Roger and Carolyn Perron purchased the home of their dreams and eventual nightmares in December of 1970. The Arnold Estate, located just beyond the village of Harrisville, Rhode Island seemed the idyllic setting in which to raise a family. The couple unwittingly moved their five young daughters into the ancient and mysterious farmhouse. Secrets were kept and then revealed within a space shared by mortal and immortal alike. Time suddenly became irrelevant; fractured by spirits making their presence known then dispersing into the ether. The house is a portal to the past and a passage to the future. This is a sacred story of spiritual enlightenment, told some thirty years hence. The family is now somewhat less reticent to divulge a closely-guarded experience. Their odyssey is chronicled by the eldest sibling and is an unabridged account of a supernatural excursion. Ed and Lorraine Warren investigated this haunting in a futile attempt to intervene on their behalf. They consider the Perron family saga to be one of the most compelling and significant of a famously ghost-storied career as paranormal researchers. During a seance gone horribly wrong, they unleashed an unholy hostess; the spirit called Bathsheba; a God-forsaken soul. Perceiving herself to be the mistress of the house, she did not appreciate the competition. Carolyn had long been under siege; overt threats issued in the form of firea mother's greatest fear. It transformed the woman in unimaginable ways. After nearly a decade the family left a once beloved home behind though it will never leave them, as each remains haunted by a memory. This tale is an inspiring testament to the resilience of the human spirit on a pathway of discovery: an eternal journey for the living and the dead.

 PULITZER PRIZE FINALIST • A "provocative and deeply reported look into the emerging field of deradicalization" (Esquire), told through the stories of former militants and the people working to bring them back into society What are the roots of radicalism? Journalist Carla Power came to this question well before the January 6, 2021, attack in Washington, D.C., turned our country's attention to the problem of domestic radicalization. Her entry point was a different wave of radical panic—the way populists and pundits encouraged us to see the young people who joined ISIS or other terrorist organizations as simple monsters. Power wanted to chip away at the stereotypes by focusing not on what these young people had done but why: What drew them into militancy? What visions of the world—of home, of land, of security for themselves and the people they loved—shifted their thinking toward radical beliefs? And what visions of the world might bring them back to society? Power begins her journey by talking to the mothers of young men who'd joined ISIS in the UK and Canada; from there, she travels around the world in search of societies that are finding new and innovative ways to rehabilitate former extremists. We meet an American judge who has staked his career on finding new ways to handle terrorist suspects, a Pakistani woman running a game-changing school for former child soldiers, a radicalized Somali American who learns through literature to see beyond his Manichean beliefs, and a former neo-Nazi who now helps disarm white supremacists. Along the

way Power gleans lessons that get her closer to answering the true question at the heart of her pursuit: Can we find a way to live together? An eye-opening, page-turning investigation, Home, Land, Security speaks to the rise of division and radicalization in all forms, both at home and abroad. In this richly reported and deeply human account, Carla Power offers new ways to overcome the rising tides of extremism, one human at a time.

This two-volume open-access book offers a theoretically and empirically-grounded portrayal of the experiences of people claiming international protection in Europe on the basis of their sexual orientation or gender identity (SOGI). It shows how European asylum systems might and should treat asylum claims based on people's SOGI in a fairer, more humane way. Through a combined comparative, interdisciplinary (socio-legal), human rights, feminist, queer and intersectional approach, this book examines not only the legal experiences of people claiming asylum on grounds of their SOGI, but also their social experiences outside the asylum decision-making framework. The authors analyse how SOGI-related claims are adjudicated in different European frameworks (European Union, Council of Europe, Germany, Italy and UK) and offer detailed recommendations to adequately address the intersectional experiences of individuals seeking asylum. This unique approach ensures that the book is of interest not only to researchers in migration and refugee studies, law and wider academic communities, but also to policy makers and practitioners in the field of SOGI asylum.

NATIONAL BESTSELLER • A coming-of-age classic about a young girl growing up in Chicago • Acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. "Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one." —The New York Times Book Review *The House on Mango Street* is one of the most cherished novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. "In English my name means hope," she says. "In Spanish it means too many letters. It means sadness, it means waiting." Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros's masterpiece is a classic story of childhood and self-discovery and one of the greatest neighborhood novels of all time. Like Sinclair Lewis's *Main Street* or Toni Morrison's *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct. This gorgeous coming-of-age novel is a celebration of the power of telling one's story and of being proud of where you're from.

In a much-publicized and much-maligned 2003 New York Times article, The Opt-Out Revolution, the journalist Lisa Belkin made the controversial argument that highly educated women who enter the

workplace tend to leave upon marrying and having children. Women Who Opt Out is a collection of original essays by the leading scholars in the field of work and family research, which takes a multi-disciplinary approach in questioning the basic thesis of the opt-out revolution. The contributors illustrate that the desire to balance both work and family demands continues to be a point of unresolved concern for families and employers alike and women's equity within the workforce still falls behind. Ultimately, they persuasively make the case that most women who leave the workplace are being pushed out by a work environment that is hostile to women, hostile to children, and hostile to the demands of family caregiving, and that small changes in outdated workplace policies regarding scheduling, flexibility, telecommuting and mandatory overtime can lead to important benefits for workers and employers alike.

A fresh and brilliantly told memoir from a cult favorite comic artist, marked by gothic twists, a family funeral home, sexual angst, and great books. This breakout book by Alison Bechdel is a darkly funny family tale, pitch-perfectly illustrated with Bechdel's sweetly gothic drawings. Like Marjane Satrapi's Persepolis, it's a story exhilaratingly suited to graphic memoir form. Meet Alison's father, a historic preservation expert and obsessive restorer of the family's Victorian home, a third-generation funeral home director, a high school English teacher, an icily distant parent, and a closeted homosexual who, as it turns out, is involved with his male students and a family babysitter. Through narrative that is alternately heartbreaking and fiercely funny, we are drawn into a daughter's complex yearning for her father. And yet, apart from assigned stints dusting caskets at the family-owned "fun home," as Alison and her brothers call it, the relationship achieves its most intimate expression through the shared code of books. When Alison comes out as homosexual herself in late adolescence, the denouement is swift, graphic -- and redemptive.
