**Repels Rodents**

Bonide Rat Magic™

Use in homes, attics, basements, sheds, patios, wood piles, barns, stables, bird feeders, cellars and trash cans.

**How It Works**

The unique blend of ingredients in this product triggers "escape/avoidance" behavior in rodents. This balanced blend of natural essential oils humanely provides protection against rodents, and the pleasant odor is very pleasant when used as directed.

**Usage**

- Use in homes, attics, basements, sheds, patios, wood piles, barns, stables, bird feeders, cellars, and trash cans.
- Ready to use. Simply hang or place scent packs at all entry points and around structures.
- Repels rats, chipmunks, squirrels, mice, and other pests.

**People & Pet Safe**

This product contains natural essential oils and is biodegradable. It is safe for use around people, pets, and children. It is recommended for use in homes with children and pets.

**Active Ingredients**

- Peppermint Oil: 2.00%
- Castor Oil: 1.20%
- Cedarwood Oil: 1.00%

**Inert Ingredients**

- Attapulgite-type clay
- Limestone
- Water

**NET CONTENTS**

8 - 1.5 oz. (42.5g) Scent packs

**How to Apply**

1. Begin treatment with one scent pack per average sized room. Increase the number of scent packs, as needed, until desired result is achieved. It may require more scent packs per room.
2. While this product contains natural essential oils, its odor is very pleasant, too. Many scent packs in a small area can be used.
3. For less concentrated areas, use 1 scent pack per 16 square feet. For dense infestations, use 1 scent pack per 8 square feet.
4. To repel squirrels from bird feeders, scatter scent packs around the base of the feeder, and at/on the feeder itself by stapling them to a fence post. This product also masks scent trails that rodents use to return to the area.
5. After the rodents have left the indoor areas, use a Perimeter/Barrier with scent packs. Block all points of reentry and place scent packs at all entry points and around structure.

**NOTICE:**

Effective rodent control begins with good cultural practices such as exclusion, and sanitation. To keep rodents out of structures and premises, be sure all entry points are sealed. Keep food, water, and garbage out of reach of rodents. Clear all clutter and garbage daily. Regularly check the exterior of the structure for signs of rodent activity. Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets.

**Other Precautions:**

- Product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of eye contact, flush thoroughly with soap and water. Seek medical attention if irritation persists.

**Use Conditions**

- This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the EPA. Bonide represents that the ingredients qualify for exemption from registration under FIFRA. This product is not registered for use in California, Oregon, Washington, or Puerto Rico.
