If you've ever

wondered how to draw

mandalas, then this
fully illustrated guide is
just what you need.

Mandalas have
appeared in decorative
artworks and in
spiritual works for
thousands of years, but
they often seem

complex and difficult to draw oneself. Over the course of eight chapters, artist and teacher Hannah Geddes explains the origins of mandalas and then leads readers through the process of creating mandalas, including

- A guide to the materials and tools are needed
- Step-by-step instructions on how to draw the various components - from centers and middles to outer segments and borders
- How to make templates and create intricate patterns including a compass rose mandala, a half-moon mandala and an intriguing sinkhole mandala
- The incorporation of sacred geometry and patterns, and
- How to introduce color into the patterns

There are

beautiful projects to follow to practice your skills and lots of handy tips to help readers become expert mandala designers.

Magic Patterns Simon and Schuster

This book has been developed to make designing mandalas and circular patterns as simple as possible. No more marking out and measuring - and discovering too late that one or more of your measurements were wrong. With this book you will be ready to draw and doodle designs straight away for a truly relaxing drawing experience.

Each page contains a radial grid template with 64 "spokes" and concentric circles to use as guidelines while drawing. All lines are an unobtrusive grey - visible enough to aid your drawing but not so much that they are obvious on your final piece. Design your own colouring book and colour your designs when completed. Or doodle mandala ideas and trace over with ink. Mandalas are well known for their meditative inducing abilities in the colouring world.

Drawing them induces the same relaxing state focussing your attention on the design process and calming your mind. Great for beginner doodlers or those wanting to get back into drawing. The symmetrical nature of

these radial designs helps to develop your "artists eye", your drawing & recording ability - looking and seeing to repeat the design around the circle. Makes a perfect gift for doodlers or colouring enthusiasts.
