Sun set in Ireland, about a recent widow who moves to the Irish coast and begins a tumultuous but ultimately healing relationship with her neighbor, a brooding Irish photographer. Also out now: the bestselling sequel, *Don't Worry, Life is Easy*, also from Hachette Books. Diane seems to have the perfect life. She is a wife, mother, and the owner of Happy People Read and Drink Coffee, a cozy literary café in Paris. But when she suddenly loses her husband and daughter in a car accident, the world as she knows it disappears. One year later, Diane moves to a small town on the Irish coast, determined to heal by rebuilding her life alone—until she meets Edward, a handsome and moody photographer, and falls into a surprising and tumultuous romance. But will it last when Diane leaves Ireland for good? At once heartbreaking and uplifting, Diane's story is deeply felt, reminding us that love remembered is love enduring. "A heartbreaking story of love and loss that will twist readers up in knots...essential." -- Library Journal

The Japanese believe that until the age of three, children, whether Japanese or not, are gods, each one an okosama, or "lord child." On their third birthday they fall from grace and join the rest of the human race. In Amelie Nothomb's new novel, *The Character of Rain*, we learn that divinity is a difficult thing from which to recover, particularly if, like the child in this story, you have spent the first two and a half years of life in a nearly vegetative state. "I remember everything that happened to me after the age of two and one-half," the narrator tells us. She means this literally. Once jolted out of her plant-like, tube-like trance (to the ecstatic relief of her concerned parents), the child bursts into existence, absorbing everything that Japan, where her father works as a diplomat, has to offer. Life is an unfolding pageant of delight and danger, a ceaseless exploration of pleasure and the limits of power. Most wondrous of all is the discovery of water: oceans, seas, pools, puddles, streams, ponds, and, perhaps most of all, rain—one meaning of the Japanese character for her name. Hers is an amphibious life. *The Character of Rain* evokes the hilarity, terror, and sanctity of childhood. As she did in the award-winning, international bestseller *Fear and Trembling*, Nothomb grounds the novel in the outlines of her experiences in Japan, but the self-portrait that emerges from these pages is hauntingly universal. Amelie Nothomb's novels are unforgettable immersion experiences, leaving you both holding your breath with admiration, your lungs aching, and longing for more.

*Moonwalking with Einstein* by Joshua Foer | Summary & Analysis Preview: *Moonwalking with Einstein* recounts author Joshua Foer's yearlong journey from participant-journalist covering the national memory championships to becoming the 2006 USA World Memory Champion. Other segments offer a journalistic history of the human relationship with memory, addressing its failings, its successes, and its limitations. Most people operate according to a

series of misconceptions about human memory. Above all, many believe that they have an average brain and are therefore incapable of performing mental feats such as swiftly memorizing a deck of playing cards shuffled into random order. This belief, however, is false. Memory champions are no smarter than anyone else and have unremarkable brains from a biological standpoint. The difference is in how memory champions use their brain. They employ techniques and training to overcome shortcomings that are hard-wired into the human brain anatomy. Even those who appear to possess a photographic memory likely do not and are instead employing other memorization techniques... Gibbon offers an explanation for why the Roman Empire fell, a task made difficult by a lack of comprehensive written sources, though he was not the only historian to tackle the subject. Most of his ideas are directly taken from what few relevant records were available: those of the Roman moralists of the 4th and 5th centuries.
