SARAH MILLICAN'S AUTOBIOGRAPHY
WILL MAKE YOU LAUGH, FEEL NORMAL
AND PROBABLY SNIFF YOUR LEGGINGS.
Part autobiography, part self help, part
confession, part celebration of being a
common-or-garden woman, part
collection of synonyms for nunny, Sarah
Millican's debut book delves into her
super normal life with daft stories, funny

tales and proper advice on how to get past life's blips - like being good at school but not good at friends, the excitement of IBS and how to blossom post divorce. If you've ever worn glasses at the age of six, worn an off-the-shoulder gown with no confidence, been contacted by an old school bully, lived in your childhood bedroom in your thirties, been gloriously dumped in a Frankie and Benny's, cried so much you felt great, been for a romantic walk with a dog, worn leggings two days in a row even though they smelt of wee from a distance, then this is YOUR BOOK. If you haven't done those things but wish you had, THIS IS YOUR BOOK. If you just want to laugh on a train/sofa/toilet or under your desk at work, THIS IS YOUR BOOK.

Championing Science shows scientists how to persuasively communicate complex scientific ideas to decision makers in government, industry, and education. This comprehensive guide provides real-world strategies to help scientists develop the essential communication, influence, and relationship-building skills needed to motivate nonexperts to understand and support their science. Instruction, interviews, and examples demonstrate how inspiring decision makers to act requires scientists to extract the essence of their work, craft clear messages, simplify visuals, bridge paradigm gaps, and tell compelling narratives. The authors bring these principles to life in the accounts of science champions such

as Robert Millikan, Vannevar Bush, scientists at Caltech and MIT, and others. With Championing Science, scientists will learn how to use these vital skills to make an impact.

How to be Champion John Wiley & Sons

As the Baltimore Ravens made their improbable march to victory in Super Bowl XLVII, they turned to their senior advisor of player development, O.J. Brigance, for inspiration each and every Sunday. Following a stellar twelve-year career as a linebacker, including a Super Bowl win with Baltimore in 2000, O.J. Juice Brigance joined the Ravens front office. But in 2007, O.J. was diagnosed with amyotrophic lateral sclerosis also known as Lou Gehrig's disease and told he had only three to five years to live. As a player, he'd

battled hundreds of injuries and setbacks. None of them prepared him to face ALS. With faith and determination in his heart and his wife, Chanda, praying by his side, O.J. fought back against the debilitating disease, even as ALS robbed him of the ability to walk and speak. He kept working, smiling, and touching his players lives all the way through their remarkable Super Bowl run more than five years after his diagnosis. Now, O.J. shares his incredible story, offering lessons in resilience and reflecting on the championship team that inspired him in turn. Along with his own journey, O.J. recounts the struggles and successes of Ravens players, including Ray Lewis, Joe Flacco, and Torrey Smith, as well as the strength of head coach John Harbaugh. Having watched their season from the

best seat in the house, O.J. highlights their perseverance, confidence, and leadership, and the best that sports can bring out in people. Full of profound revelations and never-before-told anecdotes, Strength of a Champion is a celebration of the human spirit from a man who left everything on the field. O.J. Brigrance never asked to be a hero. That's what makes his story so courageous.

Cindy Bentley: Spirit of a Champion celebrates the life of one of Wisconsin's most inspirational leaders and activists. Born with an intellectual disability as the result of fetal alcohol syndrome, Cindy Bentley spent much of her childhood at the Southern Wisconsin Center for the Developmentally Disabled. No one

expected her to learn the skills necessary to live on her own. To everyone's surprise, including her own, she did that and much more. With the encouragement of a teacher at Southern Center, Cindy realized she had a deep passion for sports, and the discipline to train and compete. She began participating in Special Olympics, and gained confidence as she worked with teammates to earn medals in tennis, track and field, and even snowshoeing. Chosen as a Global Messenger for the Special Olympics International in 2000, Cindy has had dinner at the White House with two different American presidents, traveled around the world, and given speeches in front of thousands of people. TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded

in advice from effective classrooms nationwide, enhanced with more than 40 video clips, *Reading Reconsidered* takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of *Reading Reconsidered* reinforces these principles,

coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. *Reading Reconsidered* breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. *Reading Reconsidered* provides the framework necessary for

teachers to ensure that students forge futures as lifelong readers.
