Continental Basketball Association to nine championship rings in the NBA. Along the way he turned multimillionaire players on to meditation, transformed the Michael Jordan-led Chicago Bulls from a one-man show to a five-man team of domination, and after battling with Bulls management, ended one dynasty to start another on the West Coast. Sportswriter Roland Lazenby,

author of the bestselling BLOOD ON THE HORNS, reveals the fascinating story of Jackson's life, from his years with the New York Knicks under the legendary Red Holzman to his remarkable nine championship s coaching first the Chicago Bulls and then the Los Angeles Lakers. In MIND GAMES Lazenby compellingly portrays a man with a unique determination to control the

competitive environment he inhabits. A clear picture of the Jackson mystique emerges: philosopher, teacher, manipulator, counselor, psychologist, shaman, champion, master of mind games. Originally published in 2007, now available in eBook format for the first time. The Times Codeword 7: 200 Cracking Logic Puzzles (Times Codeword) Times Books 200 brand new

compelling and addictive word and number puzzles from The Times. Appearing daily in the newspaper, Codeword is the cracking alternative to Su Doku and Crosswords. The concept is simple: each number represents a letter, so, starting with the solved letters, use your logic and vocabulary to reveal more letters, form words, and then crack the code! The Codeword series is so popular

because you don't need any prior knowledge, unlike a crossword. You can just pick up a pen and get puzzling. It steadily increases your vocabulary, as the difficulty slowly grows as you progress through the book, and even though you'll be working your brain, it's the perfect way to unwind."

The Times Quick Crossword Book 25 Times Books

This challenging visual puzzle will appeal to lovers of logic and deduction brain teasers.

How To Play: A map grid shows two towns, typically A and B. The

objective of the puzzle is to lay down tracks to connect the two towns. Numbers around the outside of the grid tell you how many pieces of track are to be placed in each row and column. You can only use straight (horizontal and vertical) and curved (right and left) rails and the track cannot cross over itself. There is something very satisfying in the laying down of tracks. The puzzles are

arranged with varying levels of difficulty, where difficulty is largely dependent on the size of the map grid (from 6x6 to 10x10). Puzzles included cover three levels of difficulty: 70 Easy, 70 Moderate, and 60 Difficult.
