Inhibits reinfestation by fleas for up to 7 months

For use on furniture, animal quarters, carpets, kennels, poultry houses

For indoor/outdoor use

Keep Out Of Reach Of Children

CAUTION (See back panel for additional Precautionary Statements and First Aid)

Net Contents 1 fl. oz.
Flea Beater-7

ACTIVE INGREDIENT:
2-[1-Methyl-2-(4-phenoxyethoxy) pyridine (pyriproxyfen) .......................................................... 1.30%

OTHER INGREDIENTS*: .................................... 98.70%

TOTAL .................................................................. 100.00%

*Contains petroleum distillate

EPA Reg. No. 53883-60-4     EPA Est. No. 4-NY-1
See attached booklet for Direction for Use

FIRST AID

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give any liquid to the person.
• Do not give anything by mouth to an unconscious person.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact SafetyCall® International (866) 897-8050 for emergency medical treatment information.

NOTE TO PHYSICIAN: Contains petroleum distillate; vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage and Spill Procedures: Store upright at room temperature. Avoid exposure to extreme temperatures. Store in a locked area out of reach of children and domestic animals. In case of spillage or leakages, soak up with an absorbent material such as sand, sawdust, earth, Fuller’s earth, etc. Dispose of with chemical waste.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spilled bait, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for Guidance.

Container Disposal: If empty - Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

If partly filled: Call your local solid waste agency for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.

• Note:
Treatments in Combination with an Adulticide Insecticide: In the event of a situation where the bait used to control insects is not effective, use this product as a residual spray. When spraying in areas where there are children or pets, the same precautions should be used as for other products. In general, treat at the low end of the recommended treatment rate. In areas where there is potential for contamination of food or water, use this product sparingly and keep it away from these areas. Treatments in Combination with Adulticide Insecticides: Use this product in alternation or in combination with other types of chemicals, such as pyrethroid insecticides. These insecticides control adult flying insect pests. As an IPM strategy, combining or alternating this product with other types of chemicals will allow for the control of different pests and may extend the period of effectiveness of the product. Tank Mixes: Make applications in accordance with the label instructions. For treatments and applications, thoroughly wet floors, walls, or a crack and crevice application to areas where pests are active and may find entrance or harborage. Windows, and overhead areas where these pests may breed. lids, vents, and those use precautions and label instructions may be extended to animal bedding, manure, and other substrates in a band 6-10 feet wide adjacent to the building foundations, walls, around doors and conduits, stalls, stanchions, floors, and walkways. When this product is used alone, treatments can be extended to animal bedding, manure, and other potential areas where flying insects may breed. Treatments in Perimeter Areas and Surfaces: Use 1 oz. of the product per gallon of water and apply to exterior surfaces of buildings, porches, patios, garages, and other areas where these pests may enter. Interior areas where these pests may enter to the building. Treatments in buildings by flying insects may control, treat areas in, on and around livestock and poultry housing and treatments in, on and around animal bedding, manure, and other substrates in a band 6-10 feet wide adjacent to or on the building. Ineffectiveness or other unintended consequences of application, all of which are beyond the control of the manufacturer in no case shall the manufacturer be liable for consequential, special or indirect damages of application, all of which are beyond the control of the manufacturer in no case shall the manufacturer be liable for consequential, special or indirect damages.
