ATRACTS AND KILLS HOUSE ANTS

Kills sweet and grease eating ants

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

Ingredients:
- Boric Acid
- Other Ingredients

Total: 100.00%

Usage:
- Place a few drops of Revenge Liquid Ant Bait wherever ants are seen and in mouth of ant hills. Ants will carry bait to nests. Repeat as needed, or twice monthly as preventative.
- Mix one or two drops of salad oil with a few drops of Revenge Liquid Ant Bait and place wherever ants are seen. Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

Storage and Disposal:
- Store and transport in an upright position. Store in a cool dry area inaccessible to children or pets.
- If empty - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.
- If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

First Aid:
- If Swallowed: Call a poison control center or doctor immediately for treatment advice.
- If on Skin or Clothing: Wash thoroughly with soap and water after handling.
- If in Eyes: Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- Rinse skin immediately with plenty of water for 15-20 minutes. Take off contaminated clothing. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by the poison control center or doctor. Have person sip a glass of water if able to swallow.

Directions for Use:
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Product to be used in the immediate area around the home, indoors, patio, play yard, garage.
- Place product where ants are seen.

More Information:
- CONTROLLING AND ELIMINATING ANTS: First ants will come in large numbers, but soon disappear. This product is specifically formulated to allow worker ants to consume the product and survive long enough to carry the liquid back to the nest and deliver a dose to the rest of the colony. The key to obtaining effective control is to monitor the placements and ensure there is always a fresh supply of Revenge Liquid Ant Bait on each placement. Complete control may take up to two weeks.

Precautionary Statements:
- Hazards to Humans and Domestic Animals:
- Keep Out Of Reach Of Children
- CAUTION: Harmful if swallowed or absorbed through the skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

Storage:
- Store and transport in an upright position. Store in a cool dry area inaccessible to children or pets.

Disposal:
- If empty - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.
- If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

Call a poison control center or doctor immediately for treatment advice.

Rinse skin immediately with plenty of water for 15-20 minutes. Take off contaminated clothing. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by the poison control center or doctor. Have person sip a glass of water if able to swallow.
**ACTIVE INGREDIENT:**
Boric Acid . . . . . . . . . . . . . . . . 5.40%

**OTHER INGREDIENTS**
. . . . .94.60%

**TOTAL**
. . . . . . . . . . . . . . . . . 100.00%

EPA Est. No. 4-NY-1

**EPA Reg. No. 4-424**

**CONTROLLING AND ELIMINATING ANTS:** Find ants will come in large numbers, but soon disappear. This product is specifically formulated to allow worker ants to consume the product and survive long enough to carry the liquid back to the nest and deliver a dose to the rest of the colony.

**USING REVENGE LIQUID ANT BAIT:** Do not dump on bait placements, the more bait placements, the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found. Ants typically follow defined trails from the nest to food or water. Placing Revenge Liquid Ant Bait close to these trails will improve control.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Product to be used in the immediate area around the home, indoors, patio, play yard, garage. Place product where ants are seen.

**FOR SWEET EATING ANTS:** Place a few drops of Revenge Liquid Ant Bait wherever ants are seen and in mouth of ant hills. Ants will carry bait to nests. Repeat as needed, or twice monthly as preventative.

**FOR GREASE EATING ANTS:** Mix one or two drops of salad oil with a few drops of Revenge Liquid Ant Bait and place wherever ants are seen. Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foods. Ants will carry bait back to nests.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
