McGraw-Hill Education

Survey of Accounting, 3rd edition, is designed to cover both financial and managerial accounting in a single 16-week course, presenting the material in a style easy for non-accounting majors to grasp. It incorporates the same pedagogical innovations that have made Edmonds' financial and managerial titles such fast-growing successes in the marketplace, including his unique Horizontal Financial Statements Model and a multiple accounting cycle approach that demonstrates the impact of related events over a series of accounting cycles.

*Financial Accounting* McGraw-Hill/Irwin Solid content and the newest technology combine to create the most comprehensive real-world accounting program available! You receive cutting-edge experience in business accounting through Glencoe's partnerships with the American Institute of Certified Public Accounting (AICPA), Peachtree Accounting Software, and Robert Half International. This completely revised accounting program gives students the latest content and introduces the most exciting technology - all designed to connect accounting to the real world of business. Students will be introduced to the real world of accounting software through the integration of Peachtree throughout the text as an essential part of this program. Software tutorial directions are included at the point of

instruction for each application.

**Global Edition** McGraw-Hill Education Financial Accounting and Reporting: An International Approach is an adaptation of McGraw-Hill Australia's bestselling financial accounting text Australian Financial Accounting by Craig Deegan, authored by Anne Marie Ward of Ulster University. Set within an international context, with a solid grounding in IAS/IFRS, the book provides students with a detailed grasp of reporting requirements in an accessible and engaging manner. Up to date throughout and complete in theoretical and practical coverage, the book successfully communicates the detail necessary to understand, challenge and critically evaluate financial reporting. The result gives students a strong foundation for current study and their future professional lives. *Alternate Exercises and Problems for Use with Intermediate Accounting, Third Edition* McGraw-Hill Education Managerial Accounting for Managers, 4th edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution (no debits/credits). Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is

the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting--planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills--such as basic formulas and formatting--within the context of accounting. These questions feature

animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.

Intermediate Accounting for Managers  
Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average

intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

The approach used by Hoyle, Schaefer, and Douppnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the

future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

**Accounting Information Systems** McGraw-Hill/Irwin

Management Control Systems helps students to develop the insight and analytical skills required of today's managers. Students uncover how real-

world managers design, implement, and use planning and control systems to implement business strategies. The 12th edition builds on the strengths of prior editions by offering a rich diversity of cases balanced with current content and research.

Whitecotton, Managerial Accounting 2e and Connect Plus present an integrated and proven solutions designed to help attain course goals of student readiness and motivation, comprehension of content, and application of key concepts. Whitecotton, Managerial Accounting 2e addresses the reality of students taking the managerial accounting course: the majority of them will not become accounting majors and accountants; instead they will use accounting information in their professional lives to make business decisions. Therefore, the greatest challenges instructors have are to engage these students in the managerial accounting course, keep the students motivated throughout the course, and teach them accounting in a way that connects conceptual understanding to the real world, so

students will be able to analyze and apply their managerial accounting knowledge successfully in careers as managers in the world of business. Whitecotton 2e will engage and motivate students by presenting accounting in the context of real, recognizable companies like Apple, Starbucks, and California Pizza Kitchen, then integrate those companies throughout the chapters. This will allow students to see accounting information being used to make real business decisions in companies that are part of their lives, helping them connect their learning to the real world. McGraw-Hill Connect Accounting Plus provides a complete digital solution with a robust online learning and homework management system, an integrated media-rich eBook, assignable end-of-chapter material, algorithmic functionality, and reporting capabilities. Contained within Connect Accounting is McGraw-Hill's adaptive learning system, LearnSmart, which is designed to help students learn faster, study more efficiently, and retain more knowledge for greater success. In addition, Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises.
