This volume of edited essays is the first one in English to offer a critical overview of the specific features of Belgian modernity from 1880 to 1940 in a multiplicity of disciplines: literature and poetry, politics, music, photography and drama. The first half of the book investigates the roots of twentieth century modernity in Belgian fin de siècle across a variety of genres (novel, poetry and drama), not only within but also beyond the boundaries of Symbolism. The contributors go on to examine the explosion of Belgian culture on the international scene with the rise of the avant-gardes, notably Surrealism: and the contribution made in minor genres, such as the popular novels of Simenon and Jean Ray, and the Tintin comics of Herge.

"The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten - except by the historians, scholars"-- The Guardian,

"The Conquest of Canada" in 2 volumes is one of the best-known works by George Warburton that features the beginning of the European interest in the northern parts of the American continent. Starting in the late 15th century, French and British expeditions explored, colonized, and fought over various places within North America in what constitutes present-day Canada. The colony of New France was claimed in 1534 with permanent settlements beginning in 1608. Although the English

had laid claims to it in 1497 when John Cabot made landfall somewhere on the North American coast and had claimed the land for England on behalf of Henry VII these claims were not exercised and England did not attempt to create a permanent colony. As for the French, however, Jacques Cartier planted a cross in the Gaspé Peninsula in 1534 and claimed the land in the name of Francis I, creating a region called "Canada" the following summer. This carefully crafted e-artnow ebook is formatted for your eReader with a functional and detailed table of contents.

Éléments de L'art de la Teinture BRILL

This bilingual (English-French) anthology of early modern fictitious catalogues presents a multitude of texts, from the genre's beginnings (Rabelais's satirical catalogue of the Library of St.-Victor (1532)) to its French and Dutch specimens from around 1700.

La trame et la chaîne BRILL

4th edition with a new foreword by Joseph Epstein (Harriman Classics) Lost for almost forty years, Style has acquired the status of a legend. Loved by some of the greatest modern authors and acclaimed by critics, this guide to recognising and writing stylish prose was written by a Cambridge don and veteran of Bletchley Park. Imbued with a lifetime of wit and wisdom, it retains its power today. Writing forcefully and persuasively has never mattered so much - and Style is the perfect guide for the busy, the ambitious, and the creative. With unique authority and good humour, F. L. Lucas takes us through his ten points of effective prose style and provides a tour of some of the best (and worst) that has been written in a number of languages and literatures. Wry, perceptive and rich in quotation and anecdote, the book reads like a personal conversation on the art of writing well - with a master of the art.
