*The Hubble Cosmos* University of Chicago Press  
 Collects over two hundred images from 125 years of photographs selected from the magazine's archives, with pictorial representations of Europe.

**The Complete National Geographic** National Geographic Books

For five generations, National Geographic magazine has dazzled and educated people with its incredible photographs, illustrations, and gripping stories from the four corners of the earth. Combining travel, wildlife, science, history, culture, and conservation, the National Geographic Society's trailblazing magazine has inspired millions of readers to explore and take an interest in the planet we inhabit. Now, in celebration of its 125th anniversary, National Geographic has given TASCHEN complete access to its archives to distill the journey of a lifetime into three prodigious volumes featuring photographs -- many unpublished -- almost as rich, deep, and colorful as the world itself. Our trans-continental trip starts in the Americas and Antarctica (Volume 1); we then cross the Atlantic to Europe and Africa (Volume 2); and finally sail the Indian Ocean to Asia and Oceania (Volume 3). From evocative early black-and-white pictures to autochromes, from the golden age of Kodachromes to digital, National Geographic invented the aesthetic of the photo essay, while pushing the technical boundaries of the medium. Readers will discover how the magazine evolved from presenting a romantic view of the world -- subjects posed and smiling -- to edgier stories reflecting political turmoil, social issues, and environmental threats. Of course, the journey would not be complete without prime examples of the magazine's revered groundbreaking underwater and wildlife photography, so we've included plenty of such treasures as well. This world class set is a cultural investment to be cherished, shared, and passed down to future generations."--Publisher's website

If you want a holiday that's hassle-free, virtually pre-paid, and that lets you see lots of places while only needing to pack and unpack once, then you should try a cruise. This best-selling book is the cruise industry bible: it gives you all the information you need to choose the right cruise for you. Meticulously updated every year by cruise expert Douglas Ward, it is divided into two main parts: the first helps you work out what you're looking for in a cruise holiday and how to find it; the lively text and colour photographs describe every aspect of life on board, including safety, the highs and lows of the cruise experience and how to save money. The second part contains unbiased reviews and fascinating detail of almost 300 ocean-going cruise vessels, and grades them on service, food, entertainment and facilities, using an internationally recognised ratings system.

Twelve inches by twelve inches by twelve inches, the cubic foot is a relatively tiny unit of measure compared to the whole world. With every step, we disturb and move through cubic foot after cubic foot. But behold the cubic foot in nature—from coral reefs to cloud forests to tidal pools—even in that finite space you can see the multitude of creatures that make up a vibrant ecosystem. For *A World in One Cubic Foot*, esteemed nature photographer David Liittschwager took a bright green metal cube—measuring precisely one cubic foot—and set it in various ecosystems around the world, from Costa Rica to Central Park. Working with local scientists, he measured what moved through that small space in a period of twenty-four hours. He then photographed the cube's setting and the plant, animal, and insect life inside it—anything visible to the naked eye. The result is a stunning

portrait of the amazing diversity that can be found in ecosystems around the globe. Many organisms captured in Liittschwager's photographs have rarely, if ever, been presented in their full splendor to the general reader, and the singular beauty of these images evocatively conveys the richness of life around us and the essential need for its conservation. The breathtaking images are accompanied by equally engaging essays that speak to both the landscapes and the worlds contained within them, from distinguished contributors such as Elizabeth Kolbert and Alan Huffman, in addition to an introduction by E. O. Wilson. After encountering this book, you will never look at the tiniest sliver of your own backyard or neighborhood park the same way; instead, you will be stunned by the unexpected variety of species found in an area so small. *A World in One Cubic Foot* puts the world accessibly in our hands and allows us to behold the magic of an ecosystem in miniature. Liittschwager's awe-inspiring photographs take us to places both familiar and exotic and instill new awareness of the life that abounds all around.

"Immensely talented... Christy's muscular, vivid writing and John le Carré-esque talent for thrusting us deep into unfamiliar territory ensure that what could lapse into cliché instead sounds fresh and exciting... Klay is a great, flawed hero, in the vein of the classic hard-drinking, hard-living, hard-loving loner."--New York Times Book Review In this intricate and propulsive thriller--from National Geographic's founder of Special Investigations--Tom Klay an investigative reporter leading a double life as a CIA spy, discovers that he has been weaponized in a global game of espionage pitting him against one of the world's most ruthless men. Tom Klay is a celebrated investigative wildlife reporter for the esteemed magazine *The Sovereign*. But Klay is not just a journalist. His reporting is cover for an even more dangerous job: CIA agent. Klay's press credentials make him a perfect spy--able to travel the globe, engage both politicians and warlords, and openly record what he sees. When he needs help, the Agency provides it to him, and asks little in return. But while on assignment in Kenya, Klay is attacked and his closest friend is murdered. Soon Klay's carefully constructed double life unravels as his ambition turns to revenge. The CIA has an answer. Klay is offered a devil's bargain to capture the man who killed his friend by infiltrating the offices of the woman he once loved, South Africa's special prosecutor, Hungry Khoza. But Klay soon discovers that he and Hungry are part of a larger, more lethal game--one that involves a ruthless mercenary and a global superpower. The deeper he digs, the more Klay realizes that everything he thought he knew about his work may have been a lie, and his sworn enemy may be his only ally. In this riveting, timely thriller, the lines between good and evil blur, and absolutely nothing is as it seems.

TWO BY MARK J. CURRAN ASU Days as well as The Guitars - A Music Odyssey are a return to the autobiographical. Book I ASU Days tells the story beginning with graduate study for the Ph.D in Spanish and Latin American Studies and the account of Mark's years at Arizona State University. It is comprised of memories of teaching and research days at ASU but also a description of campus life dating to 1968. Book II The Guitars - A Music Odyssey recounts the role of music in Mark's life from age 14 in 1955 to the present. The main characters are the guitars: a simple steel stringed Stella in 1955, an electric Kay and amplifier in high school, 1955 - 1959 and college days, a Brazilian Rosewood Classic from Rio de Janeiro in 1966 and a Manuel Rodríguez Classic from Madrid, electrified for performance, 2002. The study, learning, practice and the performing range from early pop and Rock n' Roll from Elvis Presley days, to serious home study of classic guitar, to the folk tunes of the 1960s, Classic Country and Western, Irish, "Oh Brother Where Art Thou" and Classic Guitar and Contemporary Catholic Songs for meditation at church. The final chapter is a work in process: practice and performance at home.

Imagine The Sopranos, with snakes! The Lizard King is a fascinating account of a father and son family business suspected of smuggling reptiles, and the federal agent who tried to take them down. When Bryan Christy began to investigate the world of reptile smuggling, he had no idea what he would be in for. In the course of his research, he was bitten between the eyes by a blood python, chased by a mother alligator, and sprayed by a bird-eating tarantula. But perhaps more dangerous was coming face to face with Michael J. Van Nostrand, owner of Strictly Reptiles, a thriving family business in Hollywood, Florida. Van Nostrand imports as many as 300,000 iguanas each year (over half the total of America's most popular imported reptile), as well as hundreds of thousands of

snakes, lizards, frogs, spiders, and scorpions. Van Nostrand was suspected of being a reptile smuggler by Special Agent Chip Bepler of the U.S. Fish and Wildlife Service, who devoted years of his life in an obsessive quest to expose The Lizard King's cold-blooded crimes. How this cat-and-mouse game ended is engrossing and surprising.

Examining the dynamics between subject, photographer and viewer, *Fashioning Brazil* analyses how Brazilians have appropriated and reinterpreted clothing influences from local and global cultures. Exploring the various ways in which Brazil has been fashioned by the pioneering scientific and educational magazine, *National Geographic*, the book encourages us to look beyond simplistic representations of exotic difference. Instead, it brings to light an extensive history of self-fashioning within Brazil, which has emerged through cross-cultural contact, slavery, and immigration. Providing an in-depth examination of Brazilian dress and fashion practices as represented by the quasi-ethnographic gaze of *National Geographic* and *National Geographic Brazil* (the Portuguese language edition of the magazine, established in 2000), the book unpacks a series of case studies. Taking us from body paint to Lycra, via loincloths and bikinis, Kutesko frames her analysis within the historical, cultural, and political context of Latin American interactions with the United States. Exploring how dress can be used to manipulate identity and disrupt expectations, *Fashioning Brazil* examines readers' sensory engagements with an iconic magazine, and sheds new light on key debates concerning global dress and fashion.
