This is a print on demand edition of a hard to find publication. The fact that the outcome of the 2006 Hezbollah-Israeli War was, at best, a stalemate for Israel has confounded military analysts. Long considered the most professional and powerful army in the Middle East, with a history of impressive military victories against its enemies, the Israeli Defense Forces (IDF) emerged from the campaign with its enemies undefeated and its prestige tarnished. This historical analysis of the war includes an examination of IDF and Hezbollah doctrine prior to the war, as well as an overview of the operational and tactical problems encountered by the IDF during the war. The IDF ground forces were tactically unprepared and untrained to fight against a determined Hezbollah force. ¿An insightful, comprehensive examination of the war.¿ Illustrations. Discusses the Allied invasion of Normandy, with extensive details about the planning stage, called Operation Overlord, as well as the fighting on Utah and Omaha Beaches.

Encyclopedia of Italian Literary Studies Impr. impériale The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Histoire de la guerre de Navarre en 1276 et 1277 Taylor & Francis An Italian historian's prize-winning biography of the sixth-century Byzantine empress. Theodora of Byzantium rose from humble beginnings to become one of the most powerful women of the ancient world. As the wife of Emperor Justinian, she was more than a mere figurehead, acting as Justinian's partner in both

politics and life. Though she was ruthlessly criticized by her contemporaries, historian and biographer Paolo Cesaretti shows her to be an ambitious woman and brilliant ruler whose cunning saved the empire time and again. She defied the conventions of her time and triumphed over those who sought to defame and destroy her. This meticulously researched and richly detailed biography won Italy's prestigious Ginzano Cavour Prize. Mémoires de très-noble et très-illustre Gaspard de Saulx, seigneur de Tavannes ... DIANE Publishing Renaissance Mass Murder explores the devastating impact of war on the men and women of the Renaissance. In contrast to the picture of balance and harmony usually associated with the Renaissance, it uncovers in forensic detail a world in which sacks of Italian cities and massacres of civilians at the hands of French, German, Spanish, Swiss, and Italian troops were regular occurrences. The arguments presented are based on a wealth of evidence - histories and chronicles, poetry and paintings, sculpture and other objects - which together provide a new and startling history of sixteenth-century Italy and a social history of the Italian Wars. It outlines how massacres happened, how princes, soldiers, lawyers, and writers justified and explained such events, and how they were represented in contemporary culture. On this basis, Renaissance Mass Murder reconstructs the terrifying individual experiences of civilians in the face of war and in doing so offers a story of human tragedy which redresses the balance of the history of the Italian Wars, and of Renaissance warfare, in favour of the civilian and away from the din of battle. This volume also places mass murder in a broader historical context and challenges claims that such violence was unusual or in decline in early modern Europe. Finally, it shows that women often suffered disproportionately from this violence and that immunity for them, as for their children, was often partially developed or poorly respected.

Comment conquérir puis gouverner une dizaine de cités, des nobles par milliers et près d'un million de sujets ? En Lombardie, entre 1515 et 1530, François Ier, Francesco II Sforza et Charles Quint ont buté sur la même question. La réponse offrait un prix de taille : une terre riche et peuplée, à la croisée des chemins de la Méditerranée, des Alpes et des plaines du Nord. Si la guerre fut destructrice et indécise, c'est que les autochtones opposèrent aux conquérants des défis à la hauteur d'une culture politique millénaire. Plus le temps passe, plus la Lombardie apparaît comme une des pièces incontournables de la formation de l'Europe moderne, entre exercice de la souveraineté, de la fidélité

et de la médiation mais aussi expérience de la violence, de la servitude et de la résistance. Séverin Duc, agrégé et docteur en Histoire, est membre de l'École française de Rome et chercheur associé au Centre Roland Mousnier. Il obtenu, pour la thèse dont ce livre est issu, le prix Aguirre-Basualdo de la Chancellerie des Universités de Paris. Actuellement, il s'intéresse à l'histoire sociale et familiale des pouvoirs en France et en Italie.

Lombardy, with about 10 million inhabitants, is today the most populated and prosperous region of Italy, and Milan is a renowned capital of art, fashion and design. During the 19th century until WWI, the region gradually became the leader in Italy's economic development and distinguished itself in the European economic landscape for its long-standing industrial strength and diversified economy, which included one of the Europe's most productive agricultural systems. It was the economic locomotive of contemporary Italy, contributing to the economic Risorgimento that complemented the country's political resurgence. The present volume gathers the contributions of some major experts on the subject, providing an in-depth analysis of Lombardy's pattern of development, consisting of an exceptionally symbiotic and balanced interplay of sectors (agriculture, industry, trade, and banking) in a gradual yet steady growth process, also supported by progress in the education system. During the century, there was a shift away from an economy based on agriculture and commerce to a progressively more industrial economy and this process accelerated from the 1880s. The secret of this dynamic balance was Lombardy's active relationship with the rest of Europe and with the international markets. Aimed at scholars, researchers and students in the fields of early modern and modern history, economic and social history, the book provides a clear explanation of Lombardy's economic development during the long 19th Century.

European Military Rivalry, 1500-1750: Fierce Pageant examines more than 200 years of international rivalry across Western, Central, and Eastern Europe and the Mediterranean rim. The book charts the increasing scale, expenditure and duration of early modern wars; the impact of modern fortification on strategy and the movement of armies; the incidence of guerrilla war and localized conflict typical of the French wars of religion; the recourse by warlords to private financing of troops and supplies;

and the creation of disciplined standing armies and navies in the age of Absolutism, made possible by larger bureaucracies. In addition to discussing key events and personalities of military rivalry during this period, the book describes the operational mechanics of early modern warfare and the crucial role of taxation and state borrowing. The relationship between the Christian West and the Ottoman Empire is also extensively analysed. Drawing heavily upon international scholarship over the past half-century, *European Military Rivalry, 1500-1750: Fierce Pageant* will be of great use to undergraduate students studying military history and early modern Europe.

A scandalously talented stage performer, a practiced seductress of both men and women, and the flamboyant author of some of the greatest works of twentieth-century literature, Colette was our first true superstar. Now, in Judith Thurman's *Secrets of the Flesh*, Colette at last has a biography worthy of her dazzling reputation. Having spent her childhood in the shadow of an overpowering mother, Colette escaped at age twenty into a turbulent marriage with the sexy, unscrupulous Willy--a literary charlatan who took credit for her bestselling Claudine novels. Weary of Willy's sexual domination, Colette pursued an extremely public lesbian love affair with a niece of Napoleon's. At forty, she gave birth to a

daughter who bored her, at forty-seven she seduced her teenage stepson, and in her seventies she flirted with the Nazi occupiers of Paris, even though her beloved third husband, a Jew, had been arrested by the Gestapo. And all the while, this incomparable woman poured forth a torrent of masterpieces, including *Gigi*, *Sido*, *Chéri*, and *Break of Day*. Judith Thurman, author of the National Book Award-winning biography of Isak Dinesen, portrays Colette as a thoroughly modern woman: frank in her desires, fierce in her passions, forever reinventing herself. Rich with delicious gossip and intimate revelations, shimmering with grace and intelligence, *Secrets of the Flesh* is one of the great biographies of our time.
