A rich collection of writing from those negotiating disability in their lives - a group whose voices are not heard often enough My body and its place in the world seemed normal to me. Why wouldn't it? I didn't grow up disabled; I grew up with a

problem. A problem that those around me wanted to fix. We have all felt that uncanny sensation that someone is watching us. The diagnosis helped but it didn't fix everything. Don't fear the labels. That identity, which I feared for so long, is now one of my greatest qualities. I had become disabled - not just by my disease, but by the way the world treated me. When I found that out, everything changed. One in five Australians has a disability. And disability presents itself in many ways. Yet disabled people are still underrepresented in the media and in literature. In Growing Up Disabled in Australia - compiled by writer and appearance activist Carly Findlay OAM - more than forty writers with a disability or chronic illness share their stories, in their own words. The result is illuminating.

Contributors include senator Jordon Steele-John, paralympian Isis Holt, Dion Beasley, Sam Drummond, Astrid Edwards, Sarah Firth, El Gibbs, Eliza Hull, Gayle Kennedy, Carly-Jay Metcalfe, Fiona Murphy, Jessica Walton and many more.

This work presents a series of dramatic discoveries never before made public. Starting from a collection of simple computer experiments---illustrated in the book by striking computer graphics---Wolfram shows how their unexpected

results force a whole new way of looking at the operation of our universe. Wolfram uses his approach to tackle a remarkable array of fundamental problems in science: from the origin of the Second Law of thermodynamics, to the development of complexity in biology, the computational limitations of mathematics, the possibility of a truly fundamental theory of physics, and the interplay between free will and determinism.

#1 NEW YORK TIMES BESTSELLER • Now a major motion picture directed by Steven Spielberg. “Enchanting . . . Willy Wonka meets The Matrix.”—USA Today • “As one adventure leads expertly to the next, time simply evaporates.”—Entertainment Weekly A world at stake. A quest for the ultimate prize. Are you ready? In the year 2045, reality is an ugly place. The only time Wade Watts really feels alive is when he’s jacked into the OASIS, a vast virtual world where most of humanity spends their days. When the eccentric creator of the OASIS dies, he leaves behind a series of fiendish puzzles, based on his obsession with the pop culture of decades past. Whoever is first to solve them will inherit his vast fortune—and control of the OASIS itself. Then Wade cracks the first clue. Suddenly he’s beset by rivals who’ll kill to take this prize. The race is on—and the only way to survive is to win. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Entertainment Weekly • San Francisco Chronicle • Village Voice • Chicago Sun-Times • iO9 • The AV Club “Delightful . . . the grown-up’s Harry Potter.”—HuffPost “An addictive read . . . part intergalactic scavenger hunt, part romance, and all heart.”—CNN “A most excellent ride . . . The complexity and range of Robert Louis Stevenson’s short fiction reveals his

genius perhaps more than any other medium. Here, leading Stevenson scholar Barry Menikoff arranges and introduces the complete selection of Stevenson’s brilliant stories, including the famed masterpiece Strange Case of Dr. Jekyll and Mr. Hyde, as well as “The Beach of Falesá” and Stevenson’s previously uncollected stories. Arthur Conan Doyle has written that “[Stevenson’s] short stories are certain to retain their position in English literature. His serious rivals are few indeed.” This Modern Library Paperback Classics edition includes explanatory notes, a Scots’ Glossary, and a unique appendix dedicated to Stevenson’s influence on the Oxford English Dictionary.

Vast legions of gods, mages, humans, dragons and all manner of creatures play

out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, *Gardens of the Moon* is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice.
