Administrative Law Judge Decisions Report Thomas Telford

"The book describes those issues that a professional should expect to find in a comprehensive services agreement. It is the first to deal in detail with the particular risks that are inherent in non-standard agreements. It discusses the legal liabilities that might be imposed on the professional if those risks are accepted. Reference is made to some of the standard conditions produced by professional bodies. The scope of professional identity insurance is also covered."--BOOK JACKET.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides valuable practical insight into both public supervisory legislation concerning insurance and private insurance contract law in Mexico. An informative general introduction surveying the legal, political, financial, and commercial background and surroundings of insurance provides a sound foundation for the specific detail that follows. The book covers all essential aspects of the law and regulation governing insurance policies and instruments. Its detailed exposition includes examination of the form of the insurance company and its reserves and investments; the insurance contract; the legal aspects of the various branches of property and liability insurance; motor vehicle insurance schemes; life insurance, health insurance, and workmen's compensation schemes; reinsurance, co-insurance, and pooling; taxation of insurance; and risk management and prevention. Succinct yet eminently practical, the book will be a valuable resource for lawyers handling cases affecting Mexico. It will be of practical utility to those both in public service and private practice called on to develop and to apply the laws of insurance, and of special interest as a contribution to the much-needed harmonization of insurance law.
