Indian Poetry Taylor & Francis
 Ishtyle follows queer South Asian men across borders into gay neighborhoods, nightclubs, bars, and house parties in Bangalore and Chicago. Bringing the cultural practices they are most familiar with into these spaces, these men accent the aesthetics of nightlife cultures through performance. Kareem Khubchandani develops the notion of "ishtyle" to name this accented style, while also showing how brown bodies inadvertently become accents themselves, ornamental inclusions in the racialized grammar of desire. Ishtyle allows us to reimagine a global class perpetually represented as docile and desexualized workers caught in the web of global capitalism. The book highlights a different kind of labor, the embodied work these men do to feel queer and sexy together. Engaging major themes in queer studies, Khubchandani explains how his interlocutors' performances stage relationships between: colonial law and public sexuality; film divas and queer fans; and race, caste, and

desire. Ultimately, the book demonstrates that the unlikely site of nightlife can be a productive venue for the study of global politics and its institutional hierarchies.

Authors Terry E. Miller and Andrew Shahriari take students around the world to experience the diversity of musical expression. World Music: A Global Journey, now in its third edition, is known for its breadth in surveying the world's major cultures in a systematic study of world music within a strong pedagogical framework. As one prepares for any travel, each chapter starts with background preparation, reviewing the historical, cultural, and musical overview of the region. Visits to multiple 'sites' within a region provide in-depth studies of varied musical traditions. Music analysis begins with an experimental "first impression" of the music, followed by an "aural analysis" of the sound and prominent musical elements. Finally, students are invited to consider the cultural connections that give the music its meaning and life. Features of the Third Edition Over 3 hours of diverse musical examples. with a third audio CD of new musical examples Listening Guides analyze the various pieces of music with some presented in an interactive format online Biographical

"I too have a dream", says V.S. Narasimhan, author of this book. Someday the sound of St. Thyagaraja's compositions should be heard in places like Carnegie Hall! It is my desire and vision that cello should become a prominent instrument of Carnatic music both as solo and accompanying instrument just as the violin is. The grandeur of the tone of a cello in Carnatic music is something I hear in my head. Similarly bass players could incorporate Carnatic music ornamentation techniques. Viola should also become a featured component of Carnatic music as a solo and as accompaniment. If these instruments which cover a wide range of frequencies get into the hands of skillful artists, the result would be a novel symphonic style of arrangement that would gain a broader international audience and would be a transformative event bringing new dimensions to Carnatic music. What I hear in these tracks is the voice on the other side of the world, seemingly divergent yet at the same time oddly familiar, using the same classic instrumentation to provide yet another compelling new musical paradigm in the continuing evolution of the string quartet form. One can only wonder what Papa Haydn would have thought if somehow by a miracle of time travel he were to hear this music!...Grammy award winner, David Balakrishnan, Founder/Member of Turtle Island String Quartet: Together, the musicians of the Madras String Quartet played authentic, grace oriented Carnatic music, setting off its beauty against the harmonic richness of the Western classical idiom. It was beautiful.

Transliterated, Translated and Interpreted Routledge

Founded by the chieftain Kempe Gowda around 1537, the story of Bangalore has no grand linear narrative. The location has revealed different facets to settlers and passers-through. The city, the site of bloody battles between the British and Tipu Sultan, was once attached to the glittering court of Mysore. Later, it became a cantonment town where British troops were stationed. Over time, it morphed into a city of gardens and lakes, and the capital of PBI - Indian scientific research. More recently, it has been the hub of PBI - India's information technology boom, giving rise to Brand Bangalore, an PBI - Indian city whose name is recognized globally. Hidden beneath these layers lies a cosmopolitan city of sub-cultures, engaging artists and writers, young geeks and students. People from every corner of PBI - India and beyond now call it home. In this collection of writings about a multi-layered city, there are stories from its history, translations from Kannada literature, personal responses to the city's mindscape, portraits of special citizens, accounts of searches for lost communities and traditions, among much more. U.R. Ananthamurthy writes about Bangalore's Kannada identity; Shashi Deshpande maps the city through the places she has lived in since she was a young girl; Anita Nair draws a touching portrait of a florist who celebrates the glories of the Raj; Ramachandra

Guha describes his close bond with Bangalore's most unusual bookseller; and Rajmohan Gandhi recounts the Mahatma's trysts with the city. From traditional folk ballads to a nursery rhyme about Bangalore, from poems to blogs, from reproductions of turn of the twentieth century picture postcards to cartoons, Multiple City is the portrait of a metropolis trying to retain its roots as it hurtles into the future.

The Word in the World is a collection of essays and lectures by H S Shivaprakash, a well-known poet, playwright, and translator. Edited by Kamalakar Bhat, this book brings together Prof Shivaprakash's interventions in the realm of issues that are entwined with the continuities and discontinuities in the cultural negotiations of India. Distinctively, these are essays on subjects ranging from the nature and significance of medieval works of literature in India to issues arising out of developments in Indian aesthetics. The unfeigned magnitude of this work must be found among students and scholars, who will gain from it a perspective significantly different from the ones available in the prevailing academic discourses, thus indicating a way beyond

poststructuralist/postmodernist frameworks. This is a book that will interest a wide variety of readers with its engaging insights and breadth of reference especially because it is written in a comprehensible style. Print edition not for sale in South Asia (India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan) *Public Affairs* University of Michigan Press

A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. Modernizing Composition overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.

"This is the first book to tackle the diverse styles and multiple histories of popular music in India. It brings together fourteen of the field's leading scholars to contribute chapters on a range of topics, from the classic songs of Bollywood to contemporary remixes. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The contributors also address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances that shed light on the development of popular music throughout India. To illustrate each chapter author's points and to make available music otherwise not always easily accessible, the book features a companion website of audio and video tracks." --

This edited volume considers performance in its engagement with expanding Indian cities, with a particular focus on festivals and performances in Karnataka, Tamil Nadu and Kerala. The editors ask how performance practices are affected by urbanisation, the effects of such changes on their cultural economy, and the environmental impacts of performance itself. This project also considers how performance responds to its context, and the potential for performance to be critical of the city's development, and of its own compromises. Bringing together perspectives from the humanities, natural and social sciences, the book takes a multi-faceted analytical view of live performance, connecting contemporary with heritage forms, and human with more-than-human actors. The three sections, themed around heritage, everyday life, and future ecologies, will be of great interest to students and scholars in performance, heritage studies, ecology and art history.
