This book examines the phenomenon of prime time soap operas on Indian television. An anthropological insight into social issues and practices of

contemporary India through the television, this volume analyzes the production of soaps within India's cultural fabric. It deconstructs themes and issues surrounding the "everyday" and the "middle class" through the fiction of the "popular". In its second edition, this still remains the only book to examine prime time soap operas on Indian television. Without in any way changing the central arguments of the first edition, it adds an essential introductory chapter tracking the tectonic shifts in the Indian "mediascape" over the past decade - including how the explosion of regional language channels and an era of multiple screens have changed soap viewing forever. Meticulously

researched and persuasively argued, the book traces how prime time soaps in India still grab the maximum eyeballs and remain the biggest earners for TV channels. The book will be of interest to students of anthropology and sociology, media and cultural studies, visual culture studies, gender and family studies, and also Asian studies in general. It is also an important resource for media producers, both in content production and television channels, as well as for the general reader.

Wiggerman's study of Mesopotamian monsters bridges the gap between text and image. Wooden and clay figures of monstrous spirits such as Hairy-One (lahmu), Bison-Bull (kusarikku),

and Furious-Snake (mushussu) stand guard at the entrances to buildings to protect the inhabitants from demonic intruders.

Deriving his information from the ritual texts that describe the production and installation of these figures, the author identifies the monsters of the texts with objects from the archaeological record and presents a detailed discussion of the identities and histories of a variety of Mesopotamian monsters.

The Origin and Development of Bhojpuri Concept

Publishing Company Life: A Conflict reflects the struggles faced by people. Every person has to struggle in one way or the other. Some

struggle to survive in the society whereas others struggle to survive within the family. People are living in different social orders, and they are bound to them. Most of the time, these struggles are not known to the world, or we all ignore it because we were not involved in it. We can think about the struggles that a person faces in his entire life, but what about animals? Animals too have to struggle to live their lives as people are becoming more and more self-centered, and they are not caring about their own families' feelings, let alone animals. This book also reflects the struggle that animals face and how they manage to live. It is a collection of untold

stories that show the reality of our society. My memories take me back into my past. I grew up traveling to various towns and studying there. I clearly recognized the differences in the multiple traits of people such as lifestyle, way of conversation, food habits, and even the patterns of abuse. When my memories didn't fade away with time, I decided to write them down and share them with the world. I believe that the readers of this book would have come across such events and memories. Thus, as a reader, you will be able to connect with the stories.

Most cultures have

myths of origin. The Babylonians were the first to combine blocks of traditions about primeval time into primeval histories where humans had a central role. In the first millennium there were different versions that influenced the concepts of primeval history within Jewish religion, both in the Bible and in the parallel Enochic tradition. Atrahasis and the traditions of primeval dynasties had crucial impact on Genesis; the traditions of the primeval apkallus as cosmic guardians were lying behind the Enochic Watcher Story. The book offers a comprehensive analytic comparison between the images of primeval time in these three traditions. It

presents new interpretations of each of these traditions and how they relate to each other.

The scholarly world first became aware of the myth of Adapa and the South Wind when it was discovered on a tablet from the El-Amarna archive in 1887. We now have at our disposal six fragments of the myth. The largest and most important fragment, from Amarna, is dated to the 14th century B.C.E. This fragment of the Adapa myth has red-tinted points applied on the tablet at specific intervals. Izre'el draws attention to a few of these points that were missed in previous publications by Knudtzon and Schroeder. Five other

fragments were part of the Assurbanipal library and are representative of this myth as it was known in Assyria about seven centuries later. The discovery of the myth of Adapa and the South Wind immediately attracted wide attention. Its ideology and its correspondence to the intellectual heritage of Western religions precipitated flourishing studies of this myth, both philological and substantive. Many translations have appeared during the past century, shedding light on various aspects of the myth and its characters. Izre'el unveils the myth of Adapa and the South Wind as mythos, as story. To do this, he analyzes the underlying concepts

through extensive treatment of form. He offers an edition of the extant fragments of the myth, including the transliterated Akkadian text, a translation, and a philological commentary. The analysis of poetic form that follows leads to understanding the myth as a piece of literature and to uncovering its meanings. This study therefore marks a new phase in the long, extensive research into this Mesopotamian myth.

It's December 1997

and a man-eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of

that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once great Siberian Tiger - the largest of its species, which can weigh over 600 lbs at more than 10 feet long - ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have worshipped and lived alongside tigers - even sharing their kills with them - in a natural balance. We witness the first arrival of settlers, soldiers and hunters in the tiger's territory in the 19th century and 20th

century, many fleeing Stalinism. And we come to know the Russians of today - such as the poacher Vladimir Markov - who, crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout we encounter surprising theories of how humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super-predator, and the grave threat it faces as logging and poaching

reduce its habitat and numbers - and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision, that leads inexorably to a final showdown in a clearing deep in the Siberian forest.

'A splendid work of art, *In Defence of the Ordinary* returns drama, pleasure and awakening to everyday life ... in the tradition of cultural critics like Ashis Nandy and Umberto Eco... The book is one of a kind.' - Prathama Banerjee is a noted historian of the global south and Professor at Centre for the Study of Developing Societies (CSDS), New Delhi. '[A] flâneur of our everyday

spheres of life, [the author] excavates the multiple layers of social, political and artistic thinking and experimentation ... with an unparalleled lightness of prose worthy of a Balthasar Gracián and Georg Lichtenberg.' -Ramin Jahanbegloo is a philosopher and Vice Dean and Director at Mahatma Gandhi Centre for Peace Studies, O.P. Jindal Global University, India. '[The] book builds an engaging web of thoughts about things which are ordinary but in their very ordinariness hide deep social truths... Dev Nath Pathak brings a lightness to his critical eye while reminding us of how much of the ordinary has been forgotten in academic pursuits.' -

Sundar Sarukkai is a renowned philosopher and thinker in contemporary India. In *Defence of the Ordinary* is laced with light humour, soaked in serious sarcasm and powered with poetic polemics. Informed by sources such as psychoanalysis, philosophy, yoga, anthropology, popular cinema, folk songs and everything that is part of an ordinary living, it is a sociologist's sincere ruminations on the layered ordinariness. The book invites us to rethink the ways of seeing, understanding, enacting, emoting and relating with provocative ideas like why we don't value ordinariness and how our pursuit of extraordinary is misleading us into

mishaps. The key objective of the human existence is that of the book too, namely, awakening the dormant potentials of emancipation every day rather than waiting for an occasional charisma induced by a holy book or a secular gimmick or an orchestrated leadership.

In this witty, acute and often painfully funny book Veena Venugopal follows eleven women through their marriages and explores why the mother-in-law is the dreaded figure she is. Meet Deepa, whose bikini-wearing mother-in-law won't let her even wear jeans; Carla whose mother-in-

law insists that her son keep all his stuff in his family home although he can spend the night at his wife's; Rachna who fell in love with her mother-in-law even before she met her fiance only to find both her romances sour; and Lalitha who finds that despite having had a hard-nut mother-in-law herself, she is turning out to be an equally unlikeable Mummyji. Full of incisive observations and deliciously wicked storytelling, The Mother-in-Law is a book that will make you laugh and cry and understand better the most important relationship in a married woman's life.
