For control of insects, diseases & mites on vegetables, fruits, nuts, herbs, spices, roses, flowers & shrubs around the home

Can be used up to day of harvest

ACTIVE INGREDIENTS:
- Pyrethrins: 0.02%
- Piperonyl Butoxide, Technical: 0.20%
- Clarified Hydrophobic Extract of Neem Oil: 0.90%

OTHER INGREDIENTS: 98.88%

TOTAL: 100.00%

EPA Est No. 4-NY-1  EPA Reg. No. 70051-74-4

Keep Out Of Reach Of Children

CAUTION (See Back Panel for Additional Precautionary Statements)

Net Contents 32 FL. OZ. (946 ML.)
For use on fruits, vegetables, roses, flowers, shrubs and trees

Kills over 240 listed insects

Use indoors or outdoors

Contains Pyrethrins, derived from Chrysanthemum flowers
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS

SHAKE WELL BEFORE AND DURING USE.
This product is a multi-purpose insecticide/fungicide/miticide. Kills eggs, larval and adult stages of insects. Prevents fungal attack of plants' tissues. Not for use in food-handling areas. Do not apply to wilted or otherwise stressed plants, or to newly transplanted material prior to root establishment. When using in conjunction with beneficial insects, conduct a small trial to assure compatibility before using on a large scale. As with other products that contain oils, take care in timing applications to early morning/late afternoon/early evening to minimize the potential for leaf burn. Use with care on plants with tender tissue. Do not apply to known spray sensitive plant species such as: impatiens flowers, fuchsia flowers, hibiscus flowers, some rose flowers, ornamental olive trees, red maples, some carnation varieties or similar plants without prior testing. Keep unprotected persons out of treated areas until sprays have dried.
FUNGICIDE USE

Where to use: On FRUITS, NUTS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, ORNAMENTALS, AND SHRUBS

Diseases controlled: Powdery mildew, black spot, downy mildew, anthracnose, rust, leaf spot, botrytis, needle rust, scab and flower, twig and tip blight.

How to use: This product is an effective fungicide for the prevention and control of various fungal diseases including powdery mildew, black spot, downy mildew, anthracnose, rust, leaf spot, botrytis, needle rust, scab and flower, twig and tip blight. As a preventative, apply this product on a 7 to 14 day schedule until the potential for disease development is no longer present. To control disease already present, apply this product on a 7 day schedule until disease pressure is eliminated. Then continue spraying on a 14 day schedule to prevent the disease from recurring. To prevent rust leaf spot diseases, anthracnose and scab, begin applications at the first sign of spring budding. To prevent powdery mildew, apply in mid-summer or when disease is first detected. Continue applications until disease pressure no longer exists. Thoroughly spray all plant leaf surfaces (including undersides of leaves) until foliage is uniformly wet, but not dripping. Excessive application is unnecessary and to be avoided.
Where to use: On FRUITS, NUTS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, ORNAMENTALS, AND SHRUBS.

**How to use:** Apply this product at the first sign of listed insects/mites. This product is most effective when applied on a 7 to 14 day schedule. For heavy insect populations, spray on a 7 day schedule. Thoroughly spray all plant surfaces (including undersides of leaves) until foliage is uniformly wet, but not dripping. Excessive application is unnecessary and to be avoided.

USE RESTRICTIONS

Entry restrictions
Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Application Restrictions
Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
Remove pets, birds, and cover fish aquariums before spraying.
Not for use in outdoor misting systems.
Do not make applications during rain.
Do not water the treated area to the point of run-off.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if inhaled. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

STORAGE AND DISPOSAL
Pesticide Storage: Keep from freezing. To be stored in original container and placed in areas inaccessible to children.
Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container.
If empty- Place in trash or offer for recycling if available. If partly filled- Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
## FIRST AID

| If inhaled:          | Move the person to fresh air.  
|                     | If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.  
|                     | Call a poison control center or doctor for treatment advice.  
| If on skin or clothing: | Take off contaminated clothing.  
|                     | Rinse skin immediately with plenty of water for 15-20 minutes.  
|                     | Call a poison control center or doctor for treatment advice.  
| If in eyes:          | Hold eye open and rinse slowly and gently with water for 15-20 minutes.  
|                     | Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
|                     | Call a poison control center or doctor for treatment advice.  
| If swallowed:       | Call a poison control center or doctor immediately for treatment advice.  
|                     | Have person sip a glass of water if able to swallow.  
|                     | Do not induce vomiting unless told to do so by a doctor.  
|                     | Do not give anything by mouth to an unconscious person.  

Hot Line Number 1-800-858-7378. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic organisms including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

BEE HAZARD
This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or open flame.
Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
