will miss them very, very much!

Flying High Henry Holt and Company (BYR)
A lyrical picture book

biography of Simone Biles, gymnastics champion and Olympic superstar. Before she was a record-breaking gymnast competing on the world stage, Simone Biles spent time in foster care as a young child. Nimble and boundlessly energetic, she cherished every playground and each new backyard. When she was six years old, Simone's family took shape in a different way. Her grandparents Ron and Nellie Biles adopted Simone and her sister Adria. Ron and Nellie became their parents. Simone was also introduced to gymnastics that same year, launching a lifelong passion fueled by remarkable talent, sacrifice, and the undying support of her family. From her athletic early childhood to the height of her success as an Olympic champion, *Flying High* is the story of the world's greatest gymnast from author Michelle Meadows and illustrator Ebony Glenn.

How do you choose mentor texts for your students? How do you mine them for the craft lessons you want your students to learn? In *Craft*

Moves: Lesson Sets for Teaching Writing with Mentor Texts, Stacey Shubitz, co-founder of the Two Writing Teachers website, *usestwenty* recently published picture books to create more than 180 lessons to teach various craft moves that will help your students become better writers. Each of the 184 lessons in the book includes a publisher's summary, a rationale or explanation of the craft move demonstrated in the book, and a procedure that takes teachers and students back into the mentor text to deepen their understanding of the selected craft move. A step-by-step guide demonstrates how to analyze a picture book for multiple craft moves. Shubitz introduces picture books as teaching tools and offers ways to integrate them into your curriculum and classroom discussions. She then shares different routines and classroom procedures designed to help students focus on their writing during the writer's workshop as well as focusing how teachers can prepare for small group instruction. Using picture books as mentor texts will help your students not only read as

writers and write with joy but also become writers who can effectively communicate meaning, structure their writing, write with detail, and give their writing their own unique voice.

A heartwarming story about the new girl in school, and how she learns to appreciate her Korean name. Being the new kid in school is hard enough, but what happens when nobody can pronounce your name? Having just moved from Korea, Unhei is anxious about fitting in. So instead of introducing herself on the first day of school, she decides to choose an American name from a glass jar. But while Unhei thinks of being a Suzy, Laura, or Amanda, nothing feels right. With the help of a new friend, Unhei will learn that the best name is her own. From acclaimed creator Yangsook Choi comes the bestselling classic about finding the courage to be yourself and being proud of your background.

The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards. Teaching to standards is not a new concept; teachers have adapted to new standards every few years for quite some time. And teachers are adaptable, as can be seen in this book. We are writing this book to demonstrate how teachers use research-based strategies to meet Common Core Standards while still focusing on students. Our goal is to help teachers visualize students in action as other teachers describe the implementation of research-based strategies in their own classrooms, show student work samples, and provide reflections of student success in achieving the standards. Many Common Core Standards books focus on the standards, but our approach focuses on strategies that engage the students in the classroom--showing how different teachers at varying grade levels have used the strategies to meet the standards. With this focus, we believe that teachers gain a new and positive perspective on

approaching the new standards and see the flexibility of strategies for meeting standards across subject areas. We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms. We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools—one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice. We begin by laying out a rationale in our first chapter---The Core Value(s) of Education. Then, each chapter focuses on a strategy, including 1) a brief description about the research supporting each strategy and 2) several examples from different grade levels, which include a description of how the strategy was used, student work samples, and a reflection on the use of the strategy. The research descriptions are fairly short because, while we believe professional educators (aka teachers, in this case) should know the

research that supports practice, we know they are not typically interested in long diatribes about the research.

To Kill a Mockingbird Knopf Books for Young Readers

A young girl with epilepsy is nervous about being the new girl in school -- and worried about keeping her condition a secret. Lexie is new to grade three and she has a secret. She has epilepsy. Worried that she'll be thought of as different, she shyly avoids class discussion and recess (where she fears she will be teased for wearing a helmet). But hiding her condition proves to be dangerous when she is pressured into eating food that her treatment diet doesn't allow, and must stay home for several days. As time passes, Lexie gains confidence and makes friends among her classmates, even giving a presentation about epilepsy to the entire class. One dreaded

day she actually has a seizure in the schoolyard - and learns that good friends can be trusted to understand and accept who you are, and even help out in times of trouble. Following her previous novels, which include *How to Handle a Bully* and *How to Tame a Bully*, author Nancy Wilcox Richards has written another wonderful story that promotes empathy, respect, acceptance and kindness among everyday elementary school children.

Craft Moves Taylor & Francis

In the 1830s, when a brave and curious girl named Elizabeth Blackwell was growing up, women were supposed to be wives and mothers. Some women could be teachers or seamstresses, but career options were few. Certainly no women were doctors. But Elizabeth refused to accept the common beliefs that women weren't smart enough to be doctors, or that they were too weak for such hard work. And she would not take no for an answer. Although she faced much opposition, she worked hard and finally—when she graduated from medical school and went

on to have a brilliant career—proved her detractors wrong. This inspiring story of the first female doctor shows how one strong-willed woman opened the doors for all the female doctors to come. *Who Says Women Can't Be Doctors?* by Tanya Lee Stone is an NPR Best Book of 2013. This title has common core connections.

The Poem of a Life is the first critical biography of Louis Zukofsky, a fascinating and crucially important American modernist poet. It details the curve of his career, from the early *Waste Land*-parody "Poem beginning 'The'" (1926) to the dense and tantalizing beauties of his last poems, *80 Flowers* (1978), paying special attention to the monumental, complex, and formally various epic poem "A", on which Zukofsky labored for almost fifty years, and which he called "a poem of a life." Zukofsky was a protege of Ezra Pound's, an artistic collaborator and close friend of William Carlos Williams's, and the leader of a whole school of 1930s avant-garde poets, the Objectivists. Later in life he was close friends with such younger

writers as Robert Creeley, Paul Metcalf, Robert Duncan, Jonathan Williams, and Guy Davenport. His work spans the divide from modernism to postmodernism, and his later writings have proved an inspiration to whole new generations of innovative poets. Zukofsky's poetry is oblique, condensed, and as fantastically detailed as the late writings of James Joyce, yet it bears at every point the marks of the poet's life and times.

"The start of first grade is a time for dusting off the skills and habits that children learned during kindergarten. In the first unit, *Building Good Reading Habits*, you'll reinforce children's learning from kindergarten, and you'll establish ability-based partnerships that tap into the social power of peers working together to help each other become more strategic as readers. The second unit, *Learning About the World: Reading Nonfiction*, taps into children's natural curiosity as they explore nonfiction, while you teach comprehension strategies, word solving,

vocabulary, fluency, and author's craft. The third unit, *Readers Have Big Jobs to Do: Fluency, Phonics, and Comprehension*, focuses on the reading process to set children up to read increasingly complex texts. The last unit of first grade, *Meeting Characters and Learning Lessons: A Study of Story Elements*, spotlights story elements and the skills that are foundational to literal and inferential comprehension, including empathy, imagination, envisioning, prediction, character study, and interpretation"--provided by publisher.

"I have almost finished my longbook," Maxine Hong Kingston declares. "Let my life as Poet begin...I won't be a workhorse anymore; I'll be a skylark." *To Be the Poet* is Kingston's manifesto, the avowal and declaration of a writer who has devoted a good part of her sixty years to writing prose, and who, over the course of this spirited and inspiring book, works out what the rest of her life will be, in poetry. Taking readers along with her, this

celebrated writer gathers advice from her gifted contemporaries and from sages, critics, and writers whom she takes as ancestors. She consults her past, her conscience, her time--and puts together a volume at once irreverent and deeply serious, playful and practical, partaking of poetry throughout as it pursues the meaning, the possibility, and the power of the life of the poet. A manual on inviting poetry, on conjuring the elusive muse, *To Be the Poet* is also a harvest of poems, from charms recollected out of childhood to bursts of eloquence, wonder, and waggish wit along the way to discovering what it is to be a poet.

BookCaps Study Guides . Renewal of Life by Transmission. The most notable distinction between living and inanimate things is that the former maintain themselves by renewal. A stone when struck resists. If its resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor

to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries to turn the energies which act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows. Understanding the word "control" in this sense, it

may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment.
