Systemic Insect Control

Neonic alternative chemistry

Controls listed hard-to-kill insects including flower thrips, mealybugs, scale, two-spotted spider mites, and whiteflies

On: Roses, Flowers, Ornamentals, Shrubs & Shade Trees

ACTIVE INGREDIENT:
Acephate .................................. 9.4%

OTHER INGREDIENTS: .................. 90.6%

TOTAL .................................. 100.0%

EPA Est. No. 4-NY-1 EPA Reg. No. 4-490

Pint makes up to 16 gallons of diluted spray

Keep Out Of Reach Of Children

CAUTION (See back panel booklet for additional Precautionary Statements)

Net Contents 16 FL OZ (473 ML)
Systemic Insect Control

✓ Use on over 100 plant varieties

✓ Stops plant damage
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RESTRICTIONS
• Do not apply this product in a way that will contact people or pets.
• For outdoor residential use only.
• Do not apply to plants to be used for food or feed.
• Do not use on turf, including lawns.

MIXING INSTRUCTIONS
FOR ROSES, FLOWERS, ORNAMENTALS, SHRUBS & SHADE TREES
 o Aphids & Grasshoppers
   Amount to Use: 2 Tbs (1 fl oz) per gallon of water.

 o Japanese Beetles and Elm Leaf Beetle
   Amount to Use: 4 Tbs (2 fl oz) per gallon of water.

 o Other Listed Insects Commonly Found on Ornamental Plants
   Amount to Use: 3 Tbs (1 ½ fl oz) per gallon of water.

Clean sprayer after use by flushing with water.

1 Tablespoon (Tbs) = 3 teaspoons (tsp)
1 fl oz = 2 Tbs

HOW TO APPLY
Spray entire plant covering both sides of foliage thoroughly.
WHEN TO APPLY
Spray when insects are present or when feeding injury is first noticed. For hard to kill insects, such as flower thrips, gladiolus thrips, mealybugs, scales, two spotted spider mites, and whiteflies, spray 2 to 3 times, waiting 7 to 10 days between each application. Repeat if re-infestation occurs.

OTHER INSECTS COMMONLY FOUND ON ORNAMENTAL PLANTS
Aphids, armyworms, bagworms, **black vine weevil, budworms, cabbage looper, casebearers, catalpa sphinx moth, cherry laurel leaffier, Cuban laurel thrips, elm leafbeetle, fall cankerworm, fall webworm, flower thrips, gladiolus thrips, **grasshoppers, green striped mapleworm, gypsy moth, hornworm, Japanese beetles, lacebugs, leafhoppers, leafminers, oblique banded leafrollers, omnivorous leaffier, maple shoot moth, mealybugs, mimosa webworm, Nantucket pine tip moth, oak webworm, oleander caterpillar, orange-striped oakworm, **obscure root weevil (adults), pine tip moth, poplar tentmaker, psyllids, rose midge, sawflies, scales (crawlers), spittlebug, sunflower moth, tent caterpillars, two spotted spider mites (suppression), webworms, willow leaf beetle, white-marked tussock moth, whiteflies and yellow necked caterpillar.

**SPECIAL DIRECTIONS
For Obscure Root Weevil (Adults): Spray foliage in late spring as soon as feeding is noticed (usually about April). Repeat every 4 weeks through September. (Mid-July through August is the peak feeding times.)

For Black Vine Weevil: Spray foliage and soil beneath plants. Begin applications in mid-June. Spray 4 times, waiting 3 weeks between each application.

For Grasshoppers: Spray foliage of plants and soil beneath plants.

Honeysuckle Aphid on Honeysuckle: Spray thoroughly as leaves begin spring expansion. Reapply in 2 weeks with a third spray 4 weeks after second application.
This product can be used on over 100 plant varieties including: abelia, ageratum, alder, aluminum plant, alyssum, arborvitae, ardisia, ash, asparagus fern, aster, azalea, bald cypress, barberry, begonia, birch, bird of paradise, bischofia, bougainvillea, Boston ivy, boxwood, calendula, camellia, carissa, carnation, catalpa, cedar, cherry laurel, Chinese elm, Chinese holly, chrysanthemum, cockspur thorn, coleus, cotoneaster, crape myrtle, croton, Cuban laurel (ficus), dahlia, daisy, dieffenbachia, dracaena, euonymus, false aralia, fir, flowering almond, flowering cherry, flowering plum, fruitless mulberry, fuchsia, gardenia, geranium, gladiolus, gloxinia, hackberry, hawthorn, hemlock, hibiscus, holly, honey locust, honeysuckle, ivy, juniper, lantana, ligustrum, lilac, linden, magnolia, mahonia, maple, marigold, mimosa, mock orange, nandina, nepthytis, oak, oleander, orchid, ornamental cabbage, osmanthus, palm, periwinkle, petunia, philodendron, photinia, pine, pittosporum, podocarpus, poinsettia, poplar, primrose, purple passion, pyracantha, rhododendron, rose, rose of Sharon, salvia, sassafras, schefflera, Siberian elm, silver maple, slippery elm, snapdragon, spirea, spruce, staghorn sumac, sweet gum, sycamore, tulip, viburnum, wandering Jew, wild cherry, willow, wisteria, yaupon, yew (taxus), yucca and zinnia. 

**Important:** Do not use on American elm, flowering crabapple, sugar maple, red maple, cottonwood, redbud or weigelia as foliage injury may occur.

---

**COMBINATION SPRAY WITH FUNGICIDE ON ORNAMENTAL PLANTS**

This product may be mixed with the following fungicides (at the label rates for both products): Bonide INFUSE Systemic Disease Control, Bonide Fung-onil Multi-Purpose Fungicide or other EPA registered fungicide labeled for use on ornamentals.

Follow directions and restrictions on both labels. Do not make more than two consecutive applications of combination spray. If mixed with another product, the most restrictive labeling applies.
COMBINATION SPRAY WITH FUNGICIDE OR FERTILIZER ON ROSES

May be used together with Bonide INFUSE Systemic Disease Control and Bonide Fung-onil Multi-Purpose Fungicide or other EPA registered fungicide labeled for use on ornamentals at the rates specified on each product label. Apply fungicides on a regular schedule for disease control; add this product only when necessary for insect control. Do not apply more than two consecutive applications in combination with any of the above fungicides.

RESTRICTION

Do not allow people or pets to enter the treated area until sprays have dried.

STORAGE AND DISPOSAL

Pesticide Storage: Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Do not contaminate feed or foodstuffs. Store in a cool, dry place, preferably in a locked storage area. Do not store diluted spray.

Pesticide Disposal and Container Handling: If empty - Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. If partly filled – Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**Note to Physicians:** Emergency Information call 1-800-858-7378. This product contains a cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition are present, atropine is antidotal. 2-PAM may also be given in conjunction with atropine.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. When handling this product, wear safety glasses, chemical resistant gloves (including barrier laminate, butyl, nitrile or neoprene rubber, polyvinyl chloride or viton), long pants, socks, shoes and long-sleeved shirt. When using outdoors, spray with the wind to your back and do not use when wind speeds are 10 mph or more. Wash the outside of the gloves with soap and water before removing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to birds. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage system. Cover or soil-incorporate spills. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product, or allow it to drift to blooming crops or weeds, if bees are visiting treatment area.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Keep away from heat and open flame.
WARRANTY

Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
