DIRECTIONS FOR USE

1. Insert key in hole on top of the bait station and turn the key 90°.
2. Lift lid and remove the key.
3. Place a fresh bait block onto each of the two pegs in the square bait compartments.
4. Replace the key into the hole and turn it 90° to lock in place.

ACCESSIBLE TO PETS.

USE RESTRICTIONS:
This product may only be used to control house mice inside homes. For use in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings.

STORAGE AND DISPOSAL
Nonrefillable container. Do not reuse or refill this container except as described in the directions for use.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait.

CAUTION:
Avoid contact with eyes, skin or clothing. Avoid breathing dust. Keep away from children, domestic animals and pets. Any person who reloads bait into the station, retrieves carcasses or unused bait following application of this product must wear water-proof gloves. Wash hands thoroughly immediately after such activities.

ENVIRONMENTAL HAZARDS
Pesticides may harm beneficial insects and other animals. Do not apply when there are honey bees in the area. Avoid contact with other chemicals. Store only in original container, in a dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

FIRST AID
If swallowed: Have this label with you when obtaining treatment advice. Induce vomiting if there is no danger of inhaled vomit. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

If on clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

If on skin:
Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor immediately for treatment advice.

Pesticide Storage:
Store in an outdoor drain. Use only in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings. This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated on this label.

This bait station is resistant to tampering by children. Use indoors only.

DIRECTIONS FOR USE

1. Insert key in hole on top of the bait station and turn the key 90°.
2. Lift lid and remove the key.
3. Place a fresh bait block onto each of the bait stations.
4. Close the lid until it snaps, making certain that station is locked.
5. Prevent:
   - Treatment for Pet Poisoning:
     - If inhaled: Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor immediately for treatment advice.
     - If on skin or in eyes: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
     - If swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

APPLICATION DIRECTIONS:

- Eliminate possible rodent food sources. Store food in sealed containers and sweep up food spills.
- Bait Station:
  - This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated on this label.
- Selection of Treatment Areas:
  - Duct openings.
  - Use of non-refillable mouse bait stations is recommended in areas where pets and children are present.
- Dispose:
  - Do not contaminate water, food or feed by storage or disposal.

READ THIS LABEL

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Note to Physician or Veterinarian:

- If animal eats bait, call veterinarian at once.
- Contains the anticoagulant chlorophacinone. If swallowed, this material may reduce the clotting ability of blood and cause bleeding. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K1 by intramuscular or oral administration.
- Pesticide Storage:
  - Do not contaminate water, food or feed by storage or disposal.
  - Store only in original container, in a dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

FIRST AID

- Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

STORAGE AND DISPOSAL

- Storages and Disposal:
  - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
  - Pesticide Disposal and Container Handling:
    - Nonrefillable container. Do not reuse or refill this container except as described in the directions for use.
