**Ant, Flea & Tick Killer**

**Granules**

Soil and turf insect control

Long lasting insect control - up to 4 weeks

Kills: Ants, Billbugs, Brown Dog Ticks, Chinch Bugs, Crickets, Cutworms, Earwigs, Fire Ants, Fleas, Sod Webworms, and other listed insects

10 lbs. treats up to 5,000 sq. ft.

### Application

**Overall Lawn**

- Use spreader setting chart to determine appropriate setting for your spreader.
- Treat as directed in Rate chart. Thorough coverage is important. Water in granules where needed.

**Japanese beetle**

- Water grass thoroughly with ¼ to ½ gallon of water per 1,000 sq. ft.
- Apply 2½ lbs. per 1,000 sq. ft. (an area 10' by 10') to the lawn around a single Japanese beetle, or 10 lbs. treats up to 5,000 sq. ft.
- Water grass thoroughly after application. Repeat as necessary.

**Grub**

- Treat any time between late July and early October.
- If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give CPR.

**Webworm**

- Water grass thoroughly with ¼ to ½ gallon of water per 1,000 sq. ft.
- Apply 2 lbs. per 1,000 sq. ft. (an area 20' by 50')
- Water lawn lightly after application. Repeat as necessary.

**Earwigs**

- Water lawn lightly with ¼ to ½ gallon of water per 1,000 sq. ft.
- Apply 2 lbs. per 1,000 sq. ft. (an area 20' by 50')
- Water lawn lightly after application. Repeat as necessary.

### How to Use

1. **Flea**
   - Apply directly to the lawn or garden area.
   - Water treated area as directed on this label. Do not water treated area until dusts have settled.

2. **White Grubs, Billbugs**
   - Apply 2½ lbs. around, each fire ant mound.
   - Note: For best results, apply in early evening or morning or late evening hours. Treat disturbed areas as soon as possible.
   - Disturb the ants and cause migration, so that they are exposed to the granules.

3. **Brown dog ticks, Boxelder Bugs, firefighting**
   - Apply 2½ lbs. around, each fire ant mound, 3.2 oz. for use on eave or roof area.
   - Note: For best results, apply in early evening or morning or late evening hours. Treat disturbed areas as soon as possible.
   - Disturb the ants and cause migration, so that they are exposed to the granules.
