A physical exam, also known as a "physical," is a routine test in which a medical professional looks, feels, or listens to various parts of a person's body. Different names for a physical incorporate a total actual test, a routine physical, and an examination. An actual assessment is a normal

test your essential consideration supplier (PCP) performs to really look at your general wellbeing. A physician, nurse practitioner, or physician assistant can all serve as a PCP. The exam is also referred to as a health check. Requesting an examination does not require being ill.
