silverfish are found or normally occur including dark corners of rooms and closets; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerator and cabinets; around plumbing and other utility installations. For Ants: Apply to ant trails, also around doors and windows and wherever else these pests may find entrance.

Wasps, Bees and Hornets: Apply dust on nest and surrounding areas. To treat nests in wall voids, drill a hole in the wall, blow in dust and reseal. It is best to treat wasp nests at night when insects are less active and have returned to the nest. Do not wear loose fitting clothing. Take necessary precautions to avoid stings. For best results, carefully dust nest near nest and check one or two days after treatment to ensure complete kill. Repeat if necessary. If possible, remove and destroy nest to prevent hatching of new insects. For ground nests, carefully dust entrance and surrounding areas. Retreat in one or two days if wasp activity is still present. Do not use this product to treat overhead nests.

For Ants:

Kills and repels

For indoor & outdoor use

This container is a puffer applicator

ACTIVE INGREDIENT: Permethrin (CAS No. 52645-53-1) 0.25%
OTHER INGREDIENTS: 99.75%
TOTAL: 100.00%

EPA Est. No. 4-N1-1 EPA Reg. No. 4-430

Kills and repels

For indoor & outdoor use

This container is a puffer applicator

KEEP OUT OF REACH OF CHILDREN

CAUTION: See side panels for additional Precautionary Statements and First Aid

Net Weight 10 oz. (283.5 g)
Packed by weight, not volume

PRECAUTIONARY STATEMENTS
HAZARDS TO DOMESTIC ANIMALS

CAUTION: Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not allow pets which are not listed for use on this label to contact treated areas.

DO NOT USE ON CATS. May be toxic or potentially fatal if applied to or ingested by cats. Accidental application to cats and/or grooming with a recently treated dog may result in tremors and/or uncoordinated muscle movement. If this occurs, immediate veterinary care should be provided.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions. For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
