Derived from iron (Fe)

Controls weeds, disease, moss, algae, & lichens in turf

Kills dandelions & clover

ACTIVE INGREDIENT:
Iron HEDTA (FeHEDTA) .................. 26.52%
OTHER INGREDIENTS: .................. 73.48%
TOTAL: .................................. 100.00%

Keep Out Of Reach Of Children
CAUTION (See Back Panel for Additional Precautionary Statements)
Net Contents 16 FL. OZ. (473 ML)

Concentrate makes over 3 gallons

People & Pets can enter treated area when spray dries

See results in hours
✓ Can be used on new lawns after grass emergence

✓ Can reseed lawn one day after spraying

✓ Can be used to spot treat problem areas

✓ Even works in cool weather
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE SITES

Use to selectively control/suppress broadleaf weeds and diseases growing in lawns.

Pests:
Controls moss, algae, lichens, liverworts, and lawn diseases (such as dollar spot, snow mold, and rust).

Controls or suppresses weeds such as but not limited to:
- Black medic (Medicago lupulina)
- Broadleaf plantain (Plantago major)
- Bull thistle (Cirsium vulgare)
- Canada thistle (Cirsium arvense)
- Common chickweed (Stellaria media)
- Creeping buttercup (Ranunculus repens)
- Creeping charlie/Ground ivy (Glechoma hederacea)
- Dandelion (Taraxicum officinale)
- Dovefoot geranium (Geranium molle)
- English daisy (Bellis perennis)
- False dandelion (Hypochoeris radicata)
- Healall (Prunella vulgaris)
- Lawn burweed (Soliva ptero-sperma)
- Moss, liverworts, algae and lichens
- Narrow-leaved plantain (Plantago lanceolata)
- Oxalis (Oxalis spp.)
- Persian Speedwell (Veronica persica)
- Prostrate knotweed (Polygonum aviculare)
- Shepard's-purse (Capsella bursapastoris)
- Silverweed cinquefoil (Potentilla anserina)
- Slender speedwell (Veronica filiformis)
- White clover (Trifolium repens)
- Wild chamomile (Matricaria chamomilla)
- Wild geranium (Geranium robertianum)

Controls or suppresses diseases such as but not limited to:
- Dollar spot
- Rust
- Snow mold
**WHAT WILL I SEE?**

Works quickly, dying weeds will be seen within hours of application. Treated weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment, however the grass will recover within a few days to weeks. May stain thatch (dead grass under lawn), this does not affect the health of the grass.

**USE PRECAUTIONS**

Do not apply to drought stressed grass; ensure lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 85°F. Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area to your lawn. Do not apply to newly seeded areas prior to grass seed germination. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed with water. To avoid staining wait until treated areas dries before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not irrigate within 3 hours of application. Do not apply to the same area more than 4 times a year.

**APPLICATION DIRECTIONS**

Shake well before using. Mix one part of this product with 24 parts water (5 oz. in 1 gallon of water). Apply the mixed solution at a rate of 2.5-10 gallons/1,000 ft\(^2\) (2.8-11.5 fluid oz./yard\(^2\)). The standard rate for this product is 5.75 fl. oz./yard\(^2\); use the higher rate (11.5 fl. oz./yard\(^2\)) on tough perennial weeds, such as buttercup and broad-leaved plantain. This product may also be used at 2.8 fl.oz./yard\(^2\) (2.5 gallons/1,000ft\(^2\)) on moss, black medic, Persian speedwell, slender speedwell, wild geranium, lawn diseases (such as dollar spot, rust, and snow mold), or on weed seedlings of false dandelion, English daisy, dandelion or white clover. Any standard hand-held or backpack sprayer can be used.

Thoroughly spray weeds. Use a coarse nozzle setting to reduce drift. Uniform coverage is important.

Repeat treatment in 3 to 4 weeks for best results.

Best results are obtained when applied in the Spring or Fall when environmental conditions are cool and there is ample moisture.
STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only away from open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS-HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes slight eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS - To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
