This book offers a comprehensive political biography of Kingsley Ozuomba Mbadiwe, (1915-1990), a central figure in Nigerian political history for more than forty years. Starting in 1936 as a protégé of Nnamdi Azikiwe, then Nigeria's most renowned nationalist, Mbadiwe himself by the 1950s became a frontline nationalist. And next to Tafawa Balewa from the North who became Prime Minister in 1957, he was the most important figure in the Nigerian Federal Government between 1952 and Nigeria's first military coup in 1966. During this time he held a succession of important Cabinet positions and was Parliamentary Leader of the National Council of Nigeria and the Cameroons (NCNC), which was in a ruling alliance with the Northern People's Congress (NPC). In contrast, his older prominent political contemporaries, Azikiwe of the Eastern Region, Igbo Leader of the NCNC; Obafemi Awolowo of the Western Region, Yoruba Leader of the Action Group (AG); and Ahmadu Bello of the Northern Region, Fulani Leader of the NPC, all carved out their political careers totally or largely at the regional level. Throughout his political career Mbadiwe's focus was always at the national level. Truly, it has been stated that Mbadiwe was one of the founding fathers of the Nigerian State. Nonetheless, Mbadiwe's ambition for himself to lead Nigeria and for his nation to set it on the path to greatness faced insuperable difficulties. In a country of widespread poverty, high illiteracy, and a grossly underdeveloped private sector,

there were fierce ethnic and regional conflicts for the control of governments and resources, leading to massive corruption and serious instability. This in turn led to prolonged military rule twenty years in Mbadiwe's lifetime which was often more corrupt and repressive than civilian rule, and was bitterly deprecated by Mbadiwe.

Salyut : Soviet steps toward permanent human presence in space. John Wiley & Sons

Useful business analysis requires you to effectively transform data into actionable information. This book helps you use SQL and Excel to extract business information from relational databases and use that data to define business dimensions, store transactions about customers, produce results, and more. Each chapter explains when and why to perform a particular type of business analysis in order to obtain useful results, how to design and perform the analysis using SQL and Excel, and what the results should look like.

Emerging Trends in Electrical, Communications, and Information Technologies UNESCO Publishing

The core of EPI is a collection of over 300 problems with detailed solutions, including 100 figures, 250 tested programs, and 150 variants. The problems are representative of questions asked at the leading software companies. The book begins with a summary of the nontechnical aspects of interviewing, such as common mistakes, strategies for a great interview, perspectives from the other side of the table, tips on negotiating the best offer, and a guide to the best ways to use EPI. The technical core of EPI is a sequence of chapters on basic and advanced data structures, searching, sorting, broad

algorithmic principles, concurrency, and system design. Each chapter consists of a brief review, followed by a broad and thought-provoking series of problems. We include a summary of data structure, algorithm, and problem solving patterns.

Climate Change and Indigenous Knowledge in the Sahel John Wiley & Sons

A flexible, strategy-based program that explicitly connects reading and writing to build a common language of literacy and increase proficiency across grades levels and content areas. -- from publisher description.

Artificial Intelligence and Machine Learning in Libraries ALA TechSource

Information in today's modernized world has become much more attainable with the use of technology. A resource that has fallen victim to this are library services. What was once a staple of knowledge and communication has failed to keep pace with recent advancements in information service providers. Library practitioners need to learn how to manage change, build influence, and adapt their services to remain relevant within local communities. Libraries can continue to play a key role in future aspects of information provision, but proper research is a necessity. *Managing and Adapting Library Information Services for Future Users* is a collection of innovative research that encapsulates practices, concepts, ideas, and proposals that would chart pathways for libraries of all types to envision and understand how to thrive and remain relevant in the competitive information provision environment. It is expected to motivate librarians and information scientists to probe further into how libraries would better serve user communities of the 21st century who have options of

accessing information from sources other than from libraries. While highlighting topics including artificial intelligence, human design thinking, and alternative finance, this book is ideally designed for librarians, information specialists, architects, data scientists, researchers, community development practitioners, policymakers, faculty members, and students seeking current research on emerging advancements in library optimization.

West Africa Partridge Africa

Child injuries are largely absent from child survival initiatives presently on the global agenda. Through this report, the World Health Organization, the United Nations Children's Fund and many partners have set out to elevate child injury to a priority for the global public health and development communities. It should be seen as a complement to the UN Secretary-General's study on violence against children released in late 2006 (that report addressed violence-related or intentional injuries). Both reports suggest that child injury and violence prevention programs need to be integrated into child survival and other broad strategies focused on improving the lives of children. Evidence demonstrates the dramatic successes in child injury prevention in countries which have made a concerted effort. These results make a case for increasing investments in human resources and institutional capacities. Implementing proven interventions could save more than a thousand children's lives a day.-- p. vii.

Nigerian English (NigE) Springer

This book includes original, peer-reviewed research from the 3rd International Conference on Emerging Trends in Electrical, Communication and Information Technologies (ICECIT 2018),

held at Srinivasa Ramanujan Institute of Technology, Ananthapuramu, Andhra Pradesh, India in December 2018. It covers the latest research trends and developments in the areas of Electrical Engineering, Electronic and Communication Engineering, and Computer Science and Information.

Western Technology and Soviet Economic Development Springer

VOLUME III - PHOTO ALBUM: This book is a companion volume to the revised edition of the Wallick family history book titled "Hans Michael Wallick's Descendants in America: European Origins from 1623." Starting in 2008 we had a Wallick family website where we gathered and shared old heirloom photos from all of the branches of our Hans Michael Wallick family tree. But Ancestry.com stopped hosting these Myfamily.com websites in 2014. This book contains all of the photos that had been contributed for sharing on that website. It also includes new photos that have been contributed since the first edition. This book is the best way to organize and preserve all of these heirloom photos of the Wallick family for future generations.

Springer

This book analyzes economic developments of Indonesia and Nigeria during the period 1950-85. It addresses why Indonesia was so much more successful than Nigeria during this period. The book consists of three parts. Part I focuses on Nigeria and part II on Indonesia. The first chapters in each part provide a narrative of the political economy, focusing on the various phases since 1950. This is followed by a chapter summarizing the effects on

economic growth and poverty. The large divergences in outcome must be attributed to differences in economic policies. It first considers policies in the factor and product markets that mediated between factor endowments and the growth and distributional outcomes. Then it turns to the broader array of economic policies. Finally, it attempts to relate policies to the underlying political processes and interest groups that generated them. Each part concludes by explaining the salient economic outcomes as a result of both policy and the underlying politics. Part III features a concluding comparison by using economic histories to compare the two countries. First it examines the outcomes, then the policies. Finally it contrasts the political processes and interest groups that it suggests account for these important policy differences.

Memoir of an Executive Admiral

Springer Nature

Cet ouvrage dresse le panorama des principales expériences d'éducation non-formelle entreprises dans un certain nombre d'états. Elles sont classées en plusieurs catégories : formation industrielle et professionnelle (surtout dans le secteur urbain), formation agricole et développement des communautés rurales, programmes divers et à buts multiples (alphabétisation, planning familial, éducation civique, cours par correspondance).

World Report on Child Injury Prevention

World Bank Publications

This comprehensive collection of classical sociological theory is a definitive guide to the roots of sociology from its undisciplined beginnings to its current influence on contemporary sociological debate. Explores influential works of Marx, Durkheim, Weber, Mead,

Simmel, Freud, Du Bois, Adorno, Marcuse, Parsons, and Merton Editorial introductions lend historical and intellectual perspective to the substantial readings. Includes a new section with new readings on the immediate "pre-history" of sociological theory, including the Enlightenment and de Tocqueville Individual reading selections are updated throughout

Classical Sociological Theory IGI Global

Richard Joseph's seminal 1987 book *Democracy and Prebendal Politics in Nigeria* represented a watershed moment in the understanding of the political dynamics of Nigeria. This groundbreaking collection brings together scholars from across disciplines to assess the significance of Joseph's work and the current state of Nigerian politics.

Step Up to Writing DIANE Publishing
Cameroon is a country endowed with a variety of climates and agricultural environments, numerous minerals, substantial forests, and a dynamic population. It is a country that should be a leader of Africa. Instead, we find a country almost paralyzed by corruption and poor management, a country with a low life expectancy and serious health problems, and a country from which the most talented and highly educated members of the population are emigrating in large numbers. Although Cameroon has made economic progress since independence, it has not been able to change the dependent nature of its economy. The economic situation combined with the dismal record of its political history, indicate that prospects for political stability, justice, and prosperity are dimmer than they have been for most of the country's independent existence. The fourth

edition of the *Historical Dictionary of the Republic of Cameroon* has been updated to reflect advances in the study of Cameroon's history as well as to provide coverage of the years since the last edition. It relates the turbulent history of Cameroon through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Cameroon history from the earliest times to the present.

ICAO Training Report Scarecrow Press

As the other major spacefaring nation, the Soviet Union is a subject of interest to the Congress in their deliberations concerning the future of U.S. space activities. In the course of an assessment of Civilian Space Stations (in 1983), the Office of Tech. Assessment (OTA) undertook a study of the presence of Soviets in space & their Salyut space stations. The major element in this technical memorandum was a workshop held at OTA in Dec. 1982: it was the first occasion when a significant number of experts in this area of Soviet space activities had met for extended unclassified discussion. As a result of the workshop, OTA prepared this report. Includes ¿Graphic Comparison of Soviet & U.S. Space Vehicles.¿ Illustrations.

Report of the Fact-Finding Panel Into the Activities of the Civil Aviation Department of the Ministry of Civil Aviation World Health Organization

Report on the research results of a comparison of selected aspects of business organization and management in Argentina, Brazil, India, the Philippines and Uruguay - covers theoretical and methodological dimensions, management techniques, leadership, motivation, decision making,

management effectiveness at managerial level, etc. Bibliography pp. 233 to 238 and statistical tables.

Software Engineering Methods in Intelligent Algorithms Stanford, Calif. : Hoover Institution on War, Revolution and Peace, Stanford University
Includes Case Studies from a Range of Event Sites
Introduction to Crowd Science examines the growing rate of crowd-related accidents and incidents around the world. Using tools, methods, and worked examples gleaned from over 20 years of experience, this text provides an understanding of crowd safety. It establishes how crowd accidents and incidents (specifically mass fatalities in crowded spaces) can occur. The author explores the underlying causes and implements techniques for crowd risk analysis and crowd safety engineering that can help minimize and even eliminate occurrences altogether. Understand Overall Crowd Dynamics and Levels of Complex Structure
The book outlines a simple modeling approach to crowd risk analysis and crowds safety in places of public assembly. With consideration for major events, and large-scale urban environments, the material focuses on the practical elements of developing the crowd risk analysis and crowd safety aspects of an event plan. It outlines a range of modeling techniques, including line diagrams that represent crowd flow, calculations of the speed at which a space can fill, and the time it takes for that space to reach critical and crush density. It also determines what to consider during the event planning and approval (licensing/permitting) phases of the event process. Introduction to Crowd Science addresses key questions and presents a systematic approach to managing crowd risks in complex sites. It

provides an understanding of the complexity of a site, that helps you plan for crowds in public places.

Nigerian College of Aviation Technology, Zaria CRC Press

The present edition of this book is in S.I. Units To Make the book really useful at all levels, a number of articles as well as solved and unsolved examples have been added. The mistake, which had crept in, have been eliminated. Three new chapters of Thick Cylindrical and Spherical shells, Bending of Curved Bars and Mechanical Properties of Materials have also been added.

Data Analysis Using SQL and Excel EPI

This publication gives a wide-ranging perspective on the present state of mechanization in the developing world, and, as such, constitutes a solid platform on which to build strategies for a sustainable future. Farm mechanization forms an integral plank in the implementation of sustainable crop production intensification methodologies and sustainable intensification necessarily means that the protection of natural resources and the production of ecosystem services go hand-in-hand with intensified production practices. This requires specific mechanization measures to allow crops to be established with minimum soil disturbance, to allow the soil to be protected under organic cover for as long as possible, and to establish crop rotations and associations to feed the soil and to exploit crop nutrients from various soil horizons. This work is the starting point to help the reader understand the complexities and requirements of the task ahead.

Drum Food & Agriculture Organization of the UN (FAO)

This issue of Library Technology Reports argues that the near future of library

work will be enormously impacted and perhaps forever changed as a result of artificial intelligence (AI) and machine learning systems becoming commonplace.

Democracy and Prebendalism in Nigeria

This book presents software engineering methods in the context of the intelligent systems. It discusses real-world

problems and exploratory research describing novel approaches and applications of software engineering, software design and algorithms. The book constitutes the refereed proceedings of the Software Engineering Methods in Intelligent Algorithms Section of the 8th Computer Science On-line Conference 2019 (CSOC 2019), held on-line in April 2019.
