At the height of the blues revival, Marina Bokelman and David Evans, young graduate students from California, made two trips to Louisiana and Mississippi and short trips in their home state to do fieldwork for their studies at UCLA. While there, they made recordings and interviews and took extensive field notes and photographs of blues musicians and their families. *Going Up the Country: Adventures in Blues Fieldwork in the 1960s* presents their experiences in vivid detail through the field notes, the photographs, and the retrospective views of these two passionate researchers. The book includes historical material as well as contemporary reflections by Bokelman and Evans on the times and the people they met during their southern journeys. Their notes and photographs take the reader into the midst of memorable encounters with many obscure but no less important musicians, as well as blues legends, including Robert Pete Williams, Mississippi Fred McDowell, Al Wilson (cofounder of

Canned Heat), Babe Stovall, Reverend Ruben Lacy, and Jack Owens. This volume is not only an adventure story, but also a scholarly discussion of fieldwork in folklore and ethnomusicology. Including retrospective context and commentary, the field note chapters describe searches for musicians, recording situations, social and family dynamics of musicians, and race relations and the racial environment, as well as the practical, ethical, and logistical problems of doing fieldwork. The book features over one hundred documentary photographs that depict the field recording sessions and the activities, lives, and living conditions of the artists and their families. These photographs serve as a visual counterpart equivalent to the field notes. The remaining chapters explain the authors' methodology, planning, and motivations, as well as their personal backgrounds prior to going into the field, their careers afterwards, and their thoughts about fieldwork and folklore research in general. In this enlightening book, Bokelman and Evans provide an exciting and honest portrayal of blues field research in the 1960s.

A well-meaning group of gifted friends, a wily investor, and a vain business mogul find humorous and bizarre challenges in the

unique environment of Portland, Oregon, and the Northwest. Local self-help culture collides with the demeaning manipulations of local politics and business, when a homeless teen center begins to turn into a "stocking pen" for breeders at a Northwest polygamous cult. A manipulative, sleep-deprived tyrant attempts to change his ways through New Age therapy and seeks to immortalize himself by commissioning a self-aggrandizing opera. Russell Sherman has been hailed as "that rarest of performers--a thinking man's virtuoso" (Chicago Tribune), and Piano Pieces is his scintillating excursion into the world of piano and its multiple spheres of affect and influence. From pithy reflections on tone, technique, and the thorny matter of thumbs to ruminations on how such a machine could be the voice and repository of priceless human messages both lyrical and complex, Piano Pieces examines the current status of music, piano-playing, and pedagogy through the noisy filter of contemporary culture.

The first comprehensive biography of an extraordinary English poet and composer whose life was haunted by fighting in the First World War and, later, confinement in a mental asylum Ivor Gurney (1890-1937) wrote some of the most anthologized poems of the First World War and composed some of the greatest works in the English song repertoire, such as "Sleep." Yet his life was shadowed by the trauma of the war and mental illness, and he spent his last fifteen years confined to a mental asylum. In *Dweller in Shadows*, Kate Kennedy presents the first comprehensive biography of this extraordinary and misunderstood artist. A promising student at the Royal College of Music, Gurney enlisted as a private with the Gloucestershire regiment in 1915 and spent two years in the trenches of the Western Front. Wounded in the arm and subsequently gassed during the Battle of Passchendaele, Gurney was recovering in hospital when his first collection of poems, *Severn and Somme*, was published. Despite episodes of depression, he resumed his

music studies after the war until he was committed to an asylum in 1922. At times believing he was Shakespeare and that the "machines under the floor" were torturing him, he nevertheless continued to write and compose, leaving behind a vast body of unpublished work when he died of tuberculosis. Drawing on extensive archival research and spanning literary criticism, history, psychiatry and musicology, this compelling narrative sets Gurney's life and work against the backdrop of the war and his institutionalisation, probing the links between madness, suffering and creativity. Facing death in the trenches, Gurney hoped that history might not "forget me quite." This definitive account of his life and work helps ensure that he will indeed be remembered.

Prince's scandalous night with the innocent Talos Kalliakis, the youngest Prince of Agon, has found the perfect gift for King Astraeus's jubilee gala--the talents of exquisite violinist Amalie Cartwright. The warrior prince crossed Europe to find his perfect candidate, and he won't take no for an answer! But rumor has it that Amalie won't perform, and now Talos has her hidden away in his villa, where sources suggest he's claimed the most private of performances. With tensions running high, surely it can't be long before they start changing their tune...to the royal wedding march!

Brian Dolan's social and cultural history of the music business in relation to the history of the player piano is a critical chapter in the story of contemporary life. The player piano made the American music industry--and American music itself--modern. For years, Tin Pan Alley composers and performers labored over scores for quick ditties destined for the vaudeville circuit or librettos destined for the Broadway stage. But, the introduction of the player piano in the early 1900s, transformed Tin Pan Alley's guild of composers, performers, and theater owners into a music industry. The player piano, with its perforated music rolls that told the pianos what key to strike, changed musical performance because it made a musical piece standard, repeatable, and easy rather than something laboriously learned. It also created a national audience because the music that was played in New Orleans or Kansas City could also be played in New York or Missoula, as new music (ragtime) and dance (fox-trot) styles crisscrossed the continent along with the player piano's music rolls. By the 1920s, only automobile sales exceeded the amount generated by player pianos and their music rolls. Consigned today to the realm of collectors and technological arcane, the player piano was a moving force in American music and American life.

During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, "The South must not only fight her own battles but sing her own songs and dance to music composed by her own children." Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying

faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.
