Doing
Business 2020
is the 17th in
a series of
annual studies
investigating
the
regulations
that enhance
business
activity and
those that
constrain it. It
provides
quantitative

indicators
covering 12
areas of the
business
environment
in 190
economies.
The goal of
the Doing
Business
series is to
provide
objective data
for use by
governments
in designing
sound
business
regulatory
policies and to
encourage
research on
the important
dimensions of
the regulatory
environment
for firms.

John Wiley & Sons
Discusses important tax policy issues facing developing countries today, provides a review of the role of tax incentives, and identifies some policy challenges posed by the globalization of the world economy. Draws on country cases.

Judicial Review Handbook
IDRC
This paper addresses core challenges that all tax administration

s face in dealing with noncompliance—which are now receiving renewed attention. Long a priority in developing countries, assuring strong compliance has acquired greater priority in countries facing intensified revenue needs, and is critical for fairness and statebuilding.

Series: Policy Papers
Customs Modernization Handbook
World Bank Publications
"The new

edition deals with domestic grounds of review, challenges under the Human Rights Act 1998 and the use of European Community law in judicial review. It: provides solutions to the most complex legal problems relating to judicial review; analyses both the theoretical foundations of the subject and its practice; supplies comprehensive guidance on what to do at every stage of

an action for judicial review; explains the impact of the latest case law and procedural developments ; sets judicial review in the context of the fast-changing administrative justice system (including 'proportionate dispute resolution', the new tribunal system, recourse to ombudsmen); and draws on relevant experience from other Commonwealth jurisdictions, especially Australia, Canada, India, New Zealand and South Africa."-- *The Global Information and Intelligence Strategy (GIIS)*. World Customs Organization Evaluation of the unique conditions that apply to developing nations and an examination of their impact on both the kinds of taxes that may be raised and the effective administration of tax policy. *Digital Revolutions in Public Finance* World Bank Publications

"Overview of property tax systems across Africa. Reviews of salient features for 29 countries and four regions (Anglophone, Francophone, Lusophone, North African countries). Chapters offer in-depth discussion of key policy issues (tax base, exemptions and other relief, and tax rate), administrative issues (valuation and assessment, billing, collection, enforcement), and the future

of the property tax in Africa"-- Provided by publisher. Kenya OECD Publishing This fully revised edition of a bestseller presents the law and practice of judicial review deconstructed and represented in a unique format. It provides rapid access to vital sources of authority and case synopses, providing an essential guide to the huge volume of case law in this area. Fodor's

Southeast Asia, 1988 Baltimore, Md. : Johns Hopkins University Press 2011 Updated Reprint. Updated Annually. Kenya Starting Business (Incorporating) in....Guide *Judges on Trial* World Bank Publications This annual publication compiles comparable tax revenue and non-tax revenue statistics for 31 countries in Africa. The report extends the well-established methodology

on the classification of public revenues set out in the OECD Interpretative Guide to African countries, thereby enabling comparison of tax levels and tax structures not only across the continent, but also with the OECD, Latin America and the Caribbean, and Asia and the Pacific. **Kenya National Assembly Official Record (Hansard)** OECD Publishing

Trade integration contributes substantially to economic development and poverty alleviation. In recent years much progress was made to liberalize the trade regime, but customs procedures are often still complex, costly and non-transparent. This situation leads to misallocation of resources. 'Customs Modernization Handbook' provides an overview of the key elements of a successful customs modernization strategy and draws lessons from a number of successful customs reforms as well as from customs reform projects that have been undertaken by the World Bank. It describes a number of key import procedures, that have proved particularly troublesome for customs administration and traders, and provides practical guidelines to enhance their efficiency. The Handbook also reviews the appropriate legal framework for customs operations as well as strategies to combat corruption.

Kenya National Assembly Official Record (Hansard)
Fodor's "Originally developed to help staff, clients, and consultants prepare and implement operations supported by the Bank Group, this Handbook updates and

replaces the Environmental Guidelines issued in 1988 and reflects changes both in technology and in pollution management policies and practices. It focuses attention on the environmental and economic benefits of preventing pollution and emphasizes cleaner production and good management techniques."--
BOOK JACKET.
Indian Trade Journal UN-HABITAT Digitization promises to

reshape fiscal policy by transforming how governments collect, process, share, and act on information. More and higher-quality information can improve not only policy design for tax and spending, but also systems for their management, including tax administration and compliance, delivery of public services, administration of social programs, public

financial management, and more. Countries must chart their own paths to effectively balance the potential benefits against the risks and challenges, including institutional and capacity constraints, privacy concerns, and new avenues for fraud and evasion. Support for this book and the conference on which it is based was provided by the Bill and Melinda Gates

 fiscal devices (EFDs) in their effective if they are a other
 quest to combat noncompliance, particularly comprehensive compliance
 as regards sales and the value-added tax (VAT) payable on sales. The introduction of EFDs typically identifies risks for the different segments of taxpayers and

envisages measures to mitigate these risks. EFDs should not be construed as the "silver bullet" for improving tax compliance: as with any other technological improvement the deployment of fiscal devices alone cannot achieve meaningful results, whether in terms of revenue gains or permanent compliance improvements .
Procurement of Works
 Lulu.com
 Raises

questions about information and communication technologies (ICT) and their implementation in four East African countries, with

particular focus on Kenya. Covers the respective roles of the public and private sectors, the applications of ICT in

government, education, and in various economic sectors. Concludes with recommendations for responsible policy making.
