### Where Do Monster's Live?

Publications International, Limited

Paint by Sticker Kids just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity

that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!

Move over, coloring books! Here's an entirely new craft that kids will love: Paint by Sticker Kids. Paint by Sticker Kids is the same compelling craft first introduced in Paint by Sticker, but just for kids! The book includes

everything you need to create 10 bright, playful, full-color illustrations—illustrated templates printed on perforated card stock, and 10 pages of stickers to fill in and create the artwork. The fun, vibrant images are rendered in “low-poly,” a computer graphics style using geometric polygon shapes to create a 3-D effect. As in paint-by-number, each template is divided into hundreds of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next and voila! It's a rocket ship blasting through space. A Tyrannosaurus rex prowling his domain. A pickup truck hauling its load. A friendly toucan hanging on his perch. Kids

will love watching these pictures come to life. Plus, each is suitable for framing or the fridge.

Paint by Sticker: Travel celebrates a time when elegant posters, in an Art Deco style, beckoned visitors to faraway romantic places—from Venice, with its canals and gondolas, to Cairo, gateway to the pyramids—all through the absorbing activity of painting by sticker. Paint by Sticker is a compelling new activity for crafters and artists, doodlers and coloring book enthusiasts of all ages. As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, place it. And then the next, and the next, and the next, until your “poster” comes to life. Paint by Sticker: Travel includes everything you need to create twelve vibrant, nostalgic travel posters—the stickers, the templates, the intuitive directions. The works include Moscow, home of St. Basil’s Cathedral and its candy-colored onion domes. India and the Taj Mahal, crown jewel in a world of fascinating

destinations. Bermuda. Monaco. Japan and its cherry blossoms and pagodas. Bon voyage!

Little Blue Truck Farm Sticker Fun! Workman Publishing

Paint by Sticker Kids is unstoppable! The series ships over a million copies a year, and the reasons are obvious: stickers, stickers, and more stickers, plus an activity that delivers hours of screen-free, mess-free fun. These days, rainbows are about as hot as stickers—Rainbows Everywhere! combines both for pages of brightly colored joy. Each image—a sweet cat, kites flying in the air, a unicorn, and, of course, a rainbow—is swathed in vibrant hues. The colorful images use low-poly art, a computer style that creates 3-D images out of polygon shapes. To “paint” a picture, just peel off the stickers and place them on the corresponding numbered spaces. The stickers are reusable, so kids can repeat the fun. The stickers are designed to be easy for little hands to handle. And no paint means no splatter, drips, or messy clean-up. Just stickers and fun.
