AN INDIE NEXT PICK! From
the #1 bestselling author
in Japan comes a

celebration of books, cats,
and the people who love
them, infused with the
heartwarming spirit of The
Guest Cat and The
Travelling Cat Chronicles.
Bookish high school
student Rintaro Natsuki is
about to close the
secondhand bookstore he
inherited from his beloved
bookworm grandfather.
Then, a talking cat

appears with an unusual
request. The feline asks
for—or rather,
demands—the teenager’s
help in saving books with
him. The world is full of
lonely books left unread
and unloved, and the cat
and Rintaro must liberate
them from their neglectful
owners. Their mission
sends this odd couple on
an amazing journey,

where they enter different mazes to set books free. Through their travels, the cat and Rintaro meet a man who leaves his books to perish on a bookshelf, an unwitting book torturer who cuts the pages of books into snippets to help people speed read, and a publishing drone who only wants to create bestsellers. Their adventures culminate in one final, unforgettable challenge—the last maze that awaits leads Rintaro down a realm only the bravest dare enter . . . An enthralling tale of books,

first love, fantasy, and an unusual friendship with a talking cat, *The Cat Who Saved Books* is a story for those for whom books are so much more than words on paper. Translated from the Japanese by Louise Heal Kawai. "Cats, books, young love, and adventure: catnip for a variety of readers!"

Open Road Media
Epic in scope, intimate in detail, heartbreaking in its human drama, Former People is the first book to recount the history of the nobility caught up the maelstrom of the Bolshevik Revolution and the creation of Stalin's Russia. It is a book filled with chilling tales of looted palaces, burning estates, of desperate

flights in the night from marauding bands of thugs and Red Army soldiers, of imprisonment, exile, and execution. It is the story of how a centuries'-old elite famous for its glittering wealth, its service to the empire, its promotion of the arts and culture, was dispossessed and destroyed along with the rest of old Russia. Drawing on the private archives of two great families - the Sheremetovs and the Golitsyns - it is also a story of survival and accommodation, of how

many of the tsarist ruling class, so-called 'former people', managed to find a place for themselves and their families in the hostile world of the Soviet Union. It reveals, too, how even at the darkest depths of the terror, daily life went on - men and women fell in love, children were born, friends gathered. Ultimately, Former People is a testament to the resilience of the human spirit.

Sphingolipids are

fundamental to the structures of cell membranes, lipoproteins, and the stratum cornea of the skin. Many complex sphingolipids, as well as simpler sphingoid bases and derivatives, are highly bioactive as extra- and intracellular regulators of growth, differentiation, migration, survival, senescence, and numerous cellular responses to stress. This book reviews exciting new developments in sphingolipid biology/sphingolipidology that challenge our

understanding of how multicellular organisms grow, develop, function, age, and die.

Pachinko, a game played by over 30 million Japanese, is synonymous with glaring lights, mind-rattling noise and smoke-choked parlors. To the uninitiated, the game's phenomenal popularity is nothing less than an enigma. The unofficial truth is that pachinko is one of Japan's biggest forms of gambling. For

non-Japanese, the hush surrounding this money-making aspect has contributed to misunderstandings about the game. Now, with *Winning Pachinko* Eric Sedensky opens parlor doors to the English-speaking world and guides readers through the essentials of play - where to buy balls, how to select a machine, and most importantly, how and where to claim one's booty of cool cash. A glossary of pachinko terms, useful diagrams, and photographs

accompany the text.

The archetype of the war correspondent is freighted with an outsize heroic mythos to which world-

renowned conflict photographer Stanley Greene is no stranger. *Black Passport* is his autobiographical monograph-cum-scrapbook, and it transports the viewer behind the news as Greene reflects upon his career, oscillating between the relative safety of life in the West and the traumas of wars abroad. This glimpse of the polarities that have comprised Greene's life raises essential questions about the role of the photojournalist, as well as

concerns about its repercussions: what motivates someone to willingly confront death and misery? To do work that risks one's life? Is it political engagement, or a sense of commitment to telling difficult stories? Or does being a war photographer simply satisfy a yearning for adventure? *Black Passport* offers an experience that is both exceptionally personal and ostensibly objective. Built around Greene's narrating monologue, the book's 26 short, nonsequential

"scenes" are each illustrated by a portfolio of his work.

This volume brings together, from a wide range of experience, such information as may be useful in recognizing,

avoiding, controlling, designing for, and correcting movement. Current geologic concepts and engineering principles and techniques are introduced, and both the analysis and control of soil and rock-slopes are addressed. New methods of stability analysis and the use of computer techniques in implementing these methods are included. Rock slope engineering and the selecting of shear-strength parameters for slope-stability analyses are

covered in separate chapters. Presentation Zen Simon and Schuster Even in a country where outstanding achievements have become almost a commonplace, the Japanese architect, Kisho Kurokawa, appears as both a remarkable and a remarkably successful man. With buildings in the United States and Eastern and Western Europe as well as in Japan, he has established an international reputation as a leading figure amongst the younger

generation of architects. At the age of forty he already had thirty-five major buildings and seventeen books to his credit; four new towns are being built to his designs; he heads a company of over a hundred employees, he runs a think-tank and an urban design bureau and for variety he has his own television programme with a regular audience of some 30 million. Behind these statistics lies a prodigious vitality expressed in original and stimulating buildings. --

What does it mean to
"meditate with the body"?
Until you answer this
question, explains Reggie
Ray, meditation may be
no more than a mental
gymnastic—something
you can practice for years
without fruitful results. In
Touching Enlightenment,
the esteemed author of
five books about Buddhist
history and practice
guides you back to the

original practice of the
Buddha: a systematic
process that results in a
profound awareness in
your body rather than in
your head. Combining the
scholarship that has
earned him international
renown with original
insights from nearly four
decades practicing and
teaching meditation,
Reggie Ray invites you to

In the sequel to her bestselling *Writing Down the Bones*, Natalie Goldberg advises readers on how to capture the flashes of inspiration of a writer's life, and turn this "thunder and lightning" into a polished final piece. Any writer may find himself or herself with an abundance of raw material, but it

takes patience and care to turn this material into finished stories, essays, poems, novels, and memoirs. Referencing her own experiences both as a writer and as a student of Zen, Natalie provides insight into the struggles and demands of turning ideas into concrete form. Her guidance addresses ways to overcome writer's block, deal with the fear of criticism and rejection, get the most from working with an editor, and improve one's writing by reading accomplished

authors. She communicates this with her characteristic humor and compassion, and a deep respect for writing as an act of celebration. This ebook features an illustrated biography of Natalie Goldberg, including rare photos and never-before-seen documents from the author's personal collection. **Sabaki Method** HarperCollins Celebrating Daido Moriyama's 2019 Hasselblad Award in a

concise overview, with testimonies from his many collaborators and admirers. With its generous image flow, this book celebrates Japanese photographer Daido Moriyama (born 1938) as the 2019 Hasselblad Award winner and his highly influential, lifelong, radical and authentic approach to photography. A Diary draws on his daily photographic expeditions, resulting in a body of work charged with fragments, repetitions, chance and chaos. His production of images is enormous, and

whereas some photographs have become iconic and reappear in numerous books and exhibitions, it is always possible to encounter more unknown works. In order to exemplify the long-term and wide-range impact of Daido Moriyama's photography, this publication not only presents an overview and analysis of his work by Sandra Phillips, but it also includes shorter personal notes from people who have encountered and worked with him over the

years, such as Simon Baker, Mark Holborn, Hervé Chandès, Nick Rhodes and Ishiuchi Miyako.

This process has

expanded to an extent where any discussion of Japanese photography now has to include the book work. Today, the most famous works such as Nobuyoshi Araki's *Sentimental Journey* and Eikoh Hosoe's *Man and Woman* continue to inspire artists internationally. Japanese Photobooks of the 1960s and 70s presents forty definitive publications from the era, piecing together an otherwise invisible history that has played out in tandem with photography as a medium. Included are

some of the most influential works along with forgotten gems, placed within a larger historical and sociological context. Each book, beautifully reproduced

through numerous spreads, is accompanied by an in-depth explanatory text and sidebars highlighting important editors,

designers, themes, and periodicals. Lavishly produced, this unique publication is an ode to the distinct character and influence of the Japanese photobook.
