Genius and breakthroughs appear to involve something magical. Andrew Robinson looks at what science does, and does not, know about exceptional creativity, and applied it to the stories of ten breakthroughs in the arts and sciences, including Curie's discovery of radium and Mozart's composing of *The Marriage of Figaro*.

New York Times Bestseller Winner of the Los Angeles Times Book Prize Winner of the J. Anthony Lukas Award "Nimbly splices together history, science, reporting and personal experiences into a taut and cautiously hopeful narrative.... Egan's book is bursting with life (and yes, death)." —Robert Moor, New York Times Book Review The Great Lakes—Erie, Huron, Michigan, Ontario, and Superior—hold 20 percent of the world's supply of surface fresh water and provide sustenance, work, and recreation for tens of millions of Americans. But they are under threat as never before, and their problems are spreading across the continent. *The Death and Life of the Great Lakes* is prize-winning reporter Dan Egan's compulsively readable portrait of an ecological catastrophe happening right before our eyes, blending the epic story of the lakes with an examination of the perils they face and the ways we can restore and preserve them for generations to come.

In this wonderful exploration of the meaning of laughter, Barry Sanders queries its uses from the ancient Hebrews to Lenny Bruce, turning up evidence of its age-old power to subvert authority and give voice to the voiceless.

A Sudden Light Houghton Mifflin Harcourt

El autor de *Una historia de amor y oscuridad* nos entrega un maravilloso cuento para todos los que creen en la sabiduría de la infancia. Una parábola sobre la diversidad y el valor de ir a contracorriente. El lector tiene entre sus manos una Aggadah, una parábola, con todo su simbolismo y carga metafórica, que

cuenta la historia de un pequeño pueblo embrujado sobre el cual ha recaído una extraña maldición: la desaparición de todos los animales... De noche, en el pueblo, un raro e imposible silencio habita la oscuridad. También de día la ausencia total de animales deja su huella: ni un perro, ni un gato, ni siquiera una mosca o un grillo. Algo debe de haber sucedido: los niños preguntan y algunos adultos se enfadan. Otros no, como la maestra Emmanuela con sus extraños dibujos, o el viejo pescador Almón, cuyas redes están siempre vacías, o la panadera, que en vano echa migas en el patio para pájaros que nunca vendrán. Hasta que Maya y Mati, dos niños empeñados en encontrar la verdad, se atreven a desobedecer la ley establecida y parten para su aventura...

An aspect of dying in opera, rarely observed or commented on, is Sudden Unexpected Death. There are many deaths in this melodramatic genre: most follow expected causes like murder, suicide, or old age. This book explores those deaths which occur without obvious natural causes. These are often central to the overall drama of the opera, representing denouements forming the epiphany of the story and the apotheosis for the audience. The book identifies 50 operas where such events occur, exploring the role of the dramatis personae, the circumstances of their dying, and specific themes that emerge. These include a preponderance of females, especially in the 19th century, who die mainly at the end of the operas, often in the context of tragedy. It charts the growing awareness in the medical sciences of the unconscious forces driving human behaviour, including liminal mental states and trances, which influenced these operas and continue to affect human behaviour to the present day. In addition, the changing philosophies that are intertwined with operatic narratives, in particular stemming from Kant, Hegel, Schopenhauer and Nietzsche, are important in the book's exegesis, as is the special role of Wagner's compositions. This leads to the exploration of recurrent concepts such as the Liebestod, the ewig Weibliche and redemption itself.

Journal "Brilliantly original. The best new novel I've read this year." —Salman Rushdie A daring, kaleidoscopic novel about the clash of empires and ideas, told through a tennis match in the sixteenth century between the radical Italian artist Caravaggio and the Spanish poet Francisco de Quevedo, played with a ball made from the hair of the beheaded Anne Boleyn. The poet and the artist battle it out in Rome before a crowd that includes Galileo, a Mary Magdalene, and a generation of popes who would throw the world into flames. In England, Thomas Cromwell and Henry VIII execute Anne Boleyn, and her crafty executioner transforms her legendary locks into those most-sought-after tennis balls. Across the ocean in Mexico, the last Aztec emperors play their own games, as the conquistador Hernán Cortés and his Mayan translator and lover, La Malinche, scheme and conquer, fight and f**k, not knowing that their domestic comedy will change the course of history. In a remote Mexican colony a bishop reads Thomas More's *Utopia* and thinks that it's a manual instead of a parody. And in today's New York City, a man searches for answers to impossible questions, for a book that is both an archive and an oracle. Álvaro Enrigue's mind-bending story features assassinations and executions, hallucinogenic mushrooms, bawdy criminals, carnal liaisons and papal schemes, artistic and religious revolutions, love and war. A blazingly original voice and a postmodern visionary, Enrigue tells the grand adventure of the dawn of the modern era, breaking down traditions and upending expectations, in this bold, powerful gut-punch of a novel. Game, set, match. "Sudden Death is the best kind of puzzle, its elements so esoteric and wildly funny that readers will race through the book, wondering how Álvaro Enrigue will be able to pull a novel out of such an astonishing ball of string. But Enrigue absolutely does; and with brilliance and clarity and emotional warmth all the more powerful for its surreptitiousness." —Lauren Groff, New York Times bestselling author of *Fates and Furies* "Engrossing... rich with Latin and European history." —The New Yorker "[A] bawdy, often profane, sprawling, ambitious book that is as engaging as it is challenging." —Vogue

Sudden cardiac death is a global health threat for which we have only partial answers. With growing elucidation of the underlying pathophysiological mechanisms of sudden cardiac death, better patient identification and treatment options are being developed. These include risk stratification paradigms, ICD therapy, pharmacological options, ablative procedures, and other treatments. This book covers many of these options, including defibrillator technology and clinical applications. It also examines pathophysiological pathways and etiologies as well as highlights risk-stratification in ion channel diseases and structural heart disease such as dilated cardiomyopathy.

This work recounts the lives and deaths of athletes who departed the world suddenly and without warning during their playing careers. From slugger Ed Delahanty's fatal plunge into the Niagara River in 1903 to the demise of Dwayne Haskins on a dark Florida highway in 2022, their untimely ends shocked and saddened millions of fans. Many died from injuries sustained in the course of competition. Others met their fate in airplane and motor vehicle crashes, by freak accident and through disease, drug overdose, drowning and suicide. Several were victims of cold-blooded murder. Regardless of how or why they perished, Dale Earnhardt, Len Bias, Thurman Munson, Flo Hyman, the Marshall Thundering Herd and all the rest faced the same merciless truth--there would be no next year.

From the author of the million-copy bestselling *The Art of Racing in the Rain* comes the breathtaking and long-awaited new novel. This novel centres on four generations of a once terribly wealthy and influential timber family who have fallen from grace; a mysterious yet majestic mansion, crumbling slowly into the bluff overlooking Puget Sound in Seattle; a love affair so powerful it reaches across the planes of existence; and a young man who simply wants his parents to once again experience the moment they fell in love, hoping that if he can feel that emotion again, maybe they won't get divorced after all.

The Caldwell Catalogue, compiled by the late Sir Patrick Moore (1923–2012), has delighted amateur astronomers worldwide since its publication in 1995. Twenty years on, Stephen James O'Meara revisits his guide to these 109 deep-sky delights, breathing new life into them and the 20 additional observing targets included as an appendix. This second edition retains O'Meara's detailed visual descriptions and sketches, accompanied by stunning new images taken by amateur photographer Mario Motta and observations by Magda Streicher. The astrophysical descriptions have been updated to account for the many advances in our understanding of the objects, not least due to an armada of space-borne observatories and the new technologies used in large ground-based telescopes. Ideal for observers who have completed the Messier objects and are looking for their next challenge, *Deep-Sky Companions: The Caldwell Objects* is a fitting tribute from a renowned visual observer to one of astronomy's most famous personalities.

Suddenly in the Depths of the Forest H J Kramer

The World Fantasy Award-winning thriller about a girl no one can remember, from the acclaimed author of *The First Fifteen Lives of Harry August* and *84K*. My name is Hope Arden, and you won't know who I am. But we've met before -- a thousand times. It started when I was sixteen years old. A father forgetting to drive me to school. A mother setting the table for three, not four. A friend who looks at me and sees a stranger. No matter what I do, the words I say, the crimes I commit, you will never remember who I am. That makes my life difficult. It also makes me dangerous. The Sudden Appearance of Hope is a riveting and heartbreaking exploration of identity and existence, about a forgotten girl whose story will stay with you forever.

Bringing up a child, lying to the boss, placing an order in a fast-food restaurant: in Etgar Keret's new collection, daily life is complicated, dangerous, and full of yearning. In his most playful and most mature work yet, the living and the dead, silent children and talking animals, dreams and waking life coexist in an uneasy world. Overflowing with absurdity, humor, sadness, and compassion, the tales in *Suddenly*, a Knock on the Door establish Etgar Keret—declared a "genius" by *The New York Times*—as one of the most original writers of his generation.

"Oz conjures up a fairy story in which we may well recognize ourselves, our history and our nations . . . be prepared simply to be enchanted." —*The Guardian*
In a gray and gloomy village, all of the animals—from dogs and cats to fish and snails—disappeared years before. No one talks about it and no one knows why, though everyone agrees that the village has been cursed. But when two children see a fish—a tiny one and

just for a second—they become determined to unravel the mystery of where the animals have gone. And so they travel into the depths of the forest with that mission in mind, terrified and hopeful about what they may encounter. From the internationally bestselling author Amos Oz, this is a hauntingly beautiful fable for both children and adults about tolerance, loneliness, denial, and remembrance. “In this swiftly moving fable, Oz creates palpable tension with a repetitive, almost hypnotic rhythm and lyrical language that twists a discussion-provoking morality tale into something much more enchanting.” —Booklist “Short, poetic, and haunting, the book operates on a plane of mystery somewhere between fable and fairy tale . . . The great beauty of this story is the rhythm and clarity of its evocative language.” —New York Journal of Books “From the whispered tales of a local monster to the brash, spunky heroes on a quest, internationally acclaimed Israeli author Oz litters his story with fairy-tale tropes that give this narrative a fable-like quality; the atmosphere is intriguingly secretive and shadowed, but the prose is measured and accessible and the length manageable.” —The Bulletin

A funeral sermon [on Luke xii.40], occasioned by the sudden death of the reverend mr. Nathanael Vincent Penguin

This volume covers aspects of sudden infant and early childhood death, ranging from issues with parental grief, to the most recent theories of brainstem neurotransmitters. It also deals with the changes that have occurred over time with the definitions of SIDS (sudden infant death syndrome), SUDI (sudden unexpected death in infancy) and SUDIC (sudden unexpected death in childhood). The text will be indispensable for SIDS researchers, SIDS

organisations, paediatric pathologists, forensic pathologists, paediatricians and families, in addition to residents in training programs that involve paediatrics. It will also be of use to other physicians, lawyers and law enforcement officials who deal with these cases, and should be a useful addition to all medical examiner/forensic, paediatric and pathology departments, hospital and university libraries on a global scale. Given the marked changes that have occurred in the epidemiology and understanding of SIDS and sudden death in the very young over the past decade, a text such as this is very timely and is also urgently needed.
