We can each radiate unconditional love. We don't even need to create it - we are love. But the flow of love is blocked in moments of hurt, blame, anger, criticism, competition or insecurity. These emotions have dominated our emotional space, and hardly enable us to feel our own love. So today, we rely on someone else to love us. This book teaches us to think right, enable self-love, feel it and extend it to other people. The central message here is that love is not 'out there', but within us. A spectrum of emotions like attachment, expectations, hurt, worry, stress, fear or anger, which we use in the pretext of love, are analysed. The conversations also explore the fact that the parent-child relationship is not challenging - It does not need to be. As you free yourself from judgments and expectations, as you start thinking right for people, and as you accept people for who they are, you become a Radiator of unconditional love. You are one decision away from vibrating at a

frequency of love ... by not needing love or giving love - but just by being love.

From today, hundred

years ago, the best novels

like 'Devdas' and

'Saraswatichandra' were

published in the East and

West regions of India.

Looking at this East and

West, I have tried my

level best to give extreme

best in the story of 'MOL -

MATURITY OF LOVE'. I

hope you all will like the

heart touching love story and life story of those whose feelings are better. At some point, there is some connection between the two LOVE STORIES in the college. There is no relation between these two, even then the relation becomes ... of humanity! Maybe, God could not reach everywhere, perhaps that is why he has put humanity inside him while creating a human being. 'My life is my life - message!' This life message of Mahatma Gandhi changes the life of the hero of the story in such a way that the hero of the story himself becomes an inspiration for others. Saumya :) Love ... means... "A circle which has no end"! [Devanagari text continues]

In these enlightening and eye-opening conversations, the renowned spiritual mentor, Sister BK Shivani reveals how to create a life of joy, contentment and bliss, because we all have the choice and the

power to do so. According to her, the reason why there is so little happiness in the world is dependency. Happiness is not dependent on 'anything' or 'anyone', or found 'anywhere'. We keep delaying our happiness until things are just right in our life. We think we will be happy in the future and then wonder why we are not happy now. Happiness is only possible when we are able to accept everyone as they are, at every

moment, in every situation. This book is a medium for the awakening and acceptance of self-responsibility. Helping us choose our thoughts and feelings aligned with our true nature of purity, peace and love. To make us shift from asking to sharing; from holding on to letting go; from expectations to acceptance; from the past and the future to being in the now. Happiness is a 'decision', not a 'consequence'.
