The Poetics of Experiment BoD - Books
on Demand
Fiction. Translated from the French by
Christine Schwartz Hartley and Anna
Moschovakis. COMMENTARY is a

narrative hovering between the genres
of memoir, theory, and fiction about a
female artist whose abandonment by a
lover precipitates a refiguration of her
ideas on life, love and art. Sauvageot
died, after many stints in sanatoriums, at
the age of 34. Commentaire was highly
praised in its time by Paul Claudel, Paul
Valery, Andre Gide, Charles Du Bos,

Rene Crevel ou Clara Malraux. This edition is co-translated by Christine Schwartz Hartley (African Psycho) and Anna Moschovakis (The Jokers, The Possession). When, in the morning, daybreak awakens us from a dream, we close our eyes and remain still, trying to recreate and continue the scene. But the day's light has destroyed everything: words are without sound, gestures without meaning. It is like a vanishing rainbow: some hues survive for an instant, disappear, seem to return: there is nothing left."

By the celebrated Oulipo writer, this brilliant and witty novel set in Lisbon explores love, relationships, and the strange balance between literature and life. Journalist, writer, and translator Vincent Balmer moves to Lisbon to escape from a failing affair. During his first assignment there, he teams up with Antonio--a photographer who has just returned to the city after a ten-year absence--to report for a French newspaper on an infamous serial killer's trial. While walking around the city together to take notes and photos for the article, they visit the places of Antonio's childhood, swap stories from their pasts, and confide in each other. But the more they learn about each other, the more their lives become

inextricably intertwined. With a structure that parallels Homer's Odyssey, Electrico W recounts their nine days together and the adventures that proliferate to form a constellation of successive ephemeral connections and relationships.

The Field of Nonsense Dedalus Africa Introduces and critiques a wide range of semantic and pragmatic theories in relation to humour.

The Devil in Love, Translated from the French Europa Editions

"Treasures of a Lost Art presents 144 leaves, cuttings, and illuminated manuscript fragments from the collection of Robert Lehman (1891-1969), one of the largest and most impressive private holdings of Italian manuscripts assembled after the First World War. Discussed here - with many

of them handsomely illustrated in full color - are important examples of the major schools of illumination in southern Italy, Umbria, Tuscany, Emilia, Lombardy, and the Veneto. Previously unpublished, and perhaps even unknown to scholars, are works by some of the foremost Italian painters of the Middle Ages and Renaissance, including a leaf here attributed for the first time to the Sienese master Duccio di Buoninsegna and cuttings by Stefano da Verona and Cosimo Tura. Lesser-known artists, such as Neri da Rimini, Belbello da Pavia, and Girolamo da Cremona, once renowned for their beautifully illuminated volumes, are also discussed in full."--BOOK JACKET.

Gita loves Mozambique, while her

mother - who came from Portugal in search of a better life - longs to be part of the wealthy Portuguese elite. Teolinda Gersao paints an evocative picture of childhood in Africa and the stark contrast between lush, ebullient Mozambique and the bleak and poor outlook of Salazar in Portugal."

Dimensions of Humor Рипол Классик
When did you last tell your children to put their hand over their mouth when they yawn? When did you last suggest that when they are introduced to someone they should shake hands firmly and look them in the eye? Do you suggest that they should wait until everyone is served before they eat rather than Hoover up the best bit for themselves? Do you demand that your young daughter dress decorously lest

she elicit outraged looks? Do you think that the children of today have disgraceful manners? Unlike, of course, when you were young ... Well, that's certainly what Erasmus of Rotterdam thought in 1530 when he published *De Civilitate Morum Puerilium: A Handbook on Good Manners for Children*. He felt that learning good manners was crucial to a child's upbringing, and that the uncouth and ill-disciplined behaviour around him demanded a new kind of book. After all, as William of Wykeham memorably said in the 1350s, 'Manners maketh man'. *A Handbook on Good Manners for Children* is considered to be the first treatise in Western Europe on the moral and practical education of children. It was a massive bestseller - indeed the biggest-selling book of the

sixteenth century - going into 130 editions over 300 years and being translated into 22 languages within ten years of its publication. In it, Erasmus concerns himself with matters such as how to dress, how to behave at table, how to converse with one's elders and contemporaries, how to address the opposite sex and much else. For example: Table Manners 'It's just as rude to lick greasy fingers as it is to wipe them on your clothing, Use a cloth or napkin instead.' 'Some people, no sooner than they've sat down, immediately stick their hands into the dishes of food. This is the manner of wolves.' 'Making a raucous noise or shrieking intentionally when you sneeze, or showing off by carrying on sneezing on purpose, is very ill-mannered.' 'To fidget around in your

seat, and to settle first on one buttock and then the next, gives the impression that you are repeatedly farting, or trying to fart.' The advice is as relevant today as it was 500 years ago.

From the author of *Memory and the Mediterranean*, a comprehensive history of the Italian city states from 1450 to 1650. In the fifteenth century, even before the city states of the Apennine Peninsula began to coalesce into what would become, several centuries later, a nation, "Italy" exerted enormous influence over all of Europe and throughout the Mediterranean. Its cultural, economic, and political dominance is utterly astonishing and unique in world history. Viewing the Italy?the many Italies?of that time

through the lens of today allows us to gather a fragmented, multi-faceted, and seemingly contradictory history into a single unifying narrative that speaks to our current reality as much as it does to a specific historical period. This is what the acclaimed French historian, Fernand Braudel, achieves here. He brings to life the two extraordinary centuries that span the Renaissance, Mannerism, and the Baroque and analyzes the complex interaction between art, science, politics, and commerce during Italy's extraordinary cultural flowering.

This magnificent and witty study by an unrecognized innovator seeks to define and explore the nature of "nonsense" in literature. Relying mainly on readings of Lewis Carroll and Edward Lear, Elizabeth Sewell not only sets out plausible boundaries for what or does not constitutes gibberish, but elucidates just how much of what is considered "sensible" writing must rely on nonsense for its power. Comparable only to the greatest works of Viktor Shklovsky, *The Field of Nonsense* is a masterpiece of American literary criticism.

A. Marshall Elliott Exile Editions, Ltd. Grand Scale brings to light rare surviving examples of mural-size prints--a Renaissance art form nearly lost from historical record. The most famous 16th-century woodcuts, engravings, and

etchings were those done on an intimate scale. Yet artists also worked in another entire category of print production, producing mural-size prints that sometimes reached as high as ten feet. This handsome book, which features nearly fifty examples from Italy, Germany, France, and the Netherlands, explores these multi-block woodcut and multi-plate engraving ensembles as vital contributions to the visual culture of their time. Comprising five essays, *Grand Scale* documents the relationship of monumental prints to the history of prints in general and also to mapmaking, painting, and book illustration, while addressing image design and modular printing from multiple, repeating blocks. "It's hard to see how anyone is ever going to better this User's Manual to the life of Georges Perec" - Gilbert Adair, Sunday Times Winner of the Prix

Goncourt for Biography, 1994 George Perec (1936-82) was one of the most significant European writers of the twentieth century and undoubtedly the most versatile and innovative writer of his generation. David Bellos's comprehensive biography - which also provides the first full survey of Perec's irreverent, polymathic oeuvre - explores the life of an anguished, comical and endearingly modest man, who worked quietly as an archivist in a medical research library. The French son of Jewish immigrants from Poland, he remained haunted all of his life by his father's death in the war, fighting to defend France, and his mother's in Auschwitz-Birkenau. His acclaimed novel *A Void* (1969) - written without using the letter "e" - has been seen as an attempt

to escape from the words "père", "mere", and even "George Perec". His career made an auspicious start with *Things: A Story of the Sixties* (1965), which won the Prix Renaudot. He then pursued an idiosyncratic and ambitious literary itinerary through the intellectual ferment of Paris in the 1960s and 1970s. He belonged to the *Ouvrier de Littérature Potentielle* (OuLiPo), a radically inventive group of writers whose members included Raymond Queneau and Italo Calvino. Perec achieved international celebrity with *Life A User's Manual* (1978), which won the Prix Medicis and was voted Novel of the Decade by the Salon du Livre. He died in his mid-forties after a short illness, leaving a truly puzzling detective novel, *53 Days*, incomplete. "Professor Bellos's

book enables us at once to relish the most wilfully bizarre aspects of Perec's oeuvre and to understand the whys and wherefores of his protean nature" - Jonathan Romney, Literary Review

Commentary Cambridge University Press

Of the rich legacy of the *Timaeus*, this study deals with the cross-pollination between Stoic and Platonist readings of *Timaeus*, spanning the period from Plato's writings to that of the so-called Middle Platonist authors. Plato's *Timaeus* and Stoic doctrine had their fates intertwined from very early on, both in polemical and reconciliatory contexts. The blend of Platonic and Stoic elements ultimately constituted one of the main conceptual bridges between the pagan tradition on the one hand and the Judeo-

Christian, in its own search for the distinction between transcendence and immanence, on the other. Contrary to the received opinion, later Platonist authors do not merely borrow Stoic terminology. Rather, in a genuine 'discourse of assimilation' the Stoic analysis of the universe has left a profound mark on Platonist views of the principles, of the place of humans in the universe, as well as of human freedom and its interaction with divine Providence.

Montaigne (1533-1592), the personification of philosophical calm, had to struggle to become the wise Renaissance humanist we know. His balanced temperament, sanguine and

melancholic, promised genius but threatened madness. When he started his Essays, Montaigne was upset by an attack of melancholy humor: He became temperamental and unbalanced. Writing about himself restored the balance but broke an age-old taboo--happily so, for he discovered profound truths about himself and about our human condition. His charm and humor have made his writings widely enjoyed and admired.

This exquisite novel tells the story of one of the most compelling heroines in modern literature--Emma Bovary.

"Madame Bovary has a perfection that not only stamps it, but that makes it stand almost alone; it holds itself with such a supreme unapproachable assurance as both excites and defies

judgement." - Henry James Unhappily married to a devoted, clumsy provincial doctor, Emma revolts against the ordinariness of her life by pursuing voluptuous dreams of ecstasy and love. But her sensuous and sentimental desires lead her only to suffering corruption and downfall. A brilliant psychological portrait, Madame Bovary searingly depicts the human mind in search of transcendence. Who is Madame Bovary? Flaubert's answer to this question was superb: "Madame Bovary, c'est moi." Acclaimed as a masterpiece upon its publication in 1857, the work catapulted Flaubert to the ranks of the world's greatest novelists. This volume, with its fine translation by Lowell Bair, a perceptive introduction by Leo Bersani, and a

complete supplement of essays and critical comments, is the indispensable *Madame Bovary*.

Wordplay involving several linguistic codes represents an important modality of ludic language. It is attested in different epochs, communicative situations, genres, and contexts of use.

The translation of wordplay, which is generally seen as a challenging enterprise, illustrates another dimension of crossing linguistic borders in wordplay. The third volume of the series *The Dynamics of Wordplay* unites contributions from different disciplines which study the creative and playful use of elements from different languages and the transfer of ludic language into other linguistic systems. It sheds light on the multi-dimensionality, special linguistic make-up, and specific interactive potential of wordplay at the interface of different languages and cultures. The individual studies collected in this volume will be of interest to scholars from different scientific fields, such as linguistics and literary studies as well as cultural and media studies.
