Welcome to the Adventure Zone SEE The illustrated exploits of three lovable dummies set loose in a classic fantasy adventure READ Their journey from small-time bodyguards to world-class artifact hunters MARVEL At the sheer metafictional chutzpah of a graphic novel based on a story created in a podcast where three dudes and their dad play a tabletop role playing game in real time Join Taako the elf wizard, Merle the dwarf cleric, and Magnus the human warrior for an adventure they are poorly equipped to handle AT BEST, guided ("guided") by their snarky DM, in a graphic novel that, like the smash-hit podcast it's based on, will tickle your funny bone, tug your heartstrings, and probably pants you if you give it half a chance. With endearingly off-kilter storytelling from master goofballs Clint McElroy and the McElroy brothers, and vivid, adorable art by Carey Pietsch, The Adventure Zone: Here There Be Gerblins is the comics equivalent of role-playing in your friend's basement at 2am, eating Cheetos and laughing your ass off as she rolls critical failure after critical failure.

A thoughtfully curated, cleverly designed keepsake that distills the wisdom of all those powerful graduation speakers—from Barack Obama and Gloria Steinem to Kermit the Frog—into the best advice for grads of all ages. *Carpe Every Diem* is a thought-provoking collection of quotes from famous graduation speakers meant to motivate and inspire the next generation of leaders. Paired by theme, many of the quotes complement one another. George Saunders, for example, riffs on the "failures of kindness" of his youth, encouraging grads to be kinder. Jimmy Buffett offers a simpler nugget of kind-spiration: "Be Santa Claus when you can." Other quotes, however, are paired with conflicting advice, giving graduates the opportunity to choose what to believe in. Some may respond to Neil Gaiman's "make good art" speech, while others may prefer John Waters's call to arms to horrify and outrage others with their art. Which of these affirmations will you choose? Each quote is accompanied by a short bio of the speaker and stamped with the year and institution where the commencement speech was delivered. With advice from the likes of Abby Wambach, Angela Davis, David Foster Wallace, Oprah Winfrey, Spike Lee, and more, readers will be swept away by the wit and wisdom contained in this book—perfect for graduates, creative thinkers, or anyone seeking inspiration.

I Know Why the Caged Bird Sings John Benjamins Publishing Company

"As is usually the case with most graduation tales, this account focuses on growing up. With greater intensity than ever before, the narrator of the story is confronted with the fact that she is black. A surprising twist to the graduation ceremony helps her see what that fact means to her."--Page 2.

Although Wasserstein calls herself a humanist, her works reflect a political rhetoric, if cloaked in humor, that she herself could not imagine to be anything but feminist. Shaped by literal, cultural, and materialistic feminist theory, Wasserstein illustrates the impact of the women's movement on the lives of her female characters. The five major works, with their near-sequel effect, let us see her characters' college years, mid-twenties, mid-thirties and middle age. Through the use of a newly devised critical context called fem-en(act)ment, or textual or performance drama that is guided by feminist disposition thematically and stylistically, the author here allows for a fresh reading of the Pulitzer Prize-winning playwright.

Citizenship in a Republic is the title of a speech given by Theodore Roosevelt, former President of the United States, at the Sorbonne in Paris, France, on April 23, 1910. One notable passage from the speech is referred to as "The Man in the Arena": It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better.

NATIONAL BESTSELLER Soon to be a major motion picture "Jon Swift + Witches of Eastwick + Kelly 'Get In Trouble' Link + Mean Girls + Creative Writing Degree Hell! No punches pulled, no hilarities dodged, no meme unmangled! O Bunny you are sooo genius!" —Margaret Atwood, via Twitter "A wild, audacious and ultimately unforgettable novel." —Michael Schaub, Los Angeles Times "Awad is a stone-cold genius." —Ann Bauer, The Washington Post The Vegetarian meets Heathers in this darkly funny, seductively strange novel from the acclaimed author of 13 Ways of Looking at a Fat Girl and Rouge "We were just these innocent girls in the night trying to make something beautiful. We nearly died. We very nearly did, didn't we?" Samantha Heather Mackey couldn't be more of an outsider in her small, highly selective MFA program at New England's Warren University. A scholarship student who prefers the company of her dark imagination to that of most people, she is utterly repelled by the rest of her fiction writing cohort--a clique of unbearably twee rich girls who call each other "Bunny," and seem to move and speak as one. But everything changes when Samantha receives an invitation to the Bunnies' fabled "Smut Salon," and finds herself inexplicably drawn to their front door--ditching her only friend, Ava, in the process. As Samantha plunges deeper and deeper into the Bunnies' sinister yet saccharine world, beginning to take part in the ritualistic off-campus "Workshop" where they conjure their monstrous creations, the edges of reality begin to blur. Soon, her friendships with Ava and the Bunnies will be brought into deadly collision. The spellbinding new novel from one of our most fearless chroniclers of the female experience, Bunny is a down-the-rabbit-hole tale of loneliness and belonging, friendship and desire, and the fantastic and terrible power of the imagination. Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

This four-volume set documents the complexity and richness of women's contributions to American history and culture, empowering all students by demonstrating a more populist approach to the past. Based on the content of most textbooks, it would be easy to reach the erroneous conclusion that women have not contributed much to America's history and development. Nothing could be further from the truth. Offering comprehensive coverage of women of a diverse range of cultures, classes, ethnicities, religions, and sexual identifications, this four-volume set identifies the many ways in which women have helped to shape and strengthen the United States. This encyclopedia is organized into four chronological volumes, with each volume further divided into three sections. Each section features an overview essay and thematic essay as well as detailed entries on topics ranging from Lady Gaga to Ladybird Johnson, Lucy Stone, and Lucille Ball, and from the International Ladies of Rhythm to the International Ladies Garment Workers Union. The set also includes a vast variety of primary documents, such as personal letters, public papers, newspaper articles, recipes, and more. These primary documents enhance users' learning opportunities and enable readers to better connect with the subject matter.

Following World War II the American government and philanthropic foundations fundamentally remade American universities into sites for producing knowledge about the world as a collection of distinct nation-states. As neoliberal reforms took hold in the 1980s, visions of the world made popular within area studies and international studies found themselves challenged by ideas and educational policies that originated in business schools and international financial institutions. Academics within these institutions reimagined the world instead as a single global market and higher education as a commodity to be bought and sold. By the 1990s, American universities embraced this language of globalization, and globalization eventually became the organizing logic of higher education. In *Making the World Global* Isaac A. Kamola examines how the relationships among universities, the American state, philanthropic organizations, and international financial institutions created the conditions that made it possible to imagine the world as global. Examining the Center for International Studies, Harvard Business School, the World Bank, the Social Science Research Council, and NYU, Kamola demonstrates that how we imagine the world is always symptomatic of the material relations within which knowledge is produced.

Emotion in Discourse

Interest in human emotion no longer equates to unscientific speculation. 21st-century humanities scholars are paying serious attention to our capacity to express emotions and giving rigorous explanations of affect in language. We are unquestionably witnessing an 'emotional turn' not only in linguistics, but also in other fields of scientific research. *Emotion in Discourse* follows from and reflects on this scholarly awakening to the world of emotion, and in particular, to its intricate relationship with human language. The book presents both the state of the art and the latest research in an effort to unravel the various workings of the expression of emotion in discourse. It takes an interdisciplinary approach, for emotion is a multifarious phenomenon whose functions in language are enlightened by such other disciplines as psychology, neurology, or communication studies. The volume shows not only how emotion manifests at different linguistic levels, but also how it relates to aspects like linguistic appraisal, emotional intelligence or humor, as well as covering its occurrence in various genres, including scientific discourse. As such, the book contributes to an emerging interdisciplinary field which could be labeled "emotionology", transcending previous linguistic work and providing an updated characterization of how emotion functions in human discourse.
