In its pursuit to bring about an awakening among students of nursing about human social behavior, this second edition of Sociology for Nurses continues to build on sociological theories that are of relevance to the nursing community. Conforming to the syllabus prescribed by the Indian Nursing Council and catering to the needs of second year B. Sc Nursing students, this book provides jargon-free explanation of even the most difficult concepts to the student's benefit.

Elements of Research in Nursing Arihant Publications India limited

Communication and Educational Technology is precisely written as per the syllabus prescribed for the undergraduate nursing studies. It is useful as an introductory textbook for the postgraduate nursing students and can also be of help for the other health care professionals to understand the concepts of communication and teaching-learning pedagogy. The book is an excellent attempt towards introducing the readers to the basics of communication and educational technology in the education of nurses and other health care professionals. The content has been updated and enriched by including new topics such as the following: Definition, types, organization, development process and models, and determinants of curriculum Meaning, purposes and components of item analysis including item difficulty, discrimination index and effectiveness of destructors The clinical teaching methods such as nursing case study, nursing case presentation, nursing rounds, bedside nursing clinics, nursing assignments, nursing care conference, health care team conference, process recording and field visit are presented in more details. A number of working examples have been added to facilitate ease of learning. A total of 350 multiple choice questions have been included in this textbook: 150 MCQs are placed within the end-of-chapter exercises and 200 comprehensive MCQs are placed in Appendix B. These will be useful for the readers to prepare for qualifying the postgraduate and doctoral level nursing entrance exams and nursing faculty/teachers' recruitment exams. Every chapter has been provided with Learning Objectives and Key Terms in its beginning.

Nursing Foundation Jaypee Brothers Medical Publishers Pvt. Limited

Seventeen-year-old Hanna has been in love with Seth for as long as she can remember, but now that her feelings are requited and she and Seth are in an actual relationship, it feels like love just isn't enough. Seth is controlling and all they seem to do anymore is hurt each other. If that's what love is, Hanna doesn't want any part of it. Besides, she has something else on her mind: graduation. But she's been ignoring the school's community service requirement for years, and now she needs to clock in some hours in a hurry. She volunteers as a caretaker for the Schoenmakers, an elderly couple who live on a farm behind Hanna's house. Mrs. Schoenmaker has advanced Parkinson's, and

her husband can't always be there to watch over her. While caring for Mrs. Schoenmaker, Hanna gets drawn into an audiobook that the older woman is listening to, a love story of passion and sacrifice and shared hurts and complete devotion. She's fascinated by the idea that love like that can truly exist, and without her even realizing it, the story begins to change her. But what Hanna doesn't know is that the story she's listening to is not fiction -- and that Mrs. Schoenmaker and her husband's devotion to each other is about to reach its shattering, irrevocable conclusion...

Ross & Wilson Anatomy and Physiology in Health and Illness E-Book Elsevier Health Sciences
